

ADMIRAL URGES PREPARATION IN HIS UTTERANCES

SYDNEY, Australia, Aug. 13.—Admiral Viscount Jellicoe preached a policy of preparation for war in some of the speeches he has delivered here while visiting Australia to inform the Australian government concerning matters of naval policy.

"When discussions take place on such subjects as the League of Nations or the question of limitation of armaments, I trust it will never be forgotten that the existence of the British Empire depends absolutely upon the safety of its sea communications," said Viscount Jellicoe at Sydney, where he addressed the Navy League. Before the war, he said, Great Britain suffered from a lack of insufficient ships to guard the long lines of communication between London and Australia and, he added, "It is up to the British Empire to see that we are never in want of sufficient policemen afloat in the future."

Speaking of the deadly risks run in the last five years, the Admiral said, "one can only hope that in the future sufficient provisions will be made both by the other country and by the overseas dominions to insure the impossibility of defeat of the British navy."

After giving some information to show how long it took Great Britain to prepare for Germany's submarine campaign, Viscount Jellicoe said: "The lesson I am trying to preach is preparation for war. I would like to say very seriously that it seems to me the conclusion is forced upon us that the British Empire depends now

Hun's Head, Used as Target in Revolver Competition, Shows That Britons Have Not Forgotten World War

Hitting a Hun in the head with a bullet or any sort of projectile was one of the most effective ways of helping to win the war. This photograph, taken at the famous Bisley range, in England, shows the sort of target used in a recent revolver competition.

more than ever upon naval supremacy."

Leaving Sydney early in July, the Admiral started on a month's tour to northern Australian ports and of the coast of New Guinea and adjacent islands.

JOY RIDING STOPS IN HONOLULU DUE TO GASOLINE FAMINE

HONOLULU, T. H. Aug. 13.—Joy riding is under the ban in Honolulu and there will be no more frivolous motoring until the middle of August, when the arrival of a tank steamer from California is expected to end the gasoline famine.

The gasoline supply here has become so low that those dealers who still have some in their storage tanks are selling only to those who require it for strictly business purposes.

Multi-millionaires sugar barons and dock workers are now seat partners in the street cars and the rickety old one horse cabs of King Kalanui's reign have been resurrected for service.

On account of car shortage we will sell blocks at \$2.50 per cord at our factory until further notice. Now is the time to get in your winter blocks. 17-11. Ewauna Box Co.

DRESS WARM AND KEEP FEET DRY

HELPS RHEUMATISM SUFFERERS TO TAKE SALTS AND GET RID OF URIC ACID

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin of this impurity. In damp and chilly air are also a means of freeing the blood cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well. —Adv.

PROPOSED ROUTE IS COMPLETED

Survey of First Section of the Projected Aerial Service From Sydney to London Is Completed by Interested Parties.

SYDNEY, Australia, Aug. 13.—Survey of the route of the first section of the projected aerial service between Sydney and London was recently completed. The section extends from Sydney to Darwin, which is on the north coast of Australia and relatively near the Malayan Archipelago. The service will be carried on by a Sydney company.

From Darwin the route will cross the sea to the island of Timor, proceed along the Malayan Archipelago to India and thence run to Bagdad or Port Said—probably the latter. From Port Said it will cross Europe to London. The survey of the second section of the route, from Darwin thru Malaya to Delhi, is now going on.

It is expected that the first flight will be made within the next few months, and it is planned to have the proposed passenger and commercial services in full operation in about two years. If the company succeeds London will be reached regularly from here in 6½ days.

The Sydney-Darwin section is 2,000 miles. But the survey party travelled about 4,000 miles in order to select the most satisfactory landing places or relay stations.

When the flights are in full swing business between Sydney and London will be greatly facilitated from the fact that letters may be answered within two weeks of their despatch from here.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

WHY?

277 CITIES, TOWNS AND VILLAGES HAVE DEFUNCT MUNICIPAL LIGHTING PLANTS

Read the 1919 report of the Merchant's Association of New York:

"The 277 cities, towns and villages named below comprise but a part of those which after a trial of municipal ownership and operation of electric lighting plants, have ceased, in whole or in part, to operate the plants. In practically all these cases municipal operation was undertaken in the belief that the community would obtain electric service at materially less cost than if obtained from private companies. Experience demonstrates that this belief was mistaken. Most of the municipalities sold or scrapped their plants at a heavy sacrifice and thereafter obtained from private companies service at materially less cost."
