PEERS ARE WITH PRINCE OF WALES

LONDON, Sept. 15.—Several members of the official party accompanying the Prince of Wales on his journey to the United States and Canada are already well-known to many Americans.

It is remembered in London that the pleasure of the royal visitor and that of his hosts was somewhat marred when, in 1860, the late King Edward VII, then Prince of Wales, toured the North American continent because the accompanying entourage was composed of elderly men—men too seriously mindful of the responsibility with which they had been saddled. This criticism was taken into consideration in naming the members of the party of the Prince now in America.

Lord Claud Hamilton is a fellow-officer of the Prince of Wales in the Grenadier Guards. He joined the army in 1911 serving throughout the war and was awarded the Distinguished Service Order for conspicuous gallantry at the front.

Captain the Honorable Piers Legh is one of the Prince's equerries, a fellow officer in the guards, a former aide to the Duke of Connaught and a younger son of Lord Newton. The Captain is said to be endowed with much of the wit and appreciation of humor for which his father is distinguished.

Sir Godfrey Thomas is a personal friend and regimental comrade of the Prince. His mother was a daughter of Charles Oppenheim, the London banker.

Today's Anniversaries

1822—Moses Rogers, captain of the first steam vessel to cross the Atlantic, died at Cheraw, S. C. Born in 1780.

1830—Gen. Porfirio Diaz, famous Mexican patriot and president, born in the city of Oaxaca. Died in Paris July 2, 1915.

1889—Bishop John Walsh was appointed archbishop of Toronto.

1890—Fire destroyed a part of the famous Alhambra palace, near Granada, Spain.

1906—Gen. Dimitri Trepoff, head of the Russian police system, died at Peterhoff.

1911—President Taft started on his western tour of 13,000 miles.

1914—The French cathedral city of Rheims was occupied by the Allies.

1915—Germans under General von Mackensen occupied Pinsk.

1916—British captured new German third line in greatest battle on western front since July 1.

1917—The United States Senate passed the \$11,538,000,000 war bond bill.

HAIR BRUSHES THAT HOLD THEIR BRISTLES

A brush that sheds is dear at any price. If you are looking for the non-shed sort then don't fail to see the brushes now on display at our store. They embody the finest materials and best of workmanship.

The stock is so complete that every individual taste may be satisfied

Prices \$1.00 to \$7.00

Underwood's Pharmacy
119 North Fourth Street
Klamath Falls, Oregon

SENATORS WHO HAVE ARRANGED SPEECH-MAKING TOURS IN THEIR FIGHT AGAINST LEAGUE OF NATIONS

Senators who oppose the League of Nations have started an active campaign to try to offset the effect of President Wilson's speech-making tour. Three of them will speak from the same platform in Chicago and then separate for individual tours of the middle west. They are Senators Johnson of California, Borah of Idaho, and McCormick of Illinois. Senator Reed of Missouri led the first volley at Akron, Ohio. On the same day Senator Harding of Ohio will attack the President's league stand on the floor of the senate. Senator Poindexter of Washington is to speak in Dunkirk, N. Y., Pittsburgh and Long Island City.

ALL THAT HE WOULD ADMIT

But Old Vermonter Did Unbend Slightly When His Visitor Presented His "Gradentia."

Representative Frank Green of Vermont, who makes the best after-dinner speech of any man in congress, and does not like to because it interferes with his train of serious thought, has brought a new Vermont story to town. It is based on the cure with which his fellow Vermonter take strangers into their arms.

While ambling around the state during the recent recess Green visited a town where several of his ancestors were born. Finally he came up in front of a village store and encountering one of the oldest inhabitants he tried to start a conversation.

"Looks as though it might rain," Green suggested.

The oldest inhabitant's response was a quick glance.

"Who are you, young man?" he asked.

"Oh," Green responded, "I'm young Green. My grandfather used to run the quarry out yonder. My grandfather, too, was born in these parts."

"Is that so?"

"Yes," Green continued. "I had a lot of relatives born up here, too. One of my uncles ran the livery stable for years, a cousin was in the furniture business, one of my aunts was the champion bread baker of the county for six consecutive years, and I don't know how many of my folks took other high honors hereabouts."

The resident was impressed. Looking Green over carefully and observing that the young fellow appeared to be telling the truth, the old man agreed.

"Well, young man, it may rain," New York Times.

WHEN JIMMY BRITT LAUGHED

Sportsman Who Had Bantered Him on Looking Old Got Considerable of a Jolt.

Jimmy Britt, the immaculately dressed lightweight champion, used to tell a story about Eugene Corri, the English referee.

MAKE TROUBLE FOR DENTIST

Successful Treatment of Wisdom Teeth Always is More or Less of a Problem.

Wisdom teeth, especially lower ones, are much more difficult to handle than any of the others in the mouth. When their nerve dies or has to be killed by the dentist he cannot be sure for some time that it is really dead. The reason is that the roots of a wisdom tooth are twisted or curved in such a manner that the root canal cannot be explored.

The upper wisdom teeth have three roots, frequently fused together, forming a grooved cone, which is usually curved backward," says Gray's anatomy. "The roots of the lower, two in number, are compressed together and curve backward."

