New York-Toronto Air Racer Who Had  
Wilson Letter for Prince of Wales

CAPTAIN JAMES M. FOOTE

One of the forty-three American aviators who started in the New York-Toronto race was Captain James M. Foote, once a football star at the University of Chicago. He carried a letter from President Wilson to the Prince of Wales and, being the first to reach Albany, the first of three stops, received a letter from Governor Smith of New York for Sir William Hearst, president of the council and premier of the province of Ontario.

## MANY CASES OF RHEUMATISM NOW

SAYS WE MUST KEEP FEET DRY,  
AVOID EXPOSURE AND,  
EAT LESS MEAT

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

Blank had had a day off, and when he returned to the office the following morning his pals wanted to know why he looked so disgruntled.

"Everything went wrong!" grumbled Blank.

"How was that?" one asked.

"Ever go fishing with a girl?"

"Once."

"Did she protest against hurting the fish?"

"No. She said she was sure they were perfectly happy, because they were all wagging their tails."—London Tit-Bits.
