CIVIC BODIES DISCUSS PLANS FOR HIGHWAYS

GARDINER, Mont., Aug. 11.—Plans to bind the national parks of the west by a great system of motor highways into a single unit of competition with Europe for the tourist travel of the United States and the world were discussed today by representatives of civic bodies from eleven western states.

The project, outlined by Secretary of the Interior Franklin K. Lane, would offer a "grand tour" the attractions of which, according to H. W. Childs, president of the Yellowstone Park Hotel and Transportation company would offset the advertising

Europe received in this country as a result of the war.

No opposition of the railroads was foreseen by W. P. Kenney, of St. Paul, federal manager of the Great northern railroad.

"I believe the railroads are public spirited in this matter, he said. "They are large enough not to fight it. I believe that by next season the Great Northern, the Northern Pacific and other railroads will be routing passengers partly by automobile in order to give them a taste of motor travel between parks. We are already figuring on doing this between Yellowstone and Glacier to bring this about."

Mr. Childs said that since this season opened June 20, Yellowstone Park has had five times the number of visitors it had in 1918.

"Americans have to travel at home this season," he continued, "but it will not always be so. A good system of highways is the thing to keep the tourist coming west."

"When John Jones motors from Galesburg, Illinois, to see Yellowstone Park he is not satisfied. He is told there is a fine road to Glacier, so he goes north."

"Still he is not satisfied. He says to himself, 'Here I have brought my family this far. We'll see the whole show, and away he goes to Mt. Rainier, Crater Lake, the Yosemite and starts east by way of Rocky Mountain Park and Denver."

"In other words, the tourist wants more than one thing to come west for. He wants a combination of attractions."

ROAD IS OPENED.

Captain O. C. Applegate received a letter from the superintendent of Crater Lake park this morning, announcing the opening of the road around the rim of Crater Lake. It was necessary to do a great deal of blasting to make this drive safe for motorists but it is now in shape around the entire rim, and many tourists visiting the Lake yesterday took advantage of the opportunity to see the lake from all sides.

MANY TENTS ARE NEEDED BY ELKS

(Continued from Page 1)

competing for the 1920 state convention of the Elks. Just what the "Cherry City" Elks will show in the line of features is uncertain.

Headed by W. C. Cooper and Dr. J. P. Turner, the vanguard of Elks of the baby lodge in Bend, will arrive in Klamath Falls Tuesday, to prepare for the reception of the larger portion of the delegation, scheduled to reach the convention city on the following day. With the latter detachment of Elks will be the officers of The Dalles lodge, who will have charge of initiatory ceremonies in Bend Monday night, and who will camp at Odell Lake on the following evening. Francis Galloway, Exalted ruler of the Wasco County herd, will head those making the trip from the Columbia river.

Bend will Bring Cook.

For the last three weeks members of the Central Oregon lodge have been making plans for the big gathering in Klamath Falls, and have prepared a number of original stunts, the nature of which is being religiously guarded until the convention opens. A large majority of the members will be in Klamath Falls for at least a part of the week.

During the gathering of "Bills," the Bend and The Dalles delegates will keep open house in a huge tent to be erected by the Tuesday arrivals. An experienced camp cook will be installed in full charge of the culinary department, and bunks will be ready for those who want them. As a matter of fact, however, the Elks don't intend to do much sleeping, and beds will be chiefly for the sick and wounded.

NOTICE TO BARBERSHOP PATRONS.

WOODSTOCK

BACK OF THIS KEYBOARD
Are All The "Worth While" Features Found in Typewriters—Simplified and Improved

The standard typewriter is a machine of business—not of sentiment. It should be judged on its merits alone—not on its name or fame. Take the label off the bottle, take the stencil off the piano—the true connoisseur, the real musician can tell; apply the same test to a typewriter.

The Woodstock Tests: Try six standard keyboard machines, with the eyes blindfolded the Woodstock among them. Let your sense of touch and hearing alone tell you, and then judge.

Put the Woodstock to this test, and then let your eyes behold its many other advantages. The Woodstock must be seen must be felt and operated, to be appreciated. Give it that chance—better your typewriter equipment—it stays and grows in favor, because it is built to fit the hand, to fit the mood, to fit the job. Simplified and improved, the Woodstock with its unit system of construction has 80% less parts (20% less trouble). You get your own favorite machine and the best features of the best of others, in the Woodstock.

What Eyeglass Service Means To You

First—I have had 25 years practical experience in fitting and grinding lenses.

Second—We use the most modern tools and machinery and have the best equipped Optical Store in Southern Oregon.

Third—We can refract your eyes and grind your lenses and adjust them to you the same day. You don't have to wait.

Fourth—If your glasses need adjusting, or you have the misfortune to break them, we can repair them in a few hours. You don't have to wait.

Fifth—We have the latest and most modern machinery to refract your eyes for all kinds of eye trouble. Cross-eyes straightened by the use of prismatic lenses.

Sixth—If your glasses go wrong you know where to find us. Sixteen years established business in this city. We are looking for the most difficult cases in glass-fitting.
