### DISCUSSION RIFE OVER HOME RULE

DUBLIN, Aug. 25.—Appearance in various London papers of the announcement that Premier Lloyd George is considering an offer to Ireland of dominion home rule, with county option has created much discussion in political circles in Dublin.

Sir Horace Plunkett's new Dominion League, while willing to arrange special terms for Ulster within an Irish dominion, is very strongly opposed to any arrangement by which any part of Ireland would be altogether outside the new Irish parliament, and Sir Horace believes any such plan would be unworkable.

Ulster Unionists, on the other hand, are violently opposed to county option or, indeed, to any option. The furthest they have gone is to agree to the total exclusion from an Irish parliament of the six northern counties without the preliminary of a plebiscite.

Many Sinn Feiners declare that if county option were extended to all Ireland a plebiscite taken on home rule, many of the counties would adhere to the demand for a republic or nothing, and vote against it.

### SAN DIEGO MAN GAINS 14 POUNDS

A WELL KNOWN SALESMAN PRAISES TANLAC FOR ENDING FOUR YEARS' TROUBLE

"I have been relieved of four years' suffering, and have gained exactly fourteen pounds in weight since I commenced taking Tanlac," said R. A. Whitcomb, a well known salesman for the Caldwell Grocery Co., who lives at 2379 Franklin Ave., San Diego, Cal., the other day.

"My trouble started with an attack of acute indigestion," continued Mr. Whitcomb, "and these spells have been coming pretty often for the past three years. In fact, when I began to take Tanlac, my stomach was in such bad condition that everything I ate would cause me to suffer terribly afterwards. I would have the worst sort of cramping pains in the pit of my stomach, and when these spells hit me, I would be in so much actual misery that cold sweat would pop out all over my body. Sometimes gas would form so fast that it would rise up into my chest and cause my heart to palpitate, and make me feel so weak that I would almost faint. These troubles kept getting worse all the time until I was so rundown and wornout that I was hardly able to work.

"One day last fall I read about a man who had suffered exactly as I did and had been greatly relieved by taking Tanlac, and I thought that if it helped him so much, it ought to do me some good, and I immediately bought a bottle. Well, sir, Tanlac fixed me up just like it did the other fellow, and this convinces me that anybody who suffers as I did can depend on Tanlac for relief. Why, I am as well and strong as I ever was, and my troubles have been completely overcome. I have a fine appetite, and eat just anything I want and I never have a sign of indigestion or sour stomach. My strength has come back to me, and I can do as much hard work as ever. Tanlac is one medicine that comes up to all that is claimed of it, and I wouldn't hesitate to recommend it to anybody."

Tanlac is sold in Klamath Falls at the Star Drug Store and in Loretto by the James Merc. Co.—Adv.

### BONANZA NOTES

Mr. J. Sumner of Poe Valley was in Bonanza this week.

W. T. Garrett of the Big district was in Bonanza one day this week on business.

Mrs. C. L. Fortis accompanied by her oldest son and two daughters left Thursday for western Oregon for a tour. The party is traveling by auto truck.

A grand ball is announced for August 28th at the manana's Hall. Come on time to the good time!

Her name was Mirandy Judkins and she was a scrub lady. But she was a warm-hearted little girl with a great deal of beauty and when love for Teddy, the musician, came into her heart she spruced up and became a different looking girl. All this is told in "Mirandy Smiles," the latest Paramount picture starring Vivian Martin, which will be shown at the Star Theatre tonight.

Mirandy worked at the Grand Opera House in a Middle Western town. She liked to watch the players at rehearsals and also to listen to the wonderful music of Teddy, who played in the Opera House orchestra. One day Mirandy splashed a pail of soapy water over herself and it was Teddy who rescued her. Their romance started right there.

One of the big, gripping scenes in "The Menace," the Vitagraph Blue Ribbon Feature which will be shown at the Temple Theatre tonight, is where the supposed adopted son of wealthy parents, is detected robbing the home of his fiancée's parents.

The youth has fallen under the influence of a convict who convinces him he is his own son and forces him into a life of crime under threat of exposing his real parentage.

This strong picture from the story by Rex Taylor is based on the experiment of a physician, and who attempts to demonstrate his theory that environment is capable of rectifying any heredity taint. He adopts the supposed son of a burglar only to learn it is his own son he believed drowned.

Corinne Griffith young and beautiful star has the leading feminine role. Ewart Overton has the leading male role, that of the son, and others in the cast are Ned Finley, Herbert Farrow, Lella Blow and Frank A. Ford.

Hanford Henderson, a well known writer, has withdrawn from publication a socialistic book written by himself because he now sees that "government ownership and interference, and paternalism generally, are contrary to the highest social welfare, and tend to make a people inefficient, unjust and singularly uninteresting."

### HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the value of healthy blood in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact, to feel your best day in and day out, just try inside bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. It is a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, sweeten and freshen the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.—Ad.

