

PRESIDENT ASKS SUPPORT OF RED CROSS CAMPAIGN

Annual Roll Call Opens November 2 and Closes November 11, Commemorating Armistice—Nation's Head Calls Patriots to Aid

WASHINGTON, D. C., Oct. 27.—President Wilson has addressed the following letter to the people of the country appealing for support of the third Red Cross Roll Call, which is to be held from November 2 to 11:

"As President of the United States and as president of the American Red Cross, I recommend and urge a generous response to the third Red Cross Roll Call, which opens November 2, with the observance of Red Cross Sunday, and appropriately closes on November 11, the first anniversary of the signing of the armistice.

"Twenty million adults joined the Red Cross during the war, prompted by a patriotic desire to render service to their country and to the cause for which the United States was engaged in war. Our patriotism should stand the test of peace as well as the test of war, and it is an intelligently patriotic program which the Red Cross proposes, a continuance of service to our soldiers and sailors who look to it for many things, and a transference to the problems of peace at home of the experience and methods which it acquired during the war.

"It is on membership more than money contributions that the stress of the present campaign is laid, for the Red Cross seeks to associate people in welfare work throughout the land, especially in those communities where neither official nor unofficial provision has been made for adequate public health and social service.

"It is in the spirit of democracy that the people should undertake their own welfare activities, and the National Red Cross wisely intends to exert upon community action a stimulating and co-ordinating influence and to place the energies of the organization behind all sound public health and welfare agencies.

"The American Red Cross does not propose indefinite prolongation of the relief work abroad, a policy which would lay unjust burden upon our own people and tend to undermine the self-reliance of the people relieved, but there is a necessary work of completion to be performed before the American Red Cross can honorably withdraw from Europe. The Congress of the United States has imposed upon the Red Cross a continuing responsibility abroad by authorizing the secretary of war to transfer to the American Red Cross such surplus army medical supplies and supplementary dietary food-

stuffs now in Europe as shall not be required by the army, to be used by the Red Cross to relieve the distress which continues in certain countries of Europe as a result of the war.

"To finance these operations, to conclude work which was begun during the war, and to carry out some comparatively inexpensive constructive plans for assisting peoples in Eastern Europe to develop their own welfare organizations, the American Red Cross requires, in addition to membership fees, a sum of money small in comparison with gifts poured into its treasury by our generous people during the war.

"Both the greater enduring domestic program and the lesser temporary foreign program of the Red Cross deserve enthusiastic support, and I venture to hope that its peace-time membership will exceed rather than fall below its impressive war membership.

"WOODROW WILSON."

AGED MAN FOUND DEAD IN FOREST

The body of Jake May, aged 58, who was found dead in the woods near the summit of Topsy grade last Friday, was shipped to San Francisco for burial this morning by the Whitlock Undertaking parlors. The decedent has a sister in San Francisco who has arranged for the funeral there.

May was employed by a homesteader named White, who lives near the grade summit. Last Tuesday or Wednesday he told his employer he was going down the canyon to fish. When he failed to return some apprehension was felt and a search instituted. The body was found after two days.

Coroner Whitlock conducted an examination which resulted in finding death due to natural causes. It is believed that in climbing up steep slopes the aged man became overheated and drank too freely of cold water, bringing about congestion that resulted in death.

BULLETIN

WASHINGTON, D. C., Oct. 27.—President Wilson this afternoon vetoed the prohibition enforcement bill.

The President returned the measure to the house without signing it. Officials believe that unless congress repeals the bill over the President's veto there will be a "wet spell" before prohibition is effective under the constitutional amendment.

Note—The bill was designed to keep in force the war-time prohibition order until the national prohibition amendment becomes effective January 20. With the war-time order nullified, liquor sellers will have the interim before the amendment becomes effective to dispose of the stock on hand.

Joslin, who was here on a visit at the time of Mrs. Fleet's death.

Mrs. Joslin and Mrs. Fleet were childhood companions. Neither had any sister, and early in their lives adopted each other as sisters. This affection continued throughout their lives and it was fitting that Mrs. Joslin should be at the bedside of the one she loved so dearly when death came.

The purpose of the society is to promote good singing and to strive to bring about a high standard of social entertainment, looking particularly towards the dance question of the city. For this purpose they have tentatively engaged the White Pelican hotel, where they intend to have dances of a high class every fortnight during the winter season.

ASKS RECEIVER FOR I. O. O. F. ASS'N

E. M. Chilcote, member of the I. O. O. F. Hall association, has filed a petition in the circuit court, asking the appointment of a receiver for the association, alleging that, although the association is solvent and under proper management able to clear up its indebtedness, its solvency is seriously threatened by present conditions.

He alleges that when the Klamath County bank was merged with the First National in 1912, no successor was assigned to the trusteeship of the association of which the Klamath County bank was the original trustee. He asks the appointment of A. M. Collier as trustee under the original deed of trust.

