

### Letters From the People

To the Honorable Mayor and City Council, the City Health officer, the city manager of the California Oregon Power Company, Mills Addition (especially), the state health officer, and the Governor of Oregon, if necessary:

Without any notification or warning whatever, to the patrons or users of water, the water in Mills Addition has been turned off at 8 p. m., and turned on again at 5 a. m., for the last two nights, and upon the water inquiring the cause he was informed that in order for the residents living on the hill the water would be turned off in that way as for the hot weather lasted.

Now, I think that in my mind, and there are others in this neighborhood, who have adjectives galore to emphasize their beliefs, are also thinking, that this is certainly a great state of affairs, to have one section of the city, namely the Mills Addition and neighborhood without water for any purposes whatever includ-

ing fire, sickness or domestic wants, just so another section should have the use of the water.

On Page 6, of the Evening Herald of July 30, 1919, in the upper corner is a slap and a dab of scolding which I personally do not like, for with some people learning that the water in Mills Addition being turned off, they will say that is what they might expect if they abuse the use of the city water. Now I'm right here to tell you we have less use for your city water here in Mills Addition and get more abuse, than those living on the hillside who need and use the water and are being favored.

But that isn't the argument. We want water 24 hours in the day, of course if the Mayor and Council agree to have the water shut off one third of the day or from 8 p. m. to 5 a. m. why the California Oregon Power Company couldn't charge for service for 24 hours or they could be made liable. Hence our bill will be one third or more, less at the end of the month.

Furthermore, if those taking this as a joke would come out to Mills Addition, you would have to secure a guide to pilot your motor on such streets as are passable as the hund-

reds of wooden plugs which the California Oregon Power Company repairmen have put in holes in mains to stop leaks don't last long, and if the California Oregon Power Company head would take just one day's trip with me over this addition and be shown the hundreds of feet of street which are being kept a swamp by leaky mains and along certain hillside residents, who leave their sprinklers lay turned upside down during the day and have them turned on nearly full, and go by the houses where the toilet tanks are being filled and emptied continuously, automatically on account of a faulty valve or slackness in securing a plumber I notice these things having had experience in them. If those in authority could be made to swallow this all in one lump they sure would choke to death, especially when they would try to compile it, on the adding machine. The figures, representing gallons of water which come from the leaky mains, add does no one any good and lots of people a great deal of harm, even one of our own citizens and a good new car got stuck in California Oregon Power water and mud when he was on his way to work, and he had to be rescued by water which would do the same and no one paid for it. Every time the water is shut off out here to help all the residents for you on the hillside, if it is so, we have the displeasure of drinking impure water. This is the way it works. The water is shut off, and the residents in the lower districts will draw water as long as a drop will run, consequently there is a vacuum caused, and wherever there is a leak in a main in the line of this vacuum, it will take in the stagnant and polluted water so long as the vacuum lasts.

If it would only go out this summer holes all would be dug for leakage but I don't think we just rump in the streets for the trucks after it would be a good idea.

Now all I hope in this matter is that it won't be dealt lightly with, because the city is not going to get the State health officer, and it is necessary the Governor. Also what puts us in kind of had too is that these do not happen to be a city election near enough at home to be able to grasp the warm hand of the councilman or officials and read these good promises which always come ("you know") after they are elected. Nevertheless this matter, as far as health, fire risk and life is concerned is not going to entirely rest just in a publication there are dandy reforms going on in this city and there can be more of them.

Yours as a citizen and water user.

LOUIS A. WILLS,

**BERGMANN SHOE OIL**

Children Hate Rubbers and can you blame them? There's a lot of bother and half the time youngsters take them off when they start to play. Rubbers crack the feet anyway, and there's almost as much danger of the children catching cold with them on as with them off. BERGMANN SHOE OIL is the safest, best, and most economical way of keeping the children's feet dry. It waterproofs the shoes, keeps them soft, will not prevent shining, and makes them wear half as long again.

WHY? WHY?

**FOUND WHAT SHE HAD HOPED FOR**

**SOUGHT RELIEF FROM TROUBLE FOR SEVEN YEARS—GAINS TWENTY POUNDS**

"Nothing ever helped me until I got Tanlac and that's saying a good deal for I have been trying for seven years to find relief," said Mrs. Peter Broe, residing at 1518 Bigelow Ave., Seattle, Washington, while in the Bartell Drug Store recently.

"But," she continued, "Tanlac has given me everything I had hoped for. I have not only been relieved entirely of all my ailments, but I feel perfectly strong and well and have actually gained twenty pounds in weight. I had suffered terribly from indigestion for fully seven years. I could hardly get my food down until I would begin to have awful cramping pains in my stomach, which were so bad sometimes that I would almost double up. Finally my appetite left me entirely and I would simply suffer agony from what little I did eat. I would bloat badly with sour gas and had a very disagreeable taste in my mouth all the time and was extremely nervous. I was constipated all the time and never went through a day in years without a headache. These headaches would almost blind me at times and I would just have to leave my housework and everything and go and lay down. I lost weight continually and felt tired and worn out all the time. My condition gradually became more distressing in spite of all I could do and I became discouraged as it looked like nothing could help me.

"I read so much about the good Tanlac was doing others who suffered the same way that I decided to try it and it certainly has given me that long hoped for relief. It just seemed to tone my stomach right up. My appetite is just fine now and I can eat just anything and enjoy it and never suffer a particle with gas, pain or any other signs of indigestion. I am no longer constipated and have not had a headache since right soon after I began taking Tanlac. I am feeling strong, healthy and well in every way now and am glad to recommend Tanlac to everybody who has any reason whatever to take any kind of medicine."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Mercantile Co.—Adv.
