CANADA OFFERS RECEPTION TO DEMOBILIZED SOLDIERS

LONDON, Sept. 17.—Canada is offering a cordial reception to demobilized British soldiers who have not found in England satisfactory employment upon their return to civilian pursuits. North American emigration is being suggested as a

possible solution of England's pressing resettlement problem. While all British emigrants will be welcomed, Canada is particularly warm for the coming of professional men. Canadian professional societies are said to be prepared to give special preference to men of this class. Qualified accountants, chemical and forestry interests, for

instance, have many positions which it is hoped may be filled through absorption of this excess of British professional men.

After taking Doan's Kidney Pills a few days, my kidneys act properly and my back feels as strong as ever. I advise anyone who is suffering from backache and kidney disorders to give Doan's Kidney Pills a trial, for I know they are reliable."

JULY ISSUE McClURE'S ON "UTILITIES ENTITLED TO PROTECTION"

The financial editor, in a forceful article in that Magazine, says:

"Public Utilities Commissions have been formed in many states to exercise control over privately owned public utilities, and have generally demonstrated that their regulation is beneficial. On the other hand, municipal ownership has proved generally unsuccessful, and is subject to objectionable and harmful political manipulation. The public should realize this fact, that its interests are those affected, and it is a fact that private ownership is ninety-nine times out of a hundred more efficient than ownership by a government, whether of a city or nation.

"In order that a public utility may expand, money is needed, and to get money credit is necessary. It is to the interest of a city and its inhabitants to see that credit is furnished. . . . Their interests are inextricably intertwined, and public indifference to and ignorance of conditions affecting this class of companies are serious hardships to their growth and expansion. . . . If the utilities are to be regulated they are entitled to protection."
