

NORTH AMERICAN SHIP OWNERS AT DISADVANTAGE

RIO DE JANEIRO, Brazil, July 26.—North American ship owners are placing themselves and North American business concerns at a disadvantage with their European competitors here because their agents in this city are not actually representatives of United States concerns, according to the American Chamber of Commerce for Brazil.

This body recently appointed a committee under the chairmanship of Acting Consul General Hasskari to investigate the shipping situation as it affects North American business. The committee reported that by leaving to the discretion of ship captains the selection of agents, North American owners have been heavily overcharged for repairs and other necessities in this port and that eventually this expenditure falls on the shipper.

It is declared by the chamber that this condition is a vital weakness in the foreign trade development of the United States. As a remedy the recommendation is made that North American vessel owners either establish their own agencies or authorize the United States Consul General to recommend agents, not only in Brazil but in all South American countries.

EFFICIENT BURGLAR WANTED IN SOUTH

SAN DIEGO, Calif., July 25.—The Federal Employment Bureau here has a job for an industrious burglar. Formal application of the following notice has been made:

"Burglar wanted. Must be honest and efficient. Police protection guaranteed. Employment for one week at good salary."

It is explained that the burglar will be required to demonstrate his skill for advertising purposes. Other details are lacking.

Further evidence of the growing faith in the ability of the Federal employment bureau to meet all requirements is shown by a request for the services of a man "down and out." The bureau's published notice reads:

"Wanted—Man 'down and out,' elderly preferred. Wages \$15 per month and found. Three hours a day."

Don't forget; the Elks will have a convention here August 14, 15 and 16. Get busy!

**Look and Feel
Clean, Sweet and
Fresh Every Day**

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning ladsie bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Ad.

AT THE CHURCHES

First Baptist Church, corner Washington and Eighth. J. B. Griffith, pastor.

Sunday school at 10 a. m., C. R. Delap, superintendent.

Preaching at eleven, by Rev. J. B. Griffith and also in the evening at eight o'clock.

Just Remember this. The dates for the Elks' Convention are August 14, 15 and 16. Get ready.

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur. An easier way is to get the phur recipe at home, though, is ready to use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it is done so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes dark, glossy, soft, and luxuriant, and you appear years younger.

WASTE

During the late war people were taught not to waste. The reason for this was to secure that surplus above what was necessary in order that others might get the benefit thereof.

It found result in finding sufficient for all and was obtained through the kindly consideration of the other fellow in the equalizing of distribution.

True, some were selfish and for a time refused to lend aid to the scheme which comprehended a more equalized distribution to all, but the sharp eye of the Government searched them out and they were punished in the end.

1,584,000 gallons of Water is being pumped every twenty-four hours into the reservoirs supplying the twenty-two miles of distributing pipes which carry water to 1,019 customers in the City of Klamath Falls. This means that did each of these users receive a pro rata of water served, every service would be entitled to 1,554 gallons a day, or, based on a population of 5,000, about 316 gallons to each man, woman or child, every day. Such an amount is far in excess of all requirements, so that if any one or more users are being deprived of ample water for ALL PURPOSES, his neighbor is wasting.

No doubt the abuse of a flat rate service by a few is training the eye of the Public Utilities Commission on those who willfully do not consider the rights of others and the punishment must follow in the installation of meters for everybody.

California-Oregon Power Company

IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?

USE HERALD WANT ADS

THEY DELIVER THE GOODS AND ARE ALWAYS WORKING

The City of GOODRICH Akron, Ohio

The Caliper of True Tire Value—

More looking at a tire in a dealer's store—weighing it in ounces—measuring it in inches—tells you nothing of what it will do when it gets on your car.

But apply the Goodrich Caliper of True Tire Value to it, and you at once gauge its service value.

Measure its price with the Goodrich List Price, and the adjustment mileage back of it with the More-Mileage Adjustment of Goodrich Tires—6,000 miles for Fabrics; 8,000 for Silvertown Cords.

If its price measures more than the List Price, the tire asks you to pay for something it cannot deliver.

If its adjustment mileage measures less in miles than the Goodrich More-Mileage Adjustment, it deprives you of mileage your money entitles you to get.

Measure any tire with the Goodrich Caliper, and you realize why the word is running like wild fire throughout the motoring world, "Goodrich has THE Tires."

Goodrich is making the burliest, best tires the rubber industry has produced. Compare them and be convinced.
