WOMAN'S CLUB OF CALIFORNIA AGAINST JAPS

AUBURN, Cal., Oct. 30.—Declaring for an educational campaign by the women's clubs for the exclusion of Japanese and against the owning or leasing of land by the subjects of the mikado, the Placer County Federation adopted strong resolutions at a meeting over which Mrs. W. O. March of Chico, president of the northern district of California Federation of Women's clubs, presided.

The following resolutions were unanimously adopted by the 150 or more delegates representing clubs in Placer county:

"Whereas, Recent investigation has disclosed the fact that more than 1400 acres of the choicest land, with an assessed valuation of \$61,150, is owned by Japanese in Placer county; and

"Whereas, Within the past week sales of ranches have been reported which confirm our belief that the Japanese are making every effort to secure all the land possible before any legislation preventing such holdings shall be enacted; and

"Whereas, We believe the land rights of this county should be vested in American citizens and their heirs and assigns forever; therefore, be it

"Resolved, That the Placer County Federation of Women's Clubs protests the action of any American citizen selling his land to orientals; and be it further

"Resolved, That a vigorous educational campaign be carried on by all the clubs in this county in regard to the preservation of all California for Americans, and that we offer our moral and financial support as far as possible to the Asiatic Exclusion league recently organized in Sacramento.

"Whereas, The question of oriental immigration is of serious economic, moral and social importance today in California, having particular significance for Placer county; and

"Whereas, The women of Placer

county are deeply and vitally interested in the preservation of American institutions and ideals; and

"Whereas, The oriental will always remain in our midst an alien element, unassimilated and unassimilable; and

"Whereas, A movement has been inaugurated throughout the west dealing with a solution of the problems through federal legislation covering the following points, namely:

"1. Cancellation of the 'Gentlemen's Agreement.'

"2. Exclusion of 'picture brides.'

"3. Rigorous exclusion of Japanese immigrants.

"4. Confirmation and legislation of the policy that Asiatics shall be forever barred from American citizenship.

"5. Amendment to Section 1, Article XXV, of the federal constitution providing that no child born in the United States of foreign parents shall be considered an American citizen unless both parents are of a race eligible to American citizenship; therefore, be it

"Resolved, By the Placer County Federation of Women's Clubs, that our senators and representatives be asked to use their best and utmost endeavor to accomplish the desired legislation."

JUAREZ LOSING OLDEN THRILLS

JUAREZ, Mex., Oct. 30.—"Is it safe to go over to Juarez?" visitors in El Paso frequently ask.

The person who knows the border is likely to reply:

"My dear sig, Juarez is just as safe as El Paso—in fact, there are spots in lower El Paso that have more possibility of excitement than drowsy little old Juarez."

There must be attached, however, one condition to this general statement. The condition is that the stranger in Juarez must behave himself. If he thinks that Juarez is a place where one may tarry long with the regular, intoxicating Mexican drink, he may learn differently behind the bars of the city jail. He may learn, too, that the favorite kind of hard labor imposed upon city prisoners is that of grave digging, but he need not fear that he will be called upon to occupy one of his graves, provided his offense is not more serious than "borachera"—drunkenness.

There is a tendency among foreigner prisoners of this kind to try to make their cases international affairs. But experience has shown that they might as well resign themselves to serve their ten or thirty days with as good grace as they can summon.

The American tourist who expects to be an object of interest or curiosity in Juarez is likely to be disappointed. While he minds his own business he need not fear that the Juarez folk will not mind theirs.

There are no longer any thrills left in Juarez. No "bad men" are running loose—only a few beggars, whose pitiful stock in trade is a recital of the woes they have suffered during the eight years of revolution. Generally speaking, however, Juarez, like the rest of Mexico, prefers to hide her wounds. Moving

LAST YEAR'S DAILY PAPER

Have you ever stopped to think that possibly your old records that you play to entertain your friends are about as interesting to them as a last year's daily paper, but that they are too polite to tell you so?

A record collection is like a bank account—if you keep using it without adding to it, it becomes sick.

Earl Shepherd's is the logical place to go for suggestions that will aid you in rounding out your present collection of Victor Records.

VAST SUM FOR AERIAL SERVICE

LONDON, Sept. 24.—(By the Associated Press).—The proposed Liverpool-Australia and Liverpool-New York air service will be an enormous undertaking. The problem of supplying the necessary dirigible airships is but one of the items to be considered. They cost about \$3,750,000 each to construct. At least six of these huge craft will be necessary to maintain these two services with any degree of regularity.

There are also to be considered the problems of landing grounds and of mooring posts, the intention of the Great Northern Aerial syndicate being that aerodromes will be provided at the more important stations while mooring posts will serve as second-class stops of halts. Aerodromes for dirigibles are required only at every 2000 miles, and it is now possible for an airship to be moored to or released from a mooring tower in any wind up to 60 miles an hour; yet the total financial backing considered necessary for such an undertaking is in the neighborhood of \$10,000,000.

The mooring out-station for airships which is in the form of a high tower enclosing an elevator shaft by which passengers and cargo will be taken up and down from the ground is over 150 feet high. With a revolving head the airship can be rigidly attached to this tower by the nose, will ride clear of the ground in all weathers and be able to swing with the direction of the wind.

Each of these towers will be provided with a hauling-in winch and a rope by which the airship will be hauled up to the mooring post; also a supply base of hydrogen, fuel, and water ballast.

"OLE OLSON" NOT A PROBLEM PLAY

When "Ole Olson" comes to the Opera House Sunday night, those who are not familiar with the play will rejoice to learn that it is neither a problem or a sex play of which there have been so many the last few seasons. "Ole Olson" is a comedy drama pure and simple filled with funny situations and with occasional heart throbs for the big hearted Swede, whose love of the right leads him to take a hand against perpetration injustice.

Mr. Dan Williams who plays 'Ole' is an actor of ability and is well known on the Coast, having played here for several seasons with stock and repertoire companies, but is best known as the duly authorized successor to Mr. Ben Hendricks who created the character of 'Ole' the Swede in "Ole Olson."

Mr. Williams is supported by a capable cast of artists well fitted to their respective parts and the play is guaranteed to please.

This is not a moving picture, but a real play by real live people, and there will be special features in vaudeville between the acts.
