### RIOTING IN LONDON

LIVERPOOL, Aug. 4.—Troops drove great crowds of rioters from the streets today. Destroyers are in the river to aid in the protection of the docks. Bus and tramway lines are not running. The strike of the policemen still continues.

## MARINA IS FINE LANDING FIELD

San Francisco Field Is Said to Be Unequaled by Any Field on the Pacific Coast by Director of the Aero Club.

SAN FRANCISCO, Aug. 4.—J. C. Irvine, director of the Pacific Aero Club, its former president and one of the most noted among Pacific Coast pioneers in aviation, says the Marina, formerly part of the exposition grounds, one of the most adaptable aviation landing stations on the coast.

"No other city in America has within its limits, or so near its business center a flying field to compare with the Marina, both for Hydroplanes and land machines," he said.

"As vehicles of competitive transportation, the airplane and dirigible are not past the experimental stage as yet. They are not able to combat the elements safely, that is to say fogs and wind storms. Also rain has a very bad effect upon propellers. Not many people realize that with the great speed in revolutions of an air-

plane propeller, just what effect rain has upon the blades.

"Raindrops, splattering against a propeller revolving at travel speed, will chew the edges of the propellers to bits, so great is the force of the impact. The gasoline engine is not sufficiently dependable. It will take some time to overcome these drawbacks and develop aircraft to a point where they can compete as carriers."

### SERVICE MEDAL IS GIVEN TO JAPANESE LEADER IN SIBERIA

VLADIVOSTOK, Aug. 4.—Major-General William S. Graves, the American commander in Siberia, recently presented the Distinguished Service Medal to General K. Otani, senior Allied commander in Siberia. In doing so General Graves said he desired to testify to the courteous and careful consideration given by the Japanese commander to all questions placed before him.

General Otani expressed his gratitude to the President of the United States for the honor conferred and tendered a dinner to General Graves and the American staff. In proposing a toast to General Graves, the Japanese General stated that "the harmony and co-operation which exists between American and Japanese forces in Siberia is largely due to the wise manner in which General Graves has guided affairs."

General Otani said that he had issued an order to the Japanese forces in Siberia informing them of the bestowal of the medal and urging them to redouble their efforts "to promote and to make still stronger the spirit of concert and friendship existing between the armies of Japan and the United States."

### At the Theatres

A story more thrilling than "When Men Desire" never was screened. This William Fox super-production, starring Theda Bara, was shown yesterday for the first time at the Liberty Theatre. The spectacular adventures of the heroine held one spell-bound.

"When Men Desire" is the story of a woman who is detained in Germany because she is a woman of great charm. Do what she may to get across the border, where her American lover is waiting for her, she always falls into the clutches of German officials who try to make love to her. At last she poses as a notorious woman whose passports she obtains, and so, after harrowing adventures, she effects her escape.

"When Men Desire" will be shown for the last time tonight at the Liberty.

Thousands of admirers of Marguerite Fisher will be delighted to learn that she is to appear at the Liberty Theatre afternoon and evening on Tuesday, in "Put Up Your Hands." The story, produced by the American Film Company is of excellent choice, and is the kind of a comedy-drama which will give Miss Fisher every opportunity for displaying versatility

and charm, which cannot be denied this little comedienne.

Aside from the highly sustained comedy presented in this picture, the patrons are assured of a number of novelties in the way of scenes. Miss Fisher's extreme cleverness is brought to light when she installs a gymnasium in the former saloon which has been converted into a haven of rest by the women of the little one-horse mining town. There, in fascinating athletic togs, she gives an exhibition with "Bull Montana."

With characteristic resourcefulness, she later succeeds in saving the young mining engineer's property from her father's scheming secretary. Having fallen in love with the engineer, she surprises them all by some clever work, when at the point of a gun, she forces the situation and wins for herself a handsome husband.

Miss Fisher has several popular players in her support, including Geo. Periolat, Emory Johnson, her leading man, Kate Price, the popular comedienne, and William Mong.

WASHINGTON, D. C., Aug. 4.—All railroad officials now in Washington have been asked by Director General Hines to meet today to discuss the high cost of living. Hines will explain the plan for having Congress create a commission to go into all phases of the railroad wages, as proposed by President Wilson.

## STRAIN

Defective eyes can and do give clear vision by straining. Glasses are not needed to increase the distinctiveness of vision, but to remove the strain, which causes headaches and other nerve troubles. Sight testing often reveals the true cause of headache, and correctly adapted glasses permanently cure it. We test eyesight and advise without charge.

### Summer Rings

Summer life, with its outdoor activities and costumes of light material, brings a need for rings of appropriate design. Colored stones in fancy mountings are the fashion. They show off a graceful hand, and add a charming dash of brightness in keeping with prevailing modes. We show many designs especially appropriate to wear with sport costumes and at summer social affairs. It is a wonderful display in variety and beauty.
