## BIG INCREASE STANDARD OIL BUSINESS HERE

Evidence of the rapid development of this county are being daily manifested, the latest being the increase in the force employed in this city by the Standard Oil company. Like all business concerns doing business here and having the home office in one of the larger cities, it was little realized that the demands for their product was increasing by leaps and bounds. As the figures began to mount to a point that caused astonishment, additional men were sent to the assistance of Mr. Winzler, the special agent at this point, until today eight men are necessary to care for the volume of business. Even with this, it was necessary for an assistant to be sent here. Tonight there will arrive from Sacramento Lester R. Kirkham, who will occupy the office of assistant special agent and help Mr. Winzler to keep up with the demands of this territory.

In addition to increasing the force, the delivery of the products of the company of horses will be stopped. Motors will take the place of the

horse-drawn vehicles, and it is expected that with this change the usual efficient service that has been rendered will be continued and kept in an up-to-the-minute fashion.

### NEW SLAUGHTER HOUSE FOR KLAMATH PACKING CO.

The Klamath Packing Co., is having plans drawn by F. H. Hunter for their new slaughter house at Tatum, which is to replace the one recently destroyed by fire. The new building will be of concrete and will be modern in every respect. As soon as the plans are completed bids will be called for and work begin at once.

The new building will be located on the railroad, which will facilitate the better and quicker handling of meats from their plant to the camps and will be a valuable addition to their already up-to-date butcher business.

### HERE FROM BEND

T. L. Collier arrived here last evening from Bend, which city he left yesterday morning. He says the roads are in a better condition than they were last May, when he was here before. Mr. Collier is here for the purpose of installing the National weather strip in a number of homes and the Mills addition school house. This weather strip is a particularly meritorious article and can be placed on any door or window and will make it dust proof and weather proof. Mr. Collier is accompanied by J. W. Baker.

### YANKEE SOLDIERS BRING FOODSTUFFS TO HUNGRY SERBS

NISH, July 18.—American dough-boy chauffeurs from the Western front have done their bit to help Serbia. With the same dash and determination they displayed carrying up ammunition to the 75's in the Argonne, they have pushed their trucks over the so-called "impassable" roads of Serbia and have brought thousands of tons of desperately needed food, clothing and medicines to starving mountain hamlets and remote districts in the interior of Serbia.

The scarcity of Serbian chauffeurs caused the American Red Cross to import American truck drivers. Many were men loaned from the American army.

The boys worked under very difficult conditions, far from their base. The road to Uskub runs over the

famous Babouna pass, and is tortuous and steep with innumerable hair-pin turns. Along its hundred miles from Monastir it was crowded with camions, wagons, ox carts and refugees. All along the route were cars overturned and out of commission. Sometimes the traffic became gnarled into inextricable tangles and hours passed before things were straightened out.

### WAR TAXES DUE JULY 20.

War taxes for the month of May on ice cream and soda water, and on shirts, shoes and millinery and the like are due and payable on or before July 20th at the office of the Collector of Internal Revenue located at Portland, according to advices received from that office. Penalty is provided by law where payment is not made when due.

### OIL DRILLING PROGRESSING.

Work in drilling for oil is progressing each day on the J. Manning ranch. With the completion of a 400 foot well for water purposes the actual start on the oil drilling has been made. A hole at a width of 18 inches and 150 feet deep has been bored.

### EDITORIAL.

I want to say a last word to you about fruit. During the past week I have been swamped with orders for berries and it has been impossible for me to fill half of them. As I told you in my last issue, grab your berries wherever you can get them. The same is true of all fruits. I am now getting Apricots from the Rogue River Valley, but the buyers over there are making a fight to get the entire supply and every day I am looking for a big increase in the price or the stopping of the supply. That is why I am talking to you again about fruit. Buy every particle you can preserve, for the price of fruit in this winter will be almost prohibitive. People are beginning to realize now that the situation is getting serious in the matter of all articles in cans, but it is going to be even more serious than anyone fears. Can your fruits and vegetables. That is the only safe and sure way that you will be able to get any until next year's crop will relieve the situation.

## Please Read and Digest

Sixty-five cows now supply the milk for the City Milk Depot. It has been rumored that we are at the mercy of the farmer. Where would you go if you wanted your fill of good milk and cream?

We are milking by machine thirty first class cows, but it takes lots of money to buy cows and people want and must have milk, so we have contracted with two reliable farmers and dairy men for milk to be handled and delivered as we want it handled and delivered. Their premises and facilities for handling have been pronounced O. K. by the State Dairy Inspector. What more could you want than good milk and cream handled like it should be handled on the farm?
