

ORTHODOX JEWS WILL CELEBRATE

PHOENIX, Ariz., Aug. 12.—When orthodox Jews celebrate the Feast of Tabernacles next October it is likely they all, no matter in what part of the country they live, will come into direct contact with Phoenix. The prescribed ceremonies of the feast involve the shaking of a branch of myrtle by each member of the congregation. This year the myrtle will probably come from Phoenix.

What are said to be the only myrtle plants in America, outside of hot-houses, grow in the Phoenix section. Many grow on the grounds of the state capitol. Recently Rabbi S. Lewis applied to the state authorities for permission to gather and sell the trimmings taken from these plants by the gardeners. The trimmings heretofore have been thrown away.

While no action has been taken on the application, it is expected it will be granted and that, as a result, between 20,000 and 25,000 of the clippings will be sent from here this fall.

BEAUTIES OF CRATER LAKE PICTURED IN MAGAZINES.
Crater Lake and the Southern Oregon country are annually becoming known to Eastern tourists and eastern publications, as evidenced by a full-page cut of Crater Lake which appeared in the July 5th, Sunday color supplement of the Public Ledger that is published in Philadelphia. The cut holds the title page of the four page supplement and shows the lake in all its grandeur and beauties. It is from a photograph copyrighted by Fred H. Kiser, the Portland artist. Three photographs of Crater Lake appear in the August number of the Good Housekeeping magazine.

LABOR UNIONS STRUGGLE OVER BIG QUESTION

WINNIPEG, Manitoba, Aug. 12.—A conflict is in progress here between Union labor men over the question whether the American Federation of Labor, the Dominion Labor Congress or One Big Union shall control labor organizations in Winnipeg. The struggle is the outcome of the general strike which took place here in May and June, involving labor and capital throughout the Dominion.

A short time ago the Winnipeg Trades and Labor Council voted to join One Big Union by a vote said to be 8,841 to 705.

As a result of this action, the Dominion Labor Congress cancelled the charter of the Winnipeg Trades and Labor Council and announced that an effort would be made to form a new council in Winnipeg to include the local organizations opposed to the One Big Union plan. Among the ideas of having One Big Union were the railroad brotherhoods and the American Federation of Labor.

Some Canadian newspapers assert that the split in the labor ranks was precipitated by the alien element and say that the One Big Union organized at Calgary demanded that the government release all "political prisoners" interned during the war. Federal ministers have charged that a heavy percentage of the One Big Union membership was composed of aliens.

Ernest Robinson, secretary of the Winnipeg Trades and Labor Council, has announced that the One Big Union will immediately supply charters to the local unions to take the place of those revoked by the American Federation of Labor. Winnipeg labor leaders supporting the One Big Union have promised to support the movement to organize similar unions in every city in the Dominion.

The majority of the Canadian Pacific Railway's shopworkers at Calgary, Alberta, ended the recent general strike when they discovered that they were being deluded by bolshevist agitators paid by revolutionistic organizations outside of Canada.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it, and you are assured that you will look better and feel better in every way shortly.—Adv.
