FAIR PLAY Solving Utility Problems Illinois business men's organizations are taking a definite step forward in effecting a business-like settlement of the public service questions affecting their home cities. They have been brought to the realization of the fact that the business life of their communities would be crippled without efficient transportation, electric, gas, telephone and water service. They admit that these services cannot be rendered at a loss by public utility companies and that capital for a permanent investment in the upbuilding of their cities will be driven away by unfair actions upon the part of irresponsibles. A number of Commercial Associations are making exhaustive investigations with a view of reaching agreements equitable to both the public, the companies, the employees and the investors.
