

**JAPAN TRADES MOST WITH U. S.** this trade was carried in American vessels.  
 YOKOHAMA, July 22.—One half of all the foreign trade thru this port last year was in buying from or selling to the United States, says the Yokohama Chamber of Commerce. It adds that less than five percent of all the imports.

## HOMES RUINED BY THE ENEMY OVER SERBIA

BELGRADE, July 22.—In northern Serbia many families, wealthy before the war, have been found by officers of the American Relief Administration and the American Red Cross living in stables and chicken coops. Their homes had been destroyed by the advancing or retreating armies. Their beds were heaps of straw covered with burlap. It was all that remained as furniture in their once pretentious estates. They were penniless and had no clothing except what they wore.

The condition of the Serbian peasants is beyond description. A large proportion are homeless. Most families have been deprived of their wage-earners by death. The mother is now obliged to support herself and children on what she can produce on a farm stripped of its machinery and tools. Most of the small stores of seed for next spring's sowing were removed by the enemy.

The Red Cross hospitals are crowded with mothers carrying emaciated children, old men with the infirmities of their years, old women bent and misshapen, the young men broken by war. The soup kitchens tell the same story.

## LONDON BRIDGE IS NO LONGER DENSEST CENTER OF TRAFFIC

LOS ANGELES, July 22.—London Bridge no longer can claim the distinction of being the densest center of traffic in the world, according to traffic experts of the Los Angeles Railway who have been studying conditions here. More vehicles—street-cars, automobiles, wagons and carts they say, pass the intersection of 9th and Main streets in this city, per hour, than in any other part of the world.

A recent inquiry said to have been conducted in London showed that the average run of vehicles over London Bridge was 1497. This included all classes of vehicles, from the motor tram to the horse drawn truck and the coster donkey cart.

In order to determine just where Los Angeles stood from the point of dense traffic and to have figures for the study of traffic experts later on, the Los Angeles Railway established a checking station at Ninth and Main streets and found that at a given hour 1627 vehicles, most of which were motor-driven, passed the corner. This is 138 in excess of the London bridge traffic figures for the same length of time.

## MRS. NEW ACTIVE IN G. O. P. WOMEN RANKS

As one state after another ratify the national suffrage amendment, women at the national capital whose husbands are versed in politics, are fast becoming active. Mrs. Harry S. New, wife of the Senator from Indiana, has joined Mrs. Medill McCormick of Illinois and is now active in affairs of the National Women's Republican Committee.

## REJECTION OF JAPANESE CLAIM DOES NOT STOP WORK.

TOKIO, July 22.—Rejection of the Japanese claim for recognition of racial equality in the Peace Conference apparently has not discouraged those who are working in support of the principle through the Racial Indiscrimination League which was organized in Japan about six months ago. The organization has now been made permanent, and its plan is to resubmit the proposal every year at the sittings of the League of Nations Council.

The organization is now at work upon drafts of proposals which will be submitted to the first sitting of the Council at Washington. An effort is being made to secure support for the next attempt from both the Chinese and the people of India by circulation of propaganda in those countries.

## The Woman's Store

### Of Special Interest to Mothers—An Unusual July Clearance Sale of Boys' Wash Suits

SEE WINDOW DISPLAY.

## At the Theatres

George Beban, the beloved Italian-French character actor of the screen, is coming to the Star Theatre tonight only in his newest Paramount picture "One More American." This was written and directed by William C. DeMille, the noted writer and director of photoplays, who has directed such pictures as Geraldine Farrar's "Carmen," "The Warrens of Virginia" and others. The cast includes Helen Eddy, Mr. Beban's leading lady in so many of his former pictures, Camille Ankwich, Raymond Hatton, Jack Holt, Ernest Joy and others as well known.

The big double bill at the Liberty tonight contains enough entertainment to satisfy everybody. The big feature "Captured by Cannibals" is the second of Martin Johnson's wonderful pictures made at the risk of life and limb among the terrible cannibals of the South Seas. It is at once interesting and instructive and is a picture everyone should see. The first chapters were shown at the Liberty a couple of months ago and the pictures shown today take up the trip where the others left off. In addition to these pictures a fine drama with Clara Kimball Young as the star, will be shown. It is entitled "The Savage Instinct" and is announced one of the best pictures Miss Young has yet appeared in and that is saying considerable.

O. F. Demorest, Dentist, 6th and Main, over Sugarman's store.
