

# USES HORSE FOR BAIT AND PULLS IN HUGE SHARK

HONOLULU, T. H., July 22.—Using the entire carcass of a horse for bait, a Honolulu sportsman went fishing recently in a power boat and returned with a fish weighing 2,500 pounds and measuring almost 20 feet from tip to tip, the largest shark killed in Hawaiian waters for many years.

Shark fishing, or, rather, hunting, as it is conducted in Hawaii, is a thrilling sport, not entirely lacking in danger to the hunter. In fact a death battle with a harpooned shark, according to big game hunters, is about as safe as a midnight combat with a hungry tiger. Sharks, in their death throes, have been known to attack the boat and with their powerful rows of serrated teeth rip great sections from the sides.

The shark hunter first obtains a dead horse and if it has been dead a week so much the better. The power boat tows the carcass outside the harbor and the hunt is on. Sharks, attracted by the odor of the bait, gather in large numbers and soon begin striking at the carcass, ripping huge chunks of flesh from it.

# MANY CASES OF RHEUMATISM NOW

SAYS WE MUST KEEP FEET DRY, AVOID EXPOSURE AND EAT LESS MEAT

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system, eventually settling in the joints and muscles causing stiffness soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Adv.

# AN OLD RECIPE TO DARKEN HAIR

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this thru your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

At this stage the hunter endeavors to work his boat near enough to permit a shot with the harpoon. Once securely harpooned a big shark will fight for hours before succumbing.

Recently, in Hawaii, shark hunting has been placed on a commercial basis and the development of a big industry is forecast. Shark fins are deemed a great delicacy by Orientals and dried shark meat has found a ready market. The canning of shark meat is being considered. Shark livers yield a valuable oil.

# PRINCE ACCLAIMED BY CHILDREN WHEN HE VISITS MINE

LONDON, July 22.—Children strewed with flowers the path of the Prince of Wales and bombarded his automobile with roses when he visited recently the coal mining regions of South Wales and went down into a mine. The Prince scored with the coal miners of Rhondda Valley by telling them that it was not his fault that it was his first visit and that his absence was due to the war.

On his way to the mine he surprised one woman by asking to see her house and garden. He stopped his car when another woman held up her baby to give him a rose.

Arriving at Cwymar pit, the Prince donned the cap and overalls of a miner, and gratefully accepted from the foreman, a silver safety-lamp, the gift of the management. Miners and their families crowded around him, and cheered while the Prince waited for the cage to rise from the depths of the shaft.

Suddenly there was heard the sound of singing apparently from the bowels of the earth. The cage came in view bringing a small party of miners, black with coal-dust, straight from the toil of the pit and singing a Welsh anthem.

When the singing stopped the Prince and his official guides then stepped into the cage and, swiftly but very carefully, were lowered into the mine.

At the bottom of the shaft some one had written on a bank timber with white chalk, "Welcome to our soldier Prince." The Prince was manifestly pleased and asking for chalk wrote beside it "Thank you," and signed it "Edward P."

Then they took him through the mines, showed him the ventilation system which guards the lives of the hundreds of men and boys while they work, showed him the "working faces" where miners were digging coal, and explained to him some of the difficulties attending the underground life of the toilers.

He insisted on trying it himself, and taking the pick handed to him by a grimy old miner, struck a few vigorous blows. Later, while thanking the people for his reception, he said he could appreciate the strenuous character of a miner's work.

**Get the Habit of Drinking Hot Water Before Breakfast**

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infests the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.

# POLITICS ARE DISCUSSED IN MEXICO CITY

MEXICO CITY, July 22.—Although the presidential election in Mexico is not scheduled to be held until July of next year political alignments are taking form.

The newspaper, Excelsior, in a recent issue reviewing the political situation declared that a canvass of the governors of the various states showed these chiefs to have the following preferences: Ten for General Alvaro Obregon; five for General Pablo Gonzalez; one for Luis Cabrera, Secretary of the Treasury; one for Aguirre Bedlanga, Secretary of the Interior, one for a civilian candidate as yet unnamed and seven undecided. These varied selections give some hint, at least, as to what men are being considered for the honor.

General Obregon at present is not in active army service, being engaged in private business in Sonora. General Gonzalez is at the head of government forces in the state of Oaxaca, following his pacification of the state of Morelos culminating in the death of Zapata. He has not openly pronounced himself a candidate but has issued several letters in which he challenged statements credited to General Obregon and asked the latter to sign a pact with him that, in any event, the decision at the polls would be final. General Obregon as yet has not replied.

It is rumored in the capital that several generals now in the field have presidential ambitions.

El Heraldillo De Mexico, a newcomer in the journalistic field here, is attempting to unite the various factions in Mexico into one political party which, agreeing in matters of governmental policy, shall determine upon a candidate and elect him.

To date none of the leading newspapers of the capital have publicly pledged their support to any avowed or potential candidate.

# LONDON CHILDREN ARE CONSTANT MOVIE FANS.

LONDON, July 23.—London school children like the movies, more than 80 per cent, it was developed by a recent investigation, being more or less regular in their attendance upon such exhibitions.

Analysis of replies from 6,500 youngsters, who were asked to write their preferences, show that domestic stories have first place. Others in order of preference are cowboy adventure, comics, war films, serials, crimes, love stories, educational.

The popularity of moving pictures in London is proved by the fact that a new corporation will soon invest \$10,000,000 in picture palaces.

# SAVE TOWN FROM DESTRUCTION.

ANCHORAGE, Alaska, July 23.—Whites and natives, working for 3 days and nights almost unceasingly, saved the town of Susitna from destruction by serious forest fires. The town for a time was surrounded by flames and several cabins were destroyed.

On account of car shortage we will sell blocks at \$2.50 per cord at our factory until further notice. Now is the time to get in your winter blocks. 17-1f. Ewauna Box Co.

# WASTE

During the late war people were taught not to waste. The reason for this was to secure that surplus above what was necessary in order that others might get the benefit thereof.

It found result in finding sufficient for all and was obtained through the kindly consideration of the other fellow in the equalizing of distribution.

True, some were selfish and for a time refused to lend aid to the scheme which comprehended a more equalized distribution to all, but the sharp eye of the Government searched them out and they were punished in the end.

1,584,000 gallons of Water is being pumped every twenty-four hours into the reservoirs supplying the twenty-two miles of distributing pipes which carry water to 1,019 customers in the City of Klamath Falls. This means that did each of these users receive a pro rata of water served, every service would be entitled to 1,584 gallons a day, or, based on a population of 5,000, about 316 gallons to each man, woman or child, every day. Such an amount is far in excess of all requirements, so that if any one or more users are being deprived of ample water for ALL PURPOSES, his neighbor is wasting.

No doubt the abuse of a flat rate service by a few is training the eye of the Public Utilities Commission on those who wilfully do not consider the rights of others and the punishment must follow in the installation of meters for everybody.

# IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?

# USE HERALD WANT ADS

THEY DELIVER THE GOODS AND ARE ALWAYS WORKING
