BRITISH SOLDIERS PRODUCED CROPS

LONDON, Sept. 30.—(By Mail). The British army was doing something other than fight in the last year of the war, according to the agricultural committee report made public today. It cultivated 6,658 acres of land in the country occupied by the home forces alone, and made a profit of about \$50 an acre.

In France thousands of acres were cultivated by the soldiers, and vegetables worth no less than \$2,500,000 were produced.

By irrigation, the army in Mesopotamia became self-supporting so far as vegetables were concerned, and the grain crop was valued at \$15,000,000.

The Saloniki army also was busy cultivating the soil back of its lines and, in addition to harvesting crops worth some \$300,000, saved 52,000 tons of ships which would have otherwise been used to carry supplies to that far-off front.

RUSSIANS RECEIVE RED CROSS GOODS

EKATERINDOR, Russia, Sept. 1.—(By Courier to Paris, Sept. 18.)

—The presidents of the three Cossack states of Terek, Kuban and the Don gave a dinner to Americans who recently brought into the Caucasus three trainloads of 103 freight cars in all of the American goods consigned to the Red Cross. Each of the three presidents referred to Russia's ambition to become a federation of states patterned after the American union. "The United States of Russia," was a favorite toast.

The supplies are for the hospitals and asylums to the three Cossack states and for the volunteer army.

The territory of the Cossacks, particularly the remote regions among the mountains, have been shut off from the world market for the past three years by the Turks on one side and the Bolsheviks on the other.

EXTRACTED LEAD, FOOLED SURGEON

BREST, Oct. 24.—A few days ago, according to a story in the French papers, a street row occurred here in which some American soldiers took part, one of whom was hit by a revolver bullet. The hospital surgeon took a long time probing the wound; but the American stoically bore the pain.

"What are you doing anyway?" he asked finally.

"Looking for the bullet," said the doctor.

"Why didn't you say so? I've got it in my pocket. I took it out myself," was the retort.

HOW GOOD? RATHER THAN HOW CHEAP?

In these days when shoddy goods bring almost the prices of those worth while, it pays to be careful buyers. Now, take our pianos, for instance; they were all chosen on account of their tone quality, reliability and value, for while the average family buys seven automobiles in a lifetime they generally purchase but one piano.

The idea that anything is good enough to learn upon, is a thing of the past, and today the beginner's ear is cultivated by the best piano tone that the parents can supply.

We have sold over twice as many plans this Fall as usual, but still have a good stock to select from. You may purchase for cash or terms, so why not look them over anyhow?
