

RED CROSS HOLDS ANNUAL MEETING

Local Chapter Has 3,964 Paid Up Members—Executive Committee Is Reduced to Twelve Members Instead of Twenty-five

At the annual meeting of the Klamath County chapter of the American Red Cross which was held at the City Hall yesterday afternoon, the secretary reported that there were 3,964 paid up members of the organization. The work of the society through its work rooms here in Klamath Falls and the branches located at Algoma, Klamath Agency, Fort Klamath, Bly, Hildebrand, Poe Valley, Lorella, Bonanza, Langell Valley, Merrill, Malin, Henley School Mt. Laki, and Miller Hill has been very successful and large quantities of knitted goods, surgical garments and refugee clothing have been prepared and sent to headquarters. Reports of this work has been made from time to time.

Drives for funds have been very successful. The first was for a quota of \$10,000 of which \$9,111 was raised. The second drive for \$8500 while the amount raised was far in excess of that being 19265.

Treasurer Leslie Rogers, reported a balance last year on June 30th, of \$3447.39; amount received this year from all sources, \$7861.87; and the amount expended for all purposes, a large portion of which was sent to division headquarters at Seattle, \$7080.36. A balance on hand subject to call from headquarters and for local use amounts to \$4228.90; \$3500 of which is on deposit at 4 per cent interest.

In the refugee garment drives 8,000 pounds of old clothing were gathered and shipped the first time, and over 4000 pounds on the second call.

The Society did most efficient service not only for the boys across the water but also for the home needs during the influenza epidemic. Supplies of all kinds were furnished and efficient personal assistance rendered by many.

In view of the quieter nature of the peace time work to be taken up, a motion was passed to cut down the

size of the executive committee from 25 to 12 for the ensuing year. The following persons were nominated and elected as the twelve members to serve on the committee for the new year. Mr. and Mrs. H. D. Mortensen, J. W. Siemens, R. H. Dunbar, E. P. Lawrence, Mrs. E. B. Hall, Mrs. W. H. Robertson, Father Hugh Marshall, Mrs. S. E. Martin, Mrs. R. S. Bratton, Twyla Head and George Walton.

The committee is to meet soon and elect its own officers for the year. The peace time program embodies the pushing of nursing activities—securing if possible, a visiting nurse for the county, classes in hygiene and home care of the sick, and classes in First Aid.

In the absence of Capt. J. W. Siemens, the chairman, R. H. Dunbar, vice-chairman, took charge of the meeting.

U. S. INSTITUTE OF MINING MEETS IN LATE SEPTEMBER.

CHICAGO, Ill., Sept. 17.—Mine owners and mining engineers from every section of the country will present opinions to government representatives on the taxation of mines at the meeting of the American Institute of Mining and Metallurgical Engineers which will be in session here during the week of September 22.

Mine taxation at present ranks with the subjects of most pressing importance to the mining world. At their meeting the mining engineers and government officials will discuss methods of determining mine valuations with a view to establishing tax laws for the mines which will take into account the wasting assets of the mining industry.

The meeting is being held at the request of the Commissioner of Internal Revenue who will be represented by Dr. L. C. Graton of the valuation Section of the Bureau. In addition the mining engineers will hold important discussions on coal supply.

PEOPLE FORGET ABOUT KAISER

AMERONGEN, Holland, Sept. 17.—A few bicycling tourists occasionally stop and peer through the gates of the Bentinck estate in hope of catching a glimpse of the former German emperor, but were it not for them and the presence of the state police guards who languidly pace up and down the road about the castle walls, Amerongen would seem to have completely forgotten that William Hohenzollern was in voluntary exile there.

The doings of the former ruler and his small "court" inside the castle have ceased to be a topic of village gossip.

Once a week, perhaps, someone may mention him, wondering how long he will be in Holland, and then ensues a series of weightily expressed, judicial opinions, the gist of which is that Amerongen doesn't believe the Allies will ever attempt to bring him to trial at all, and that William of Hohenzollern will settle down and become a Dutch country gentleman. It is seldom that real information regarding his doings trickles out from the walls and the moats of the estate.

AMERICAN AUTOS USED IN ENGLAND

NEW YORK, Sept. 17.—Although Great Britain has repealed its restrictions on the import of motor cars, it is reported that the abolition of these restrictions may be only temporary. A new rationing plan allowing cars and trucks to be imported in proportion to the average number imported in 1912-15 may be adopted. Up to Sept. 1, 1919 imports have been rationed on the basis of 50 per cent of the 1913 imports in average monthly quantities.

Under present uncertain conditions surrounding the exporting of cars to European countries, and the desire on the part of all American makers to obtain a wider distribution of their products in foreign fields, it is interesting to note that the final apportionment announced by the British Government permits the entry of but three American-made automobiles.

In a special communication to "Autopobile Industries," the London correspondent says:

The American apportionment of the 5,000 cars which the British Government will allow to be imported, in addition to the former rationing scheme, have been apportioned as follows:

Ford, 2579; Studebaker, 769; and Overland, 494; giving a total of 3,842.

"The rest of the 5000 are to come from the French and Italian makers. It was at first presumed that the

American factories would get the entire allowance.

"The American figures are proportional to the total imports during the years of 1912 and 1915, exclusive.

"American importers here have been greatly disappointed by the failure of the Government to give them a definite statement on what they may expect in the way of business prospects beyond this allowance which was undoubtedly made to partially meet the public demand for cars. British manufacturers are still struggling with slow production and are keeping up demands that their industry be protected by keeping out cars of foreign makes."

COBB STILL ON DECK AFTER 15 YEARS

Ty Cobb, who has just celebrated the 15th anniversary of his introduction to professional baseball, is upsetting a few of the dopesters who figured he wouldn't last. Ty is at the head of the list on general averages and his work this year as a batsman shows he is in prime condition and is not through by a long shot.

TELEPHONE

Rates and prices which the public is asked to pay for telephone SERVICE

To be just and reasonable, telephone rates or prices must cover the cost of rendering the service and leave a profit that will attract to the telephone industry a continuing supply of capital which is constantly required for extensions and improvements.

If rates yield more or less than such amount they are not just. If they yield more, they are excessive and unreasonable. If they yield less, they are unreasonable, and are against public interest, because they result in a deteriorated service and capital is no longer attracted, but directed to other industries that are more profitable, and possibly the products of many such industries are of less importance to the public.

The present rates we believe to be just and reasonable. They were approved by the Postmaster General, and are effective by act of Congress.

These rates are now being reviewed by the Public Service Commission of Oregon, which body assumes jurisdiction since the government turned back the telephone properties to private ownership.

THE

Pacific Telephone and Telegraph COMPANY

If only you could hang your feet on the strap.

Your poor tired arches carry a load all day that nature never meant them to carry. Shoes make bridges of your arches. They carry the whole weight of your body without support. In time the arches break down. The first symptom is extreme weariness, and often pains in the legs and back. Take warning. The

Wizard Adjustable Arch Builder

provides the support nature intended your arches to have. By distributing the weight of your body evenly over the feet the strain is avoided and serious consequences averted. You can walk, dance or stand without becoming unnaturally tired. The Wizard Adjustable Arch Builder is not an ordinary metal plate arch support. It is a featherlight, flexible, all leather device that can be adjusted to fit your arch by simply arranging the inserts in the pockets so that they feel comfortable. They give instant and permanent relief. If you have been wearing ordinary arch supports change and get a pair of Wizard Arch Builders. By gradual adjustments at home, you can build up your own arch to normal, with ease and comfort. All good shoe dealers sell Wizards.
