fall, if everything goes well, his stock of rabbits will have increased 600 per cent. At the same ratio, by next fall Mr. Lawson will have so many rabbits at "Dreamworld" he will need an adding machine. With other meats sky-high in price, there is a growing demand for rabbits, and Mr. Lawson says he will have no trouble finding a market.

# Shasta Sand

If you want permanent construction—the kind you will not have to replace in a short time, see that Shasta Sand is used.

Shasta Sand stands a higher test than any other sand on the Pacific Coast. That is why you should insist on its use. It costs you no more than poor material, and saves you the expense of repair work later.