The serious menace to solvency of the association, says plaintiff, is a delinquent tax certificate for \$8,600 held by R. S. Moore, forecloseable at any time. This under proper administration can be paid, he says, as the association now has a net annual income of \$1,000, which could be increased if affairs were carefully handled by a competent receiver.

The suit is directed at the hall association and individual members in the general interest of all, the plaintiff avers. He is a member of the association. R. E. Grosbeck is his attorney.

MAYOR PROCLAIMS FIRE PREVENTION DAY NOVEMBER 7

In accordance with the proclamation of the Governor of the State of Oregon, the Common Council of the City of Klamath Falls has designated Friday, November 7, as Patriotic Fire Prevention and Clean-up Day. In view of the fact that our glorious country is so far behind other civilized countries in the important matter of fire prevention, it should be a day of great importance to us, a day set apart for serious consideration of the tremendous fire waste, and the adoption of adequate and permanent means of prevention.

The French people have said of us Americans, that we are mighty builders and mighty burpers," and so we are. Not intentionally or criminally, but negligently and carelessly. This, indeed, is an age of great achievement and economic reforms, and foremost is the immense saving of property and life that can be accomplished by the prevention of fire. Reforms come from a change of mind, and a change of mind can only come by constant effort. Therefore, think fire prevention, talk fire prevention, and practice fire prevention, not only on November 7th, but on through the year until next fire prevention day, and then start over again.

Never relax your caution against the ever present danger of fire on your own premises. In that way you will not only make it a habit with yourself, but will influence others, and we will all reap the benefit.

Make it a point on Fire Prevention and Clean-up Day to critically examine your home, store, office, shop or factory. Try to discover anything or any condition that might possibly cause a fire, and, above all, clean up.

If you find any inflammable material, remove it if possible, or make it safe. You will be doing yourself a great favor, and then don't stop—keep it that way.

In America we destroy by fire five times as much per capita as do the people of Europe. It should not be so. We surpass in every other way—we should in this.

The remedy rests with each and everyone of us. Let us start now.

Therefore, by virtue of the authority in me vested, I, I. R. Struble, Mayor of Klamath Falls, Oregon, do hereby proclaim Friday, November 7, 1919, to be Patriotic Fire Prevention and Clean-up Day.

Dated this 27th day of October, 1919.

I. R. STRUBLE, Mayor.

TRUE AMERICANS WILL GATHER TO HONOR PATRIOT

Men, Women and Children Urged to Lay Aside All Lighter Duties and Attend Roosevelt Meeting at the Opera House Tonight

Tonight at the opera house all good Americans will gather to honor the memory of a man, with whom in life they may not always have agreed but the sincerity of whose convictions no honest man ever held in doubt—Theodore Roosevelt.

Today, October 27, is the 61st anniversary of the birth of the great American patriot and, under the auspices of the Roosevelt Memorial association, meetings will be held today in every part of the United States in commemoration of the life work of the typical American.

"I earnestly beseech every true and loyal man, woman and child, regardless of political affiliations, to lay aside all personal affairs and joint this evening at 8 o'clock in the meeting at the opera house," said C. W. Eberlein, chairman of the county Roosevelt Memorial campaign, this morning.

"Democrats, Republicans, Prohibitionists, Socialists, whatever party label they may bear, nevertheless, meet tonight on a common ground, a universal meeting place hallowed and set aside by the toil of a lifetime devoted to the advancement of American ideals and the promotion of the common good.

"Roosevelt, above all things, was a broad-minded patriot, working always in the interests of a united America. Let all consider this well before letting petty party or personal considerations keep them from co-operating to do him honor.

"Democratic statesmen of the highest character are on the national memorial committee, working as hard, or harder, than their colleagues of other party convictions, to make the campaign a success. Loyalty to American ideals and institutions is the only qualification by which worthiness to join in the memorial movement is tested."

Dr. E. D. Johnson will preside at tonight's meeting. Father Marshall, R. C. Grosbeck and perhaps another or two speakers will speak of their conceptions of Roosevelt and the mission of his life.

The women's branch of the memorial movement, working along the women and children, will raise its quota, declared Chairman Eberlein this morning. The women of Klamath county were asked to contribute a minimum of \$200 to the national fund to create a perpetual memorial of Colonel Roosevelt's mother's birthplace in Georgia.

The men are still lagging, reports the chairman. There are no full reports available from outlying districts, but interest drags in this city and prospects for raising the pitance required, only \$450, are none too bright.

SACRAMENTO, Cal., Oct. 27.—Free milk will be distributed this winter to Sacramento families with children under 2 years of age. Arrangements for the distribution are being made by G. C. Hence, we have arranged to distribute milk free of charge."
