### "WHEN YOU COME TO THE END OF A PERFECT DAY"

A sawmill man one morn got up  
And found the sun was bright,  
His breakfast food, each plate and cup  
And ev'rything was right.  
He heard the morning whistle blow  
And heard the saws begin  
Their singing in the vale below,  
The day to usher in.

And then he wandered to the mill—  
Found ev'ry man in place  
And each one working with a will  
And with a smiling face.  
The logs came up without a hitch  
To saws as sharp as swords;  
Each cut produced a perfect flitch,  
Each flitch the best of boards.

And not a pulley slipped a belt,  
And life was just a song;  
The logs to lumber seemed to melt  
And not a thing went wrong.  
The morning mail some orders bro't  
And cancellations none;  
In all the letters there was not  
A kick from anyone.

All day the mill, from early dawn  
Till night began to fall,  
Kept working on and sawing on  
Without a break at all.  
At last the millman homeward sped  
Without a woe or care  
And, kneeling by his little bed,  
He prayed this little prayer:

"O Lord, I know that sometime I  
Will have to perish, too—  
I know that sometime I shall die,  
For people often do.  
Today we never spoiled a board  
And ev'rything went right—  
If it is all the same, O Lord,  
I'd like to die tonight."  
—American Lumberman.

## PREVENTION OF FIRES TO TRIM LIVING COSTS

Continued from Page 1

more recent panic of 1907 occurred in the year succeeding San Francisco's great fire. Of course this may be mere coincidence, but it is a fact nevertheless. If America were to reduce her fire cost to the fractional figures of most other countries it can hardly be doubted that the cost of living would be lowered. It must never be forgotten that 21.4 per cent of this annual bon fire is due to strictly preventable causes, 37.9 to those which are partly preventable, and that the remaining 40.7 per cent from "Unknown Causes" largely preventable.

**Inflammables in Stores.**

"Then there is the grocery store. Most people depend upon groceries for their food, and the average grocery, containing as it does, stocks of kerosene and other inflammable merchandise is a special instance of fire hazard. This is shown by the great number that are consumed throughout the nation during each year, and each grocery fire subtracts a definite quantity of staples from the national supply."

**Meat supplies are directly affected by the large number of live stock burned in fires in barns and stables, and also by the many fires in packing and slaughter houses."**

**822 Fires in Mills.**

"With other staples than food, the same condition holds true. In two years there were reported 822 fires in wool and cotton mills. Cotton is a commodity which is particularly subject to disastrous fires. This also applies in a marked degree to the refining, storing and handling of oil—one of our more common daily requirements. The supply of wood in this state particularly, enters into many phases of our living necessities."

"In New York state alone it is reported that 200,000 people are turning out an annual product of nearly \$400,000,000 in wood manufacturers, to say nothing of the mills and logging camps throught the nation, and shipping directly affected. Striking at the basis of this great industry hundreds of human lives and millions of dollars worth of property are destroyed each year."

"The burning of saw mills, lumber yards, furniture and woodenware factories and stores is too frequent to call for special comment. It can well be seen how the economic status of the country is affected by our annual fire waste."

President Wilson is scheduled to deliver his third address in behalf of the League of Nations in St. Louis today.

A Louisiana State conference will be held today to organize for a \$50,000 State campaign in behalf of the Roosevelt National Memorial.

## Actress Pickets "Persuading" a Mere Man to Help New York Theater Strikers

Just what the legal definition of "persuasion" is we do not know, but this photograph shows a squad of actress pickets trying to "persuade" an actor that he should join the Actors' Equity Association and thus help to close more of New York's theaters. Stage women have been just as active as men in the actors' strike, which darkened a dozen well known houses.