It is this backward curving of the compressed roots that gives trouble to the dentist. Often the canal that runs through each root is so narrow and so curved that the finest of the "brooches" used to draw out the dead nerve will not penetrate, and sometimes when it has penetrated it will not come out.

When this happens there is only one thing to do—leave the brooch and apply iodine, which will very soon eat away the steel of which the brooch is made.

Las Vegas Has Future.

Las Vegas was founded by some Mexicans when New Mexico was a part of old Mexico, in 1835, and the Mexican government granted to the new community an area of some 400,000 acres. The Mexicans took up what they needed of this land and built a village in the middle of the settlement. It remained a sleepy Mexican town until some time in the seventies, when it was struck simultaneously by several Yankees and Jews, and by a wave of prosperity.

The Mexicans, who had been squatting on a part of the community grant, showed that they were capable of learning modern business methods by claiming the whole 400,000 acres. After a long contest the courts confirmed them in their titles to the lands they actually occupied, but decided that the rest of the area belonged to the community.

And so it is today. This town owns great grazing areas, which are open to all citizens, and valuable timberlands. Ultimately Las Vegas will be rich and her people tax free.

The Essential.

The new doorkeeper at the museum turnstile had learned the book of rules by heart before taking over the job.

"Here, sir, you must leave your umbrella at the door," he said to a visitor who had failed to hand over that article.

MRS. EMMA RICE WAS ASTONISHED

THIRTY YEARS TROUBLE ENDS IN A FEW WEEKS AFTER SHE TAKES TANLAC

Remarkable, indeed, was the statement made recently by Mrs. Emma Rice, who resides at 9303 Baring Cross, Los Angeles, Cal. Mrs. Rice declares that four bottles of Tanlac have completely relieved her of a rheumatic trouble which she has been trying for thirty years to overcome. Here in her statement.

"Some astonishing things happen in this world and what Tanlac has done for me in the past few weeks is one of them. I had suffered with a severe pain, like rheumatism, in my back for thirty years, and while I was under treatment a number of times and tried many different kinds of medicines I got no relief. Then in January of this year I caught a severe cold and my hands became so affected with rheumatism that I was unable to use them to do my work. I was also badly run down and so weak I could scarcely keep up and about."

"After reading in my home paper where so many friends and neighbors had received such good results from Tanlac I decided to try it myself and words can't express my gratitude for what it has done for me. The pain disappeared from my back before my first bottle of Tanlac was gone. I am now on my fourth bottle and feel better than I have in thirty years. The rheumatism has also left my hands completely and I am now able to do my housework and attend to my chickens and little garden without any trouble whatever. Tanlac certainly is a grand medicine and I can recommend it to everyone, especially those suffering from rheumatism and a run down condition."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Merc. Co.—Adv.

Sorry He Spoke.

Foreman—Get a move on with that job, will you?

Laborer—What's your rush, boss? Rome wasn't built in a day.

Foreman—No, but it was fired in a day, and so are you.

A person who is partially deaf can hear best when riding in a railway train. The rumbling of the train causes the drum of the ear to vibrate, and in this way excites the capacity to hear.

TODAY'S EVENTS

According to immemorial custom, today marks the close of the straw hat season.

William H. Taft, former President of the United States, is 62 years old today.

The four Central American republics today celebrate the anniversary of Central American independence.

President Wilson in his tour of the West, is scheduled to deliver an address today at Portland, Ore.

The Washington State Fair, one of the largest annual exhibitions in the Northwest, will open today at Yakima.

Portland, Ore., will be the meeting place today of the annual convention of the Pacific Coast Fire Chiefs Association.

MANY CASES OF RHEUMATISM NOW

SAYS WE MUST KEEP FEET DRY, AVOID EXPOSURE AND EAT LESS MEAT

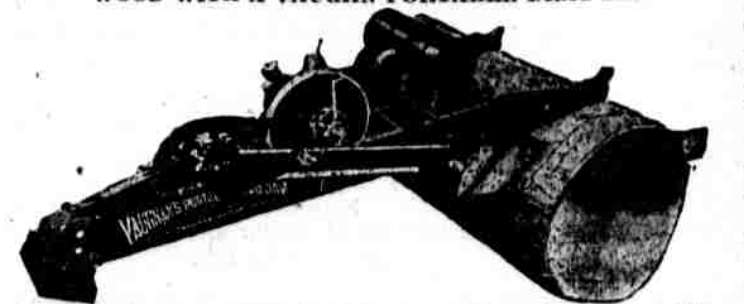

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system, eventually settling in the joints and muscles causing stiffness soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Adv.

COSTS LESS THAN FIVE CENTS A CORD TO SAW YOUR WOOD WITH A VAUGHAN PORTABLE DRAG SAW

The only drag saw with the jiffy saw holder. Grips or releases saw instantly. No holes to drill in saw-head. Only saw with drive straight behind saw. Metallic clutch. Tested. See your dealer or write us.

VAUGHAN MOTOR WORKS, INC., 476 E. Main St. Portland, Ore.

SPECIAL NOTICE

From and after Monday, the 15th day of September, 1919, the business hours of the following named merchants and stores will be as follows: Week days, except Saturday—Open 8:00 A. M., close 6:00 P. M. Saturdays only—Open 8:00 A. M., close 9:00 P. M.
