RESOLUTION

Approving the Plans, Specifications and Estimates prepared by the City Engineer and filed with the Police Judge for the construction of the Fifth Unit of Sewers for the City of Klamath Falls, Oregon, including septic tank and outfall sewer as shown in said Plans, Specifications and Estimates; determining the boundaries within which the property lies that is to be specifically benefited and to be assessed for one-half of the cost of such Fifth Sewer Unit after eliminating therefrom the cost of the septic tank and "outfall" sewer running from the intersection of Owens and Shasta Streets westerly to Lake Ewauna, as shown upon said Plans, Specifications and Estimates; charging the cost of said septic tank, outfall sewer and septic tank, and one-half of the cost of remainder of said Fifth Sewer Unit against the City of Klamath Falls and the remainder thereof against the real property specifically benefited by said sewer unit, and ordering the publication of this Resolution.

The City Engineer, pursuant to resolution of the Common Council heretofore adopted, having on 6th day of October, 1919, filed plans, specifications and estimates of the making and installing of the Fifth Sewer Unit of Klamath Falls, Oregon, including a concrete septic tank 55 feet long by 16 feet wide by 11 feet deep, to be located at intersection of southerly limits of Klamath Falls and the eastern shore of Lake Ewauna, and an outfall sewer running from the intersection of Owens and Shasta Streets westerly to Lake Ewauna, and the Common Council having taken the same under advisement, and finding said plans, specifications and estimates satisfactory:

BE IT HEREBY RESOLVED, that said plans, specifications and estimates for the making and installing of said Fifth Sewer Unit, outfall sewer and rights of way for said septic tank and outfall sewer be, and the same hereby are approved, and

BE IT FURTHER RESOLVED, that the Common Council hereby declares its intention to make and install said Fifth Sewer Unit, including said septic tank and outfall sewer and to acquire said rights of way, in accordance with said plans, specifications and estimates. Said Fifth Sewer Unit shall consist in laying sewer pipes, "y" branches, manholes, lampholes, sump and building and septic tank, of the dimensions and kinds of materials shown upon said plans, specifications and estimates, at a total estimated cost of \$59,755.00; that the total cost of said septic tank and sump estimated at \$9,900.00, the total cost of said outfall sewer heretofore mentioned, estimated at \$5,714.00, the total cost of said rights of way for septic tank and outfall sewer estimated at \$1,200.00, and one-half of the total cost of the remainder of said Fifth Sewer Unit, estimated at \$13,145.00, is to be borne and paid for by the City of Klamath Falls, and the remainder of the cost of said sewer unit estimated at \$21,676.00, to be borne and paid for by the real property specially benefited thereby, and the City of Klamath Falls not to be liable for said amounts above mentioned unless the

people thereof by majority vote shall authorize the issuance of bonds of said city to an amount necessary to pay the said city's portion of the cost of said sewer unit, septic tank, outfall sewer and rights of way as aforesaid.

AND BE IT FURTHER RESOLVED, by the Common Council that the property hereinafter described be, and the same is, hereby declared to be benefited by said sewer unit, to-wit:

All the real property embraced in the boundaries of the following described Fifth Sewer Unit, to-wit:

YOUR HOME CAN NOW HAVE FURNACE HEAT

The Quaker Pipeless Furnace offers clean, even furnace heat to the thousands of homes that heretofore have been forced to rely on inadequate and dirty stoves. Many times the ordinary type of furnace installation is out of the question on account of tearing up the floors and walls for registers and stacks. Again, the basement is too small to admit of the furnace or the home owner has not felt justified in spending the money required for an elaborate pipe installation.

Whatever the reason provided, the home owner has, nevertheless, longed for clean, healthful, even furnace heat.

The Quaker Pipeless Furnace Meets This Demand

The Quaker Pipeless Furnace has no pipes, no bulky cold air returns. Your floors and walls are not torn up, no cellar is too small.

The installation is extremely simple. Anybody can install the Quaker Pipeless Furnace. An abundance of clean, pure, warm air, sent to every room. Simpler than a stove to operate, cleaner, more saving of fuel, and much more healthful. Sends heat to every room in the house. Ventilates as well as heats. Changes and purifies the air in every room.

ROBERTS & HANKS

Addition, all of said streets, avenues, alleys, lots and blocks, and the location, size, kinds of material and method of construction of said Fifth Sewer Unit being more particularly described and set forth in the said plans, specifications and estimates filed by the City Engineer with the Police Judge of said city, October 6th, 1919, reference to which by all persons or parties interested in said sewer unit is hereby directed.

State of Oregon, County of Klamath, City of Klamath Falls, ss. I, A. L. Leavitt, Police Judge of the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a duly enrolled copy of Resolution adopted by the Common Council on the 6th day of October, 1919, declaring its intention to construct the Fifth Unit of Sewers for the City of Klamath Falls, including Septic Tank and Outfall Sewer, and approving the plans, specifications and estimates thereof submitted by the City Engineer.
