GERMANY FORMS POLICE FORCE

WITH THE AMERICANS IN GERMANY, Oct. 3.—(By the Associated Press).—The German government is using statistics on the increase of crime in Germany since the end of the war as the basis and excuse for formation of numerous units of security police, as they are called. They are to have a purely military interior organization, to be cloaked outwardly, however, as police and intrusted with police powers.

The intentions of the government, as voiced in the German newspapers, is to have these organizations as instruments of the police chiefs of the various cities without any connection with the military authorities. It appears, however, according to the information in the hands of the Americans, that these units are to be housed in barracks in order to be available in case of any concerted trouble. Companies are to be formed, each of 100 men, with a leader and a number of officers for each company.

While these units may perform police duties, they are nevertheless, according to reports reaching American headquarters, to be well trained bodies of men to be incorporated into the national army at a moment's notice.

The security police is to be the armed military constabulary for the larger towns, as differentiated from the voluntary guards for the smaller towns, the civil gendarmierie in the country districts, and the civil police in the towns.

Figures quoted in the newspapers recently show 14,000 crimes in Germany in the period from January 1 to June 30 last, as against 10,000 in the whole of 1913. Officials say that, in the event of serious outbreaks this winter, the present civil police cannot be so expanded as to handle the situation.

Up to this time Breslau has had an allowance of 675 policemen to which 170 will be added, 170 recently authorized by the local ministry. American officers say this increase is in violation of article 162 of the peace treaty, which provides that the increase in the number of gendarmes, employees or officials of the local or municipal police will be allowed only in proportion to the increase of population since 1913 in the districts in which they are employed.

FRENCH OFFICIALS HAVE MANY CARS

PARIS, Oct. 1. (By Mail).—Deputy Emmanuel Brousse recently criticized in the Chamber of Deputies what he termed "the orgy of gasoline" indulged in by various Ministers. He gives a table of the number of automobiles used by each Minister, showing that some Ministers have four or five cars.

Mr. Brousse fails to make any mention of Premier Clemenceau's car. To any one familiar with the battered, unpainted, soiled military car that the Premier uses, it is easy to understand why.

MEXICAN CRIME

MEXICO CITY, Oct. 7. (By Mail).—An epidemic of thieving, robbery and murders in Mexico City with which the local police apparently were unable to cope has caused the federal government to establish patrols of soldiers over the city from 10 p. m. until 6 a. m. Infractions of the law immediately began to decrease.

IS NOW ABLE TO EAT BREAKFAST

FOR FIRST TIME IN TWO YEARS GIVENS IS ABLE TO DIGEST ANY KIND OF FOOD.

"If anybody had told me that there was any medicine that would help me as Tanlac has, I would have laughed at them," said H. M. Givens, who lives at Anaheim, Cal., while in Los Angeles the other day.

Mr. Givens is one of the most prominent men in his section, and has been very successful in operating a large orange grove which he owns.

Continuing, he said, "this medicine is worth its weight in gold, and if the price of it was twenty five dollars a bottle I would buy it just the same. I began to suffer from stomach trouble about three years ago, and although I had treatment from the best specialists in the country, and took different kinds of medicine, my condition gradually grew worse all the time. I had reached the point where I could retain but little of what I ate and often had bad cramping spells. Then my nerves went back on me, and such a thing as a good night's sleep was out of the question with me. I finally had to give up trying to attend to any business, and came to Los Angeles thinking some of the specialists here might help me. I had my stomach washed out numbers of times, but it didn't do me any good at all, and I just got so weak and run down that I was hardly able to go to all.

"One night about three or four weeks ago while looking over the paper, I noticed a statement about Tanlac that interested me very much, and after reading this statement, I asked my wife to order me a bottle of this medicine. Well, I commenced taking Tanlac that very

night, and sir, by the time I had finished that first bottle I knew that I had at last found a medicine that would overcome my troubles and restore me to health. My wife could hardly believe me when I told her that I was hungry and wanted something substantial to eat, and her surprise was even greater when she saw that I didn't show any signs of suffering afterwards. I just stuck to Tanlac, and continued to improve until I am now feeling like a different man altogether. Why, I actually sat down and ate a big steak yesterday, and that is something I haven't dared do for more than two years. I am getting stronger every day, and gaining in weight right along. My appetite is getting better all the time, and I just eat anything that comes to hand, and what I eat doesn't hurt me at all. Oh—I tell you it's wonderful, and my wife and I are so happy over my great improvement that we have sent the good news broadcast to all our friends and relatives. Tanlac is one medicine that will do all they say it will do, and I am more than glad to recommend it to everybody."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lodi by the James Merc., Co.—Adv.

Better Let Us Patch 'Em Up

This is the time to look over your tires with the idea of making them last through the winter. Of course, if you must have new tires, Diamonds are the only ones to buy at this time of the year—or at any other time, so far as that goes—but the idea we wish to convey is that we can make the old ones last through the bad weather, and save you money on your tire bill by repairing the worn ones. Bring them in, and if they are worth repairing we will tell you what it will cost—if they are not worth repairing, we will tell you that, just as readily. We can't make a new tire out of one that is worn out, but we can take a damaged tire and repair it so you will get many more miles out of it before it goes to the junk pile.

The Red Cross service flag, indicating membership in the great organization of mercy, will appear again in November in every window in the Northwest. In every farmhouse, in every city home, in the cabins of homesteaders, in the huts of fishermen in far Alaska, will appear this symbol of affiliation with the one great organization that knows no politics, no distinction of creed, no high, no low—but unites the hearts of all for service to fellow-men. The window service flag this year has one more stripe than last year, indicating three years of membership in the Red Cross.

In the sixteenth century there was a curious law in England whereby street peddlers were forbidden to sell plums and apples, for the reason that servants and apprentices were unable to resist the sight of them, and were constantly tempted to steal their employers' money in order to enjoy the costly delicacies.

BIGGEST OPAL IS WORTH QUARTER MILLION

The world's largest opal was discovered in wartime but unannounced for various reasons. It is valued at over \$250,000. It weighs an ounce over a pound, is almost an ounce long by three and a quarter inches wide and an inch and a quarter thick. The jewel is flawless. Photo shows Miss Doris Kenyon holding the opal in the office of the secretary of interior at Washington, D. C.
