YOUR RECORDS

Your record collection is the best indication as to whether your Phonograph has proved a good investment.

A few live new records at regular intervals is necessary if you get the right enjoyment and Earl Shepherd's new Music Store is the logical place to secure them.

At the Theatres

Edna Goodrich makes her initial appearance on the Liberty screen tonight. Miss Goodrich has made a most brilliant stage success and she is expected to make even a greater hit in the silent drama. She will be remembered as one of Nat Godwin's wives—we are not sure whether it was the third or fourth, but whichever her number was she must have real class for Nat was always credited with good judgement.

At the Liberty tonight only.

If you wish to laugh, be entertained royally, and incidentally learn something of the methods familiarly ascribed to those members of the feminine sex who deliberately set out to fascinate the opposite sex, you should not fail to see "The Vamp," Enid Bennett's new photoplay which will be shown at the Star Theatre tonight. It is a Paramount feature, and was produced by Thomas H. Ince.

There is a well sustained plot by a mastercraftman, C. Gardner Sullivan, involving a labor mix up in a coal mining district and a Hun scheme to foment trouble. The vamp wins her husband and also exerts her talents in this gentle art to win the secrets of a vile schemer employed by the Germans. Enid Bennett has a wonderful role, it is said, to which she does full justice. She is splendidly supported.

Vivian Martin certainly had her hands full during the filming of her latest Paramount picture, "Her Country First." In the picture she plays the part of a girl who organizes a Girl's Aviation Corps and saves her father's munition factory by her knowledge of the semaphore or signal system as it is practiced in the United States Army.

The picture which will be shown at the Temple Theatre tonight, was made during the drive for the Third Liberty Loan and Miss Martin was kept busy enacting her part, learning to operate the semaphore, and making speeches in aid of the loan. She also found time to go to the Red Cross work rooms in Los Angeles and help there, and also to raise money for wounded soldiers by auctioning off things at a Red Cross bazaar. No one can question Vivian's patriotism.

The Friendly Water Trip.
It's a queer world. Sunday we spent in a friend's boat, making the trip to Wallaceburg, Ont. Along that stretch of blue water we passed every sort of people in every sort of boats, and in every instance we waved a hand in greeting to them and they waved to us. It was no trick at all to get a warm and genial sign of friendship from passersby. The people on land saluted us. It seemed as though we were continually being welcomed as we arrived in sight and wished good luck as we departed.
Yet on land we could have passed by the same people time after time and not one of them would have turned to look or wave a hand. Why can't people be as friendly to land travelers as they are to those who travel by water? It's a queer world.—Cleveland Leader.

The contents of the half-page ad deals editorially on interesting subjects, treated from a very human standpoint and with appeal to the man outside the church.
