

# COAL AND STEEL MERGER MADE

LONDON, Oct. 23.—(By The Associated Press).—D. R. Llewellyn, a young Welsh mining engineer, is the talk of London today because he is completing the most important combination of coal mines and steel mills since the beginning of the war. Its capital will be \$30,000,000, and it will control coal production of approximately 5,000,000 tons a year.

"Coal is our basic industry," he says. "It is more valuable than gold. I am an optimist. Organization, modern machinery, and labor saving devices in the coal industry will assure large dividends today as at any time."

"I think that unless we can get the miners to a 48 hour week we are going to have difficulty meeting our export demands. Unless the hours are increased we shall produce only enough for our own requirements."

"The argument that a man can be speeded to produce the same quantity in a shorter time is rubbish. When the miner was supposed to be working eight hours a day he was really only working six."

## COMMITTEE VOTES FOR RESERVATIONS

WASHINGTON, Oct. 23.—The Senate Foreign Relations committee today adopted four of the revised reservations from the peace treaty as outlined by the Paris conference, with administration leaders voting solidly against adoption. The committee also adopted a preamble to the reservations, providing that the treaty should not become effective until at least three of the principal allied powers agreed to the Senate reservations.

On most roll calls the vote was 11 to 6, all Republican members and Senator Shields of Tennessee, Democrat, voting in the affirmative. Reservations relating to Article 10 and several domestic questions were withdrawn.

### BOOSTING CIRCULATION

The proprietors of a Simese newspaper distributed handbills containing the following notice:

"The news of English we tell the latest. Writ in perfect style and most easiest. Do a murder get commit, we hear of and tell it. Do a mighty chief die, we publish it, and in borders of somber. Staff has each one been colled, and write like the Kipling and the Dickens. We circle every town and extortionate not for advertisements. Buy it! Buy it! Tell each of you its greatness for good. Ready on Friday. Number first."

## GERMANS NEED YANKEE COTTON

BERLIN, Sept. 23. (By The Associated Press).—American cotton must be bought by the Germans at any cost in the opinion of German textile experts, though they prefer when they think of the price. These experts estimate that American cotton will cost in Germany a dollar and one-half marks for the German pound which is somewhat heavier than the American. The price is in part owing to the low exchange value of the German mark which before the war was normally worth about 24 cents.

Some little American cotton has been landed at Bremen, especially since it has become possible to send orders by wireless and thus avoid delay of five days or more in cabling by the way of England. Experts say the Americans are anxious to do business directly with Germany and to avoid any interference by the British but the German regulations limiting bills of exchange is a serious handicap for it prevents the importation of much cotton from America through fear of losses by exchange.

Nevertheless, the trade writers point out that English factories already are producing cotton goods in the occupied district of Germany and they agree that if Germany is not to be overwhelmed by expensive English goods which thus would obtain an opening foothold in German markets, Germany must have American cotton no matter what it has to pay.

Kansas Republicans are discussing a proposal to send a woman as one of the four delegates-at-large to the national convention next year.

## EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney diseases.
