

BOOSTERS TALK OF TRADE TRIP

"How shall we make this trip represent the utmost value to Klamath Falls, Ashland, Medford, Grants Pass, Roseburg and Portland?" was the question asked by Nathan Strauss, chairman of the Portland Chamber of Commerce, in a conference with fellow boosters in the observation car, as the Southern Oregon trade excursion headed homeward, according to Marshall N. Dana, special writer for the Portland Journal.

"Klamath Falls has one paramount interest," the writer says the conference decided; "the speedy building of the Strahorn Central Oregon railroad system and this interest includes Lake county."

The trip developed that the five communities visited have a comparative business showing as follows: Medford, \$4,500,000; Ashland, \$4,000,000; Klamath Falls, \$6,500,000; Grants Pass, \$6,000,000, and Roseburg, \$4,700,000. It will be seen that Klamath Falls leads.

Of this business, however, Portland secures this relative percentage: Klamath Falls, 10 per cent, or \$650,000; Medford 40 per cent, or \$1,800,000; Ashland 25 per cent, or \$1,000,000; Grants Pass and Roseburg 90 per cent, or \$5,400,000 and \$4,230,000, respectively.

"Of course," the writer naively says, whether original or quoting the sentiment of the conference is undetermined, "one would not be so crass as to suggest that the basis of increased co-operation from Portland is promise of increased trade from the south, but the excursionists have not been allowed to forget that people like to do business with their friends."

The Journal story is illustrated, one photograph being a scene on the Swan Lake branch of the Strahorn road, with the excursionists grouped about and swarming over the locomotive.

NEVER HEARD OF SUNDAY SCHOOL

Children in Lassen and Modoc counties, California, and in adjoining parts of Nevada have never heard of Sunday school and do not know what it is, the Rev. Ace Bridger, missionary for that district, told the Presbyterian synod, which closed its meeting in San Francisco recently.

Up in Lassen and the adjacent counties far from railroads, Rev. Del Marte, who has charge of the mission work there, told of walking 24 miles a day in pursuance of his labors among the people.

The synod passed a resolution of thanks to these men, commending them for their diligence and fidelity.

The Italian child is never allowed to rub its eyes. If it bursts into tears it is not repressed, but allowed to have the cry out. This, it is claimed, beautifies the eyes and makes them clear, while rubbing the eyes injures them in many ways.

NO PROFITEERING BY NOME STORES

NOME, Alaska, Aug. 29. (By Mail)—No evidences of commercial profiteering among dealers of Nome were found, according to the report of the citizens' committee named to make an investigation. High prices of necessities of life here, it was said, were due to high prices in the state combined with high freight rates to Nome.

Of interest in connection with prices of necessary commodities is the cost of coal. In 1902 a good grade of coal sold in Nome for \$14. Several years later the price was \$17. Now a grade of coal said to be inferior sells at \$35 in the yard. Transportation rates on coal during that interim have risen from \$6 per ton to \$20 on carload lots or \$23 on less than carload lots.

IRRIGATION TO BE THEME OF CONGRESS

BOISE, Idaho, Oct. 22.—An irrigation congress of delegates from 12 western states has been called by Governor D. W. Davis after conference with governors of other states, to meet Friday and Saturday, November 21 and 22, at Salt Lake. The congress is expected to develop into a formal amalgamation of western states to promote the development of unused water resources and to present to congress the west's peculiar irrigation needs in the way of national legislation.

Governors of five states have expressed a keen desire to participate in the congress.

States which will be represented are Idaho, Oregon, Arizona, California, Colorado, Montana, Nevada, New Mexico, Utah, Washington, Wyoming and Nebraska.

It is probable that each state will be represented by ten delegates.

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

OLYMPIC FLOUR

The Quality Within—Good Bread

Success in baking need be no accident. Good Bread is the result of a good recipe and good flour. OLYMPIC Flour has uniform quality; every cupful is the same. Full, deep, crusty loaves, smooth grained, tender and tasty, are usual where it is regularly used.

Say "OLYMPIC" to your nearest grocer, and ask him to mail you each month the beautifully illustrated recipes for insertion in your cook book or recipe file. These tested recipes are free.

Try this tested recipe for good bread:

Short Method
 3 Loaves, or 2 Loaves and 12 Biscuits
 1 1/2 Pints tepid water 1 Tablespoon salt (level)
 2 1/2 Tablespoons sugar (level) 2 Cakes compressed yeast
 1 Tablespoon shortening
 1 1/2 cups OLYMPIC Flour, well sifted, enough to make a smooth dough, about 1 1/2 quarts.
Method: Dissolve yeast in portion of water, salt and sugar in the remainder. Put together, then add flour enough to make a smooth batter. Beat well until free from lumps then add remainder of flour sufficient to make a smooth dough. Add melted lard or oil. Knead well and put in greased bowl to rise until double in bulk. Knead down again and allow to rise to about double in bulk. Mold into loaves, allow to rise until light, bake in moderate oven.

RUSSIAN LEPERS RECEIVE TREAT

KISHINEV, Bessarabia, Sept. 3, vna Paris, Sept. 22.—The lepers of Broasa saw their first Americans, smoked their first American cigars and received their first American shoes when two Red Cross men visited their ancient colony recently Broasa in a village west of Odessa which was formerly an important Russian medical center for the care of leprosy.

Major Charles E. Spratt of New York City, and Major Lipnel D. Hargis of San Francisco, brought with them to Broasa a supply of food, clothing and medicine. The cry of "Unclean-Unclean!" which met them at the gate did not deter the Americans, who introduced themselves to the aged nuns in attendance. In a few minutes began the distribution of the American supplies from a Red Cross automobile.

With nothing but their eyes showing through slits in their all-enveloping gowns, the lepers watched the proceedings at a respectful distance. Surgical dressings, antiseptics, bandages, American canned goods, several dozen shirts, pajamas and suits of underclothing with an assort-

ment of shoes were spread before them.

"Which are the men?" Major Spratt asked the Mother Superior. A group of the shrouded figures moved forward.

"Do you men smoke?" he asked through an interpreter. An eager chorus came from beneath the hoods.

"Then here you are! Light up!" And Major Spratt passed around a box of Havanas of his own stock.

"And here's a box of Bucharest candy for the women," added Major Hargis.

As the Americans left the colony, the inmates ran after them crying out their thanks.

NO RACE SUICIDE

SACRAMENTO, Cal., Oct. 22.—Dr. G. C. Simmons, city commissioner of public health, scratched his head and put on his glasses for a second look when he received the copy of the city's birth statistics for September. Of the 134 births in Sacramento during the month, six were of twins. Ordinarily, says Dr. Simmons, one pair of twins to about 250 births is the average.

All Russians, both men and women, have a weakness for beautiful footwear, and the result is that there are more showy boots worn in Russia than anywhere else.

London consumes about 15,000,000 tons of coal yearly.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, stomach, liver and bowels the previous sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour

fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

MOVE TO PROTECT CHORUS GIRLS

LONDON, Sept. 14.—(By Mail).—A movement is being inaugurated in London to bring about the compelled licensing of managers of British musical comedy or burlesque theatrical companies which travel with choruses of more than five girls. Sponsors of the campaign are authorities for statements that girl members of many of these burlesque troupes are being victimized by unscrupulous managers who pay the girls less than \$5 a week.
