## GYPSIES HEADED FOR CALIFORNIA

Wandering Romany Tribes Traveling to California to Establish Sacred Encampment at Emeryville—In Nature of Pilgrimage

SAN FRANCISCO, September 11.—Romany tribes, commonly known as "gypsies," are traveling toward California from all parts of the United States with the avowed purpose of establishing a "sirnihat" or permanent encampment at Emeryville, across the bay from San Francisco, officials of east bay cities believe.

In procession of tribal leaders, who came to the coast to attend the recent marriage of George Adams, head of one tribe, and "Gypsy" Mary, who said she was an Egyptian princess, were found telegrams from headquarters of six tribes scattered throughout the country. These contained but two words, "Aman avasa," or "We come!" They were said to be replies to a country-wide call for the gathering of the gypsy clans.

Not all of the gypsies are included in the movement. The response is confined to the more religious element who still cling to the tradition that one day they would take the lead to the land of promise by the "great water," the ultimate home of the wanderers on the Pacific coast.

Fifteen thousand men and women and their boys and girls are estimated to be on their way here. Lesko Amenjo, head of a Greek gypsy band, and others have made inquiries as to state laws on municipal organization, and the residents of Emeryville are said to be apprehensive that the gypsies have sufficient voting power to take over control of the town, now a city of 2700 population.

The bands are reported to have adopted a central flag designed at Chicago by one of their leaders. It is a green banner bearing the legend, "Borodiro Savety"—"A Greater People." Involved in the migration to this coast are gypsies of the Turkish, Rumanian, Hungarian, German, Moravian, Lithuanian, Russian, Greek and Bohemian, Italian and Spanish tribes.

### WASHINGTON'S WHEAT CROP TOTALS 55,250,000 BUSHELS.

SPokane, Wash., Sept. 10.—Private estimates of Washington's 1919 wheat crop have fixed at 55,250,000 bushels, or about 10,000,000 more bushels than ever produced in the state. The estimated value is well over \$100,000,000.

The yield in Spokane, Walla Walla and Lincoln counties will probably be of bumper size. Whitman county, with the largest wheat acreage, is listed as producing 12,000,000 bushels.

## Constipation Dangers

Constipation is a dangerous disorder—more serious than many suppose. The condition allows waste matter to accumulate and poison the system.

### Nyal's Liver Salt

will relieve constipation. It will do it in nature's own way—that is, by stimulating the liver into healthy action. It is pleasant to take and mild in action. Price 65c.

## THOUSANDS SEE MYSTERY SHIP

Anti-Submarine Mystery Causes Stir Among Great Crowd of Sight-Seeers—First "Hush" Craft to Be Seen by Public

LONDON, Sept. 11.—Thousands of persons waited in line for hours to get a close-up peep at the P-31, a British anti-submarine "mystery" ship which was moored off Queen Victoria Embankment for a two days' public inspection at the close of the official Peace celebrations. The P-31 was the first of the "hush" craft the public was permitted to see at close range.

It was only ten yards from the embankment to the quaint U-boat fighter, but the intervening distance had to be made in small boats. These each carried eight passengers. It required but a few strokes of the oars to make the "trip"—and the fare was one shilling, so the watermen's pockets soon were bulging but there was no complaint about "profiteering."

Among the thousands of curious who swarmed over the vessel were a number of American soldiers. Some of them took a peculiar interest in the guides' explanations and comment on the boat's "trick" fittings—her geared turbines, gadgets, depth-charge throwers and paravanes. It recalled to them a night of peril thru which they passed from Southampton or Winchester across the submarine and mine-infested English channel, enroute to Le Havre or some other French port—and the war. That night of fearful expectancy passed safely, they had marveled at the efficiency of the conveying craft which they knew had been off in the darkness somewhere, ploughing thru rolling breakers, eager for an encounter—with its frequent aftermath of "oil and bubbles" from a vanquished undersea boat.

But as these doughboy spectators heard a member of the crew of the "hush" ship say: "She does everything but loop the loop," and saw

others demonstrate parts of the ship's fighting equipment hitherto kept secret, they understood why they had been so secure.

The "P-31" is 244 feet long, with narrow beam, seven-foot draught and equipped with independent engines, fore and aft, that can speed her thru heavy seas at twenty-three knots an hour. Built high forward and low at the stern, the vessel has somewhat the appearance of a submarine—an effect that her designers intended.

"Fritz sometimes would think she was a 'sub' and would open fire on her—but when she slewed around in her own length and got into action, Heinie was sorry he had spoken," said a sailor who had been thru eight engagements on the fighter. There had been other brushes with enemy craft, he explained, adding, "but unless you can bring home a bit of the corpse, the Admiralty say 'Not Proven.' Its no use to tell them about the 'oil and bubbles' they're no proof because Fritz used to release oil and bubbles to make us waste ammunition."

### WILL UTILIZE MASKS IN FIGHTING FOREST FIRES

LOS ANGELES, Cal., September 11.—Gas masks, used by the American army overseas, will find a peaceful usage at home, according to Supervisor R. H. Charlton, of the Angeles National Forest, who announced recently that he had received a shipment to be used in fighting forest fires.

Forest fires have always been hard to fight, according to Supervisor Charlton, because rangers have never been able to stand the smoke in close range work.
