

Georgia Birthplace of Martha Bulloch

MOTHER'S HOME AS MEMORIAL TO ROOSEVELT

NEW YORK, Oct. 22.—Leading southerners, including United States senators, have joined in an organized movement to make the birthplace of Theo. Roosevelt's mother, the famous old Bulloch homestead at Roswell, Ga., a permanent Roosevelt memorial.

Both the Georgia senators, Hoke Smith and William J. Harris, as well as former Senator Thos. W. Hardwick, all of whom were active political opponents of the late President, are leaders in the movement.

The Bulloch committee is composed of one member from each southern state and is headed by Dr. Floyd W. McRae of Atlanta. It has the co-operation of C. W. McClure, a Roosevelt Progressive, who is state chairman in Georgia for the Roosevelt Memorial Association, and of E. Y. Clarke, director of the Georgia campaign of the association.

The birthplace of Martha Bulloch, a southern gentlewoman famous for her beauty and charm, who supported the southern cause in the sixties, although the wife of a northerner and living in New York, is a venerable mansion of the southern colonial type in a typical Georgia plantation setting at Roswell, near Atlanta. The old mansion was often visited by Roosevelt.

Roosevelt was always popular in Georgia. His devotion to his southern mother had much to do with this sentiment toward him, but his principles of Americanism made him many admirers among those who did not belong to his party.

OLD TRADEMARK IS ABOLISHED

LONDON, Sept. 24. (By Mail).—The once familiar "Made in Germany" is not appearing on products of German manufacture since the armistice which are finding their way into continental markets. An American salesman who has just returned to London from Italy has several samples of the goods German firms are distributing there. Each bears some symbol but none the three old words. A cutlery firm has its name in a semi-circle at the base of the blades and under it is stamped a lion. The salesman told The Associated Press: "I saw many new German made articles in Italy priced far below what American manufacturers can produce them for. I was surprised to find that the Germans were offering from twelve to eighteen months credit."

GOVERNMENT AID ASKED

FAIRBANKS, Alaska, Aug. 30.—(By Mail).—Numerous Alaskan organizations are exerting every effort to have the government keep open the signal corps wireless stations at Brooks, McGrath and Iditarod this winter. Failure to provide these isolated districts with communication, it is pointed out, might have serious results in case of an epidemic of disease. Mining development would also be retarded.

NOTICE

I am now prepared to furnish Shasta Sand from the Hoey, Can. sand and gravel pit, in any quantities that may be desired by contractors and builders.

AL F. GRAHAM

IT GAVE HIM A GREAT SURPRISE

JONES HAD NO IDEA ANY MEDICINE COULD DO FOR HIM WHAT TANLAC DID.

"Well, sir, the way Tanlac has overcome my troubles and built me up is wonderful," said H. P. Jones, a well known ship fitter in the employ of the United States Government, who lives at 752 East Thirty-Ninth st., Los Angeles, Cal., the other day. "The truth of the matter is," continued Mr. Jones, "I took Tanlac as a last resort, for I had no idea any medicine or treatment would do me any good. I had a general breakdown in health last December, and I have been in mighty bad shape ever since. My stomach went back on me, and everything I ate disagreed with me and I would suffer for hours after meals on account of being all bloated up with gas. I would have the worst sort of cramping pains in the pit of my stomach. My nerves were in such awful condition that I would often go for seventy-two hours without a wink of sleep. In fact, I was almost a nervous wreck. I just kept getting worse all the time, and I finally gave up all hope of ever being well again."

"That was the condition I was in when I heard about Tanlac, and while I had no idea that it would do me any good, I just thought I would make one more effort any way. Well, sir, you can imagine my surprise when I commenced to feel better. I just braced up and took a new lease on life, and stuck to Tanlac until I am now a well, robust man again. I have gained eleven pounds already. My nerves have quieted down and I sleep like a school boy every night. I am getting ready to go back to work again, and that is something I never expected to be able to do again. My appetite is fine, and I can eat just anything I want without suffering afterwards. All my friends and neighbors are as much surprised at my wonderful improvement as I am, and I spend most of my time now, passing the good word along to others who suffer as I did. Tanlac is a blessing to the world, and as long as I live I will praise it for the good it has done me."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorrell by the James Merc. Co.—Adv.

SABLE BELTS

Made of the highest grade of oak center, with a special tanning process making the belt more pliable and adaptable to high speed transmission.

KLAMATH FALLS PROOF Should Convince Every Klamath Falls Reader

The frank statement of a neighbor, telling the merits of a remedy, bids you pause and believe. The same endorsement. By some stranger far away Commands no belief at all. Here's a Klamath Falls case. A Klamath Falls citizen testifies. Read and be convinced. W. H. Bell, Eberlein Ave., says: "I used to have attacks of lumbago so badly that I would fall to the ground. I was unable to make a move, as the pain was so severe. It felt as though my back was broken. My kidneys during these times, were irregular in action. After I began taking Doan's Kidney Pills, I had very little trouble with my kidneys and back."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Waterspouts spin with enormous speed. Their velocity at the sea level has been estimated at six miles a minute.

Solving Utility Problems

Illinois business men's organizations are taking a definite step forward in effecting a business-like settlement of the public service questions affecting their home cities.

They have been brought to the realization of the fact that the business life of their communities would be crippled without efficient transportation, electric, gas, telephone and water service.

They admit that these services cannot be rendered at a loss by public utility companies and that capital for a permanent investment in the upbuilding of their cities will be driven away by unfair actions upon the part of irresponsibles.

A number of Commercial Associations are making exhaustive investigations with a view of reaching agreements equitable to both the public, the companies, the employees and the investors.

California-Oregon Power Company

It was once the custom in Russia that a man was not allowed to attain the dignity of trousers until he married. A bachelor was forced to wear skirts as one who possessed no definite position in society. Moreover, the law prohibited marriage unless the man was able to support a wife in the station to which she was used, so that the skirt also served as an index to income.

CONDOR BELT

The original Red Friction Surface Belt. Guaranteed to give more service for the dollar than any other rubber belt.

WOODSTOCK BACK OF THIS KEYBOARD

Are All The "Worth While" Features Found in Typewriters—Simplified and Improved

The standard typewriter is a machine of business—not of sentiment. It should be judged on its merits alone—not on its name or fame. Take the label off the bottle, take the stencil off the piano—the true connoisseur, the real musician can tell; apply the same test to a typewriter.

The Woodstock. Try six standard keyboard machines, with the eyes blindfolded the Woodstock among them. Let your sense of touch and hearing alone tell you, and then judge. Put the Woodstock to this test, and then let your eyes behold its many other advantages. The Woodstock must be seen must be felt and operated, to be appreciated. Give it that chance—better your typewriter equipment—it stays and grows in favor, because it is built to fit the hand, to fit the mood, to fit the job. Simplified and improved, the Woodstock with its unit system of construction has 80% less parts (30% less trouble). You get your own favorite machine and the best features of the best of others, in the Woodstock.