### AMUNDSEN ON WAY TO POLE

Discoverer of South Pole Drifting in Steamer on His Way to the North Pole—Expedition is Accompanied by Airplanes.

SEATTLE, Aug. 25.—Bound for the North Pole, Roald Amundsen, Norwegian discoverer of the South Pole, is at present drifting in his ice locked schooner, the Maud, somewhere north of western Siberia according to beliefs held by the Seattle Norwegian vice-consulate.

In planning the trip, the explorer said he expected, after reaching the pole, to return either to Grant Land, west of Greenland or Melville Island, which lies in the Arctic Ocean north of Canada. Should he reach Melville Island he probably would journey by sea to Nome, Alaska or overland to Dawson, Yukon Territory.

Siberian Islands, it was believed, the drift would carry the boat toward, if not across, the pole. Amundsen intended to use the airplane if he found the drift would not carry him across the "top of the earth."

### ANDREW CARNEGIE ONCE OPERATED TELEGRAPH KEY

PHILADELPHIA, Aug. 25.—Andrew Carnegie was lauded as "the master manipulator of the telegraph key in his day" by Colonel Joseph Green, eighty six years old, Philadelphia's veteran telegraph operator.

"I first met Mr. Carnegie," said Colonel Green, in 1857. I was at that time an operator for the Pennsylvania Railroad in this city and frequently held conversations over the wire with him as private operator of Colonel Thomas A. Scott, president of the road. We all knew him as 'Andy' and recognized him as a master of the key."

### 'GOBS' ASK DISCHARGE ON PACIFIC COAST

SANTA BARBARA, Calif., Aug. 25.—Fully 50 per cent of those of the enlisted men of the Pacific fleet who will obtain discharge about October 1st want to be discharged on the Pacific Coast, instead of being sent to the city—in many cases on the eastern seaboard—where they enlisted.

This estimate was made by Lieutenant T. P. Riddle, chaplain of the flagship New Mexico, who based his statement on advice sought from him by men who will be given discharges.

"This is unusual," said the chaplain, "and a fine compliment to the Pacific Coast. It shows the men like the West and the treatment they have received here."

Plans Accompany Success.

Two airplanes, it is believed, formed part of the Maud's equipment when she left Norway last fall and sailed through the White Sea bound for the icy north. The final dash to the pole may be made in one of the planes. Amundsen, it is believed, may also fly back to civilization in one of the machines.

Nothing has been heard from Amundsen since Sept. 1 1913 near Maud was reported taking off for her motors at Dixon Island, a White Sea point. After taking the oil she sailed northeast into the rapidly freezing waters of the Arctic Ocean.

May Drift Across Pole.

From White Sea Amundsen expected to drift east with the ice to the New Siberian Islands, which lie in the Arctic off Siberia. At the New

### ALL WELCOME EARLY CHOICES IN FURS

The advent of the "August Fur Sale" by enterprising retailers a few years ago has proved advantageous to women. This in the fact that the new styles are shown so early each fall that she may make her selection and plan accordingly, without fear that by the time she has completed her wardrobe, that her fur wrap is not "right" at all. The model in mind shown here is one of the more popular coats, the short waist and big comfy collar being features distinct in all of the newer designs.

At a meeting for promoting the welfare of the displaced Eta (or outcast) class in Tokio, Japan, a former Japanese minister of war said: "Japan is advocating abolition of racial discrimination abroad. It is regrettable that there are such inconsistent phenomena at home as the attitude shown toward a section of our own brethren."

## "OREGON"—YOUR UNIVERSITY

THE UNIVERSITY OF OREGON

SCHOOLS AND DEPARTMENTS

The University includes the College of Literature, Science and the Arts, and the special Schools of Law, Medicine, (at Portland), Architecture, Journalism, Commerce, Education and Music.

A beautiful campus, facilities of special-ize, modern buildings, low cost, and many opportunities for self-help, "Education is everybody's" a really democratic atmosphere—and the famous "Oregon spirit."

For a catalogue, illustrated booklet or special information, address: THE REGISTRAR, UNIVERSITY OF OREGON, EUGENE, OREGON.

### At the Theatres

"The deceased showed poor judgment in pulling his gun, and lost on the draw."

This verdict of a backwoods country sheriff in "Man's Desire," starring Lewis S. Stone, distributed by Exhibitors Mutual, is a sample of the "border justice" meted out by red-blooded men in primitive civilizations.

Tom Denton beat "Bull" Larkin on the draw and these rough lumbermen knew "Bull" had it coming to him.

Border justice is demonstrated in a graphic way in "Man's Desire," a drama in which atavistic men with courage in their hearts and blood in their veins settle personal misunderstandings in a primitive—tho' tragic—way.

Lewis S. Stone gives a remarkably strong characterization of a "straight-shooter" in this virile drama, written by himself and produced under the direction of Lloyd Ingraham. At the Liberty tonight.

One of the most interesting pictures in the educational field, will be shown at the Liberty tonight. Beavers in their native haunts, actually caught at work by a camera man whose middle name must have been
