What is the best watch made?

That is a personal question. A watch that is best for Jim Hawkins may not be the best for Sam Brown. You ought to have the personal advice of an expert when you buy a watch. You are much more likely to get a satisfactory time piece if you do. You get that advice here. We realize that having you satisfied is worth more to us than the profit on the watch. We want to fix you up so satisfactorily that you will tell your friends that Upp's is the best place to go to buy a watch. Naturally that means that our prices as well as our watches and service must be satisfactory.
