## MINERS FIND LARGE CAVE.

SAN LUIS POTOSI, Mexico, July 22.—Workers in a mine at Matuschuala, near here, have discovered a cave which is said to be one of the largest in the republic. It is more than 300 feet below the level of the mine and is 15 feet in width. Its length has never been estimated but exploring parties expect to survey it carefully in the near future. One of the most fantastic of its many grotesque adornments is a sulphurous fountain which pours out continuously a stream of blue water.

## DANGER OF HITTING DEER BY AUTO IN UTAH FOREST.

SALT LAKE CITY, July 21.—Deer are so plentiful in the Kaibear forest, in Southern Utah, that automobilists must exercise care not to run over the animals, according to report. The deer show little fear and their natural curiosity often keeps them standing on the roads until the cars are almost upon them. This report was confirmed by Aubrey E. Tolton, state bank examiner, who has returned from a trip thru that region.
