

Egyptian Princess Wishing Wounded U. S. Flier Luck in New York-Toronto Race

One of the most interested spectators when the American aviators whirred away from Roosevelt Field, Long Island, in the New York-Toronto race, was Princess Della Patra of Egypt. She is seen here bidding good-by to Lieutenant-Daniel Gish, U. S. A., just before the start. Gish has not yet recovered from wounds sustained in air battles in Europe.

GERMAN LOSSES TOLD IN PRESS

BERLIN, Sept. 10.—Belated news of the losses incurred by German families and organizations, military or civilian as it is verified, is being placed in the newspapers in the form of obituaries.

The Baron von Wangenheim family recalls its dead in a great black-bordered advertisement in which are named twenty-two members of the family have fallen for the Fatherland, all except two of them officers.

Similarly the family Baron von Puttkamer, little known in Germany and not as large a family as the Wangenheim, announces the loss of nineteen members, ranging from non-commissioned officers to lieutenant colonel.

Individual regiments, divisions and

naval units, are daily letting their individual losses be known, and they make a formidable appearance, and attest to the bitter severity of the war.

In this connection it is interesting to not estimates of the Ministry of Finance about the cost of the war to Germany. It amounts to about \$36,500,000,000 according to the peace time rate of exchange.

MAKES QUICK TRIP

From Santa Clara to Yreka in two days by automobile is the record made by Mr. and Mrs. H. H. Edmonds, who returned last night from their recent visit to San Jose and Santa Clara.

According to Mr. Edmonds, the roads are good and weather conditions were fine on the homeward trip, save for a terrific rain storm that he encountered at Sisson.

RETURNS TO KLAMATH FALLS

J. M. Watkins has returned from Eugene, where he spent a few days last week on business.

GENERAL WOOD OPPOSES U. S. WAR DEPARTMENT

WASHINGTON, September 10.—Major General Leonard Wood, who has been talked the country over as a possibility for a presidential candidate in the coming election, took flat issue with the War Department today concerning their recommendations for the future strength of the U. S. army.

He told the senate that there was no justification for maintaining the regular army over 300,500 men. The War Department wants 500,000.

Best yet. Herald Want Ads.

LIGHT SEEN IN PRODUCTIVITY

Herbert Hoover Says That Chaos Will Prevail in Europe Unless Productivity Can Be Rapidly Increased in Near Future

LONDON, September 10.—Unless European productivity can be rapidly increased, there can be nothing but political, moral and economic chaos finally interpreting itself in loss of life on a scale hitherto undreamed of, says Herbert Hoover, head of the Inter-Allied Relief Commission, in an analysis of the economic situation in Europe just published in the British National Food Journal.

"The entire surplus productivity of the Western Hemisphere is totally incapable of meeting the present deficiency in European production if it is long continued," the analyst asserts. "Nor could credits be mobilized for this purpose for more than a short period because all credits must necessarily be simply an advance against the return of commodities in exchange and credits will break down the instant that the return of commodities becomes improbable. Further, if such credits be obtained for more than temporary purposes, it would result in economic slavery of Europe to the Western Hemisphere and the ultimate end would be war again."

Mr. Hoover points out this solution of the European economic problem: "A vigorous realization of the actual situation in each country of Europe and a resolute statesmanship

based on such a realization—the populations of Europe must be brought to a realization that productivity must be instantly increased."

In the present-day European ferment, Mr. Hoover says, "every economic patent medicine" has flocked under the banner of socialism or communism which has claimed to speak for all the downtrodden—to alone bespeak human sympathy."

Experimentation in varying forms of these political leanings—socialism and communism—has so far, in every case, resulted in reduced production, the food controller says.

Europe's coal famine, the analysis says, is due "in the largest degree to the human factor of the limitation of effort."

Western assistance in the form of its devotion of surplus productivity to Europe's needs, "is a service that the Western Hemisphere must approach with a high sense of human duty and sympathy," concludes Mr. Hoover. "The economic burden on the west should not last more than a year and can be carried and will be repaid. To effect these results the resources of the Western Hemisphere and Europe must be mobilized."

PRESIDENT ASKED FOR QUICK ACTION

WASHINGTON, Sept. 10.—President Wilson has been asked by representatives of the Steel Workers Union for a more definite statement as to the possibility of an early conference with the head of the United States Steel Corporation.

Conditions are reported to be growing steadily worse, and leaders are unable to restrain the men much longer.

Officer of Marines Who Won the National Rifle Championship

LIEUTENANT JOHN A. ZIMMERMAN

"To be a marine means that you can shoot," so the marines tell us. Here is one who has just proven that boast. In the National Rifle Matches at the Caldwell, N. J., range, Lieutenant John A. Zimmerman of Lincoln, Texas, and the marine corps team, scored 600 out of a possible 650. He won the National Rifle Association gold medal.

POLISH CHILDREN ASSUAGE HUNGER EATING HARDTACK

NEW YORK, Sept. 10.—Starving children in Poland and other war torn countries of Europe are gratefully eating hardtack to assuage their almost constant hunger.

Hardtack to the average American is vaguely associated with strenuous campaigns as an emergency ration for soldiers and sailors, certainly not as food for little children. Yet, the mere fact that the hard, unsalted, kiln-dried crackers were placed at distributing points, attracted double the usual number of small folks, according to Dr. Boris D. Bogan, head of American Jewish Relief work in Poland, in a report made public here today by the American Jewish Relief Committee.

"This, however, does not tell the story," said Dr. Bogan. "One must see the hundreds and hundreds of children gathered at the doors of the stations waiting—waiting—with eager, hungry faces. I do not understand how people, anywhere, can be quiet and content, when thousands of little children are continuously hungry."

Every poor family in Huntington N. Y., the home of August Hecksher, the real estate king, has been provided by him with an ice chest and a cake of ice throughout the summer.

POWER COMPANY HEAD IN TOWN

J. D. Grant, president of the California-Oregon Power Company, accompanied by his assistant, Paul D. McKee, P. O. Crawford, chief engineer for the company, and E. S. Taylor, an attorney from San Francisco, has just completed a thorough inspection of the holdings of the company. This is the first time Mr. Grant has been here for two years.

One of the chief objects of interest to Mr. Grant was the proposed reclamation of the marsh lands of the Upper Klamath lake, which his company will have to dike before the dam across Link river is built. Connected with this project is also the reclamation of the marshland which has just been leased to J. Frank Adams, Doak and Brown and others by the government for a term of years. If the proposed dam is built this land must be properly diked, and it was with a view to personally acquaint himself with this work and its relation to the plans of his company that Mr. Grant came here.

Before leaving for Crater Lake and Medford on his return home, he refused to make any statement for publication.

PASSED BY THE FIGHT-FILM CENSOR

Did Dempsey lick Willard? If you don't believe it look here! Dempsey's victory over the heavyweight champion was reproduced in miniature at the Asbury Park, N. J., baby parade by two youngsters. Their feat was one of the most popular at the New Jersey summer resort. Dempsey is represented by George T. Dolan. The fallen gladiator's identity is shrouded in mystery.
