

PRESIDENT IS BETTER, REPORT

Physician Announces Improvement Patient's General Condition—He Is Watching Treaty Fight With Interest but Takes No Hand

WASHINGTON, D. C., Sept. 30.—After two days of complete rest, President Wilson's condition today showed improvement, according to announcement issued by Dr. Grayson, the President's physician.

Although the President's illness is still serious enough to preclude his taking an active part in the fight for the ratification of the peace treaty, he has shown much interest in the progress of the struggle.

Last night he received a report from Secretary Tumulty on the situation in the senate, which advised the administration that the treaty would not be amended and no reservations requiring its re-submission would be adopted.

Steel Corporation Head Who Refused to Confer With Labor Leaders

ELBERT H. GARY

Facing the possibility of a strike affecting the thousands of employees of the United States Steel Corporation Judge Elbert H. Gary, chairman of that corporation's executive board, refused to confer with members of the Amalgamated Iron and Steel Workers' Union. He denied their contention that they represented a great majority of the employees and declared that the corporation stood solidly for the "open shop."

EDEN CLOTHES NOW WORN IN SOUTH RUSSIA

PARIS, Sept. 30.—People in some of the villages of southern Russia are wearing dresses made of leaves or grass sown together with bamboo fibre, owing to the difficulty in obtaining cloth, says Major G. M. Towse, who is in charge of the Red Cross activities along the shores of the Black Sea.

"It is an ideal costume for the summer when southern Russia has a temperature like that of the Garden of Eden," said Major Towse, "but I shiver when I think of what will happen to those little girls when the snow begins to fly."

The Red Cross is expected to distribute a shipment of clothing in southern Russia before autumn.

HOWIE RETURNS FROM CALIF. MOTOR TRIP

Mr. and Mrs. J. E. Howie with their two sons returned last evening after spending a month motoring through Central California. Mr. Howie is enthusiastic about California highways, and predicts great things for Klamath County and Oregon when this section has reached the point of highway development attained by the Golden State.

"The greatest asset California has is her roads. You often hear people say that we don't want to build roads for the tourist. This is a mistake. We are all tourists. If we go to Merrill or Fort Klamath, we are tourists. The farmer is a tourist when he comes to town. But using the word tourist in the broadest sense, the tourist business would do more for the building up of Oregon than any other one thing. It has built up California and Washington and it will build up Oregon, for this state is going to have good roads. It is only going to be a matter of a short time before nearly everyone in Klamath County will be touring in other states, and when they do, they will be glad to receive a cordial welcome and have good roads to travel over. In all my travels, however, I saw no place that surpassed Klamath, and few that equalled it."

HOMES DESTROYED BY FLOWING LAVA

HONOLULU, Sept. 30.—Mount Mauna Loa, the Hilo Island volcano, burst into a new eruption last night, when a wide stream of lava poured down the Kona side of the crater, destroying many houses in its path. Residents of the devastated district are fleeing to Rea, 50 miles away.

EQUAL RIGHTS GUARANTEED TO FOREST USERS

Grazing Privileges in Modoc National Forest Will Be Shared Alike by Stockmen of Oregon and California, Says Supervisor

Both sheep and cattle men of Klamath county have been somewhat in doubt as to whether or not their applications for permits to graze in the territory known as the lava beds country, which was recently added to the Modoc National Forest, would receive the same consideration as the applications from live stock men living in California.

Secretary J. H. Carnahan of the Klamath Wool Growers' Association received a letter recently from W. G. Durbin, forest supervisor at Alturas, California, wherein he states that applications received from persons living in Oregon will receive the same consideration as if they lived in California, and there will be no discrimination. Each individual case will be considered and determined regardless of state lines.

"Give It a Boost"

Next Thursday and Friday are the days for our Klamath County Fair, and every community all over the valley is going to put its best foot forward towards displaying its own community exhibit.

Now, Klamath Falls has been asked to join in this great event and we want to show them some of the wonderful fruit and produce that is grown in our city. Therefore, the Sunset Grocery is taking an active part in this, and is asking everyone who has anything they can dig up to bring it to our store, or phone us and we will see that it is taken care of and delivered to the fair in the best of shape.

Don't neglect this opportunity to do your "bit" towards helping out our display, and show to the people what we really have in this wonderful valley, as well as our thriving and growing city.

If you can't deliver the stuff to the Sunset phone us and we will come after it.
