

First Meeting of German Cabinet in Weimer Castle

This photograph, just received in America, was taken at the first sitting of the German cabinet at Weimar Castle. Chancellor Bauer is standing. The others, left to right, are: Ministers Noske, defense; Bell, railways; nomic; Schlicke, labor; Dr. Albert, under secretary of state; Fr...

FIRST STOCK WILL BE SENT OVER ROAD IN EARLY AUGUST

The first stock to be shipped over the Strahorn Railroad will be the Klum and McCall lambs. These are the sheep that Mrs. O. T. McKendree is interested in. The lambs will be loaded at a point near Dairy, about August 2. Early shed lambing has made possible the shipping of the lambs.

Irrigation in Bonanza is evidently profitable as evidenced by the fact that two sheep men who formerly fed near Merrill recently bought hay at Bonanza. They paid \$16 a ton for it, a portion of it being alfalfa.

General Pershing Holding Little Godson in His Arms

General Pershing fights because that is his profession. Children are his hobby. It was no difficult task to induce him to put aside his sword long enough recently to act as sponsor at the christening of the infant son of Captain and Mrs. Sandys Dawes at Fernhill Parish church, near Faversham, England. He is seen here with the baby in his arms.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you see life that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

FOURTEEN-INCH GUNS ON SHIPS

Huge Pieces Are on Ships of the Pacific Fleet—Used to Hurl Projectiles Behind the Hun Lines During War in Europe.

SAN FRANCISCO, July 29.—Not the least interesting feature of the New Pacific fleet is its fourteen inch gun, twelve on which are mounted on Admiral Hugh Rodman's flagship, the New Mexico and several other ships of the fleet.

Design and construction of the 14-inch naval gun on railway mountings on the western front was one of the great accomplishments of the American navy during the war. The gun hurled 1400 pound projectiles far behind the German lines and were a strong factor in reducing the St. Mihiel salient.

The gun was designed, built and delivered in less than four months. On December 25, 1917, according to Secretary Daniels' official report not a drawing had been started. On April 25, 1918, a completed gun was rolled on its own wheels to Sandy Hook proving ground for long range tests.

The guns, Secretary Daniels said, originally were intended for the new battle cruisers but a change in design of the vessels made the guns available for other use and it was recommended they be mounted for land service.

The guns were mounted on carriages which would be moved freely over the French railroads. With them were their navy crews. Twelve cars were required for each gun—machine shops cars, armored ammuni-

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow, and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gas and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

berger, finance, Mueller, foreign affairs; Wissoll, economics; Giesberts, posts. Bell and Mueller were the delegates who signed the peace treaty:

tion cars, kitchen, berthing, crane and wireless cars. The batteries were sufficiently mobile that if an order came to move while in action they could be on their way in an hour.

The fourteen-inches had greater range than any gun ever before placed on mobile mountings. The German guns which fired on Paris were "breaks". They were built on permanent steel and concrete foundations. Their projectile was small and especially built for long flight. This reduced their efficiency and while they had moral effect their military value was small. Because of their permanent position their location was discovered by allied aviators and the guns silenced. The German 15-inch gun in Flanders also became famous for its long range bombardment of Dunkirk and other allied bases, but neither could be shifted from base to base without delay of weeks. The American fourteen inch gun could move from one end of France to another and had a range of thirty miles. At range of 22,000 yards it pierces armor successfully.

HEADLINE WRITERS HAVE SAME THOUGHT

LOS ANGELES, Cal., July 29.—An unusual coincidence, twice repeated occurred here when the report of the alleged flight of the former German crown prince from Holland drew upon the skill of afternoon newspaper headline writers.

The first edition of the three Los Angeles afternoon papers bore the identical eight-column banner, "Crown Prince Escapes."

Two of the three editors were displeased with the coincidence. They ordered new headlines for the next edition.

Again coincidence reached out its long arm. The banners again were identical:

"Ex-Crown Prince Flees." A third attempt resulted in the desired variety in heralding the alleged escape.

Two rare pearl earrings, low-necked blouses, oblong collars of gold, set with jewels, and false, red hair, were some of the things Queen Elizabeth wore in her 67th year.

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

PUT STOMACH IN FINE CONDITION

SAYS INDIGESTION RESULTS FROM AN EXCESS OF HYDROCHLORIC ACID.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

JAVA MAY BE EX-KAISER'S ST. HELENA

The Kaiser may be sent into exile on the island of Java by the Dutch East Indies. These islands lie about 2000 miles south of the Philippines. Berlin admits the Kaiser is willing to choose a "residence" outside Europe, so England will consent "without trial" if Java is his St. Helena.

When you're hot and thirsty—say

Hires ROOT BEER

Read the Ads--It Will Pay You

IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?

USE HERALD WANT ADS

THEY DELIVER THE GOODS AND ARE ALWAYS WORKING
