GARICH'S GROCERY NEWS

VOLUME I. KLAMATH FALLS, OREGON, MONDAY, AUGUST 12, 1919 NUMBER 23

EDITORIAL

I am making this offer of Folger's Golden Gate Coffee because I believe that no better coffee was ever offered to the public. This is no special brand or consignment—it is the coffee that has been on my shelves, it is the same Golden Gate Coffee that you have been buying for years, and it is possessed of the same high quality, delicious flavor and aroma that you always seek and so seldom find. When I tell you to buy Golden Gate Coffee, I do it with the full consciousness that when you do I am making a friend and customer for my store—and that is what I want to do. The fact that my business has grown until it is the talk of the business men of the city proves that I am gaining customers every day, and keeping them, and that is what counts in business—keeping customers. If I do not give good service, full value for every cent spent; if the goods I sell are not the best that money can buy; if my prices are not as low as the quality of my goods justify—I would not be making the success of my business that I am. Its growth tells you that Garich's Grocery is the place for you to spend your money, for you will get full value, good service and the best merchandise.

That is why I am now getting back of Golden Gate Coffee. It has stood the test of time. I know I can recommend it to you. I know you will like it, and if you exercise just ordinary care in making it, you will get a cup of coffee possessing a flavor exactly like the delicious aroma arising from a freshly opened can. That is the real test of good coffee, and I know Golden Gate Coffee will stand the test.

Then there is another reason: Coffee is going higher. Nothing on earth can stop it. Half of the Brazilian crop of coffee was destroyed by the heavy frost that hit that country in July of 1918. This depleted crop started to come in in July of this year, and it is from this half crop that the coffee markets of the world will have to be supplied until the 1919 crop is ready, twelve months hence. We are up against that inexorable regulator—supply and demand. This is your opportunity to get one pound of Golden Gate Coffee free with every five pound can. It gives you a chance to cut down your cost of living just that much. Now is the time to take advantage of it, for I doubt if you will have a like chance within the next year or eighteen months. If it is inconvenient for you to come to my store, phone your order. But I would like to have you come personally, for I want you to get acquainted with the prompt, efficient and careful service you receive.
