

One Seat for Two Congressmen

When a candidate for office dies while the votes are being counted, does that nullify the victory of his opponent. Out of the frozen north of Alaska comes this question as two congressmen arrive in Washington with credentials for the office. James Wickersham, congressman from Alaska since 1906, had Charles Sulzer as opponent in 1918. While the votes were being counted in November, Sulzer died. The governor of Alaska ordered a special election. Wickersham claimed his election valid and went to Washington. He offered no opposition to George B. Grigsby at the special election and the latter was elected. Both have been given offices at the capital until the issue is decided.

U. S. WAR SILK INTO PEACE FROCKS

Eighteen million yards of silk at a bargain price makes it seem probable that the fall will be a season of "rustles." This silk has been thrown on the market by the War Department—a special silk made for strapping cartridge bags but not now needed. Col. E. E. Garrison of the department had this frock of the silk made up for his secretary to prove its dress uses. It will likely retail at about \$2 a yard. The bids were opened at Washington July 10, after which it will be decided how the millions of yards will be marketed. So it may be expected that women should prepare for a silk year when wholesalers dictate the fashion for fall, winter and spring.
