GRAVE OF "SOAPY" SMITH IS GONE

SKAGWAY, Alaska, Oct. 15. (By Mail.)—"Soapy" Smith's grave, for years a spot pointed out to Skagway's visitors, was washed away by recent high waters.

"Soapy" Smith, known as the worst of the "bad men" of the days of the Alaska gold stampede, became notorious throughout the north when he and his associates "bleeced" scores of miners who passed through Skagway on their way from the interior diggings to their homes. Smith was killed during a battle with officers.

Letters From The People

AMERICAN JOBS FOR AMERICANS

Editor Herald—

Noting in your issue of the 5th inst. that the city council has ruled that only Americans shall remain upon the city payroll and all aliens on it have been discharged. Americanism is to be the first test hereafter, the aldermen announce, of fitness to serve the city.

If this was followed throughout the county and followed by the county officials, then passed up to the state officials and by them adopted, then advanced to the government, we would begin to look like we were getting to believe in the old Puritan doctrine of "America for Americans," and perhaps eliminate about ninety per cent of the disturbances in the way of labor strikes.

Our late experience in the World's War has, (more than once) shown us the necessity of this action as a great many of our secrets were transmitted to Germany by alien spies who were in the employ of our government simply because of their efficiency or education having fitted them for those particular places and our true blood Americans who were equally well qualified educationally were sent to the front line trenches to stand the brunt of the deception that these same (adopted traitors) were using to fight us with and "biting the hand that was feeding them."

Let's move America first—Then America for Americans.

A Reader. Note—Owing to the date line having been deleted by an error in printing, the correspondent arrived at the natural but mistaken conclusion that the action against aliens had been taken by the Klamath Falls council instead of the aldermen of an eastern city. However, his letter shows such an intelligent appreciation of the fundamental needs of domestic political readjustment that it is printed in hope that it may stimulate others to think along these lines.

Although Liberia was founded and colonized by Americans, the use of British money weights and measures has always prevailed in the negro republic.

Slain by Mexicans After Starving Nineteen Days

Lieut. Cecil H. Connolly Lieut. Frederick H. Waterhouse

After weeks of search the fate of two United States aviators who were patrolling the Mexican border was learned. Lieutenant Cecil H. Connolly, of San Diego, Cal., and Frederick B. Waterhouse, of Weiser, Idaho, lost their way on a flight from Yuma, Arizona, to San Diego, and landed in Lower California. For 19 days they had only the water in the radiator of their airplane to drink and little or no food. Then they were killed by Mexican fishermen. Their bodies were recovered.

CAN CLERGY STRIKE?

LONDON, Nov. 5.—Commenting on the proposed British union of clergymen, one curate writes to a London newspaper: "I suppose we parsons are among the worst paid of all classes. But what would be the good of our striking? Who would care? The idea of a strike is clean contrary to our profession as Christian ministers."

Why Buy Just For Daughter?

In purchasing a straight piano you probably expect your daughter to be about the only one to use it, but did you ever stop to think that if yours was a Gulbransen player piano that father, mother and all the family friends would reap daily pleasure? The Gulbransen player puts pep into your home life, cultivates a love of good music and plays accompaniments for your singing. The Gulbransen is the only Standard Player in America that is Nationally Advertised and Nationally Priced. (No freights added).

Boys' Army Shoes Just Like the Regular Army Shoe

COMPLETE LINE OF RUBBERS AND OVERSHOES

Union Store

Bradley's Shoe Store

727 Main Street

You can say that, if you wear "American Boy" Shoes, built on the same last and in the same way as regular army shoes. There's the true army look and true army sturdiness in these shoes built especially for you future "Yanks." "American Boy" Shoes are built for boys from rugged leather in a style that marks the manly boy. The same "honest-to-goodness" stock that stands up under the long hike and soggy trench goes into them, under the same high standards of workmanship required for the real army shoes. Not every boy will be able to wear a pair of these regular "he" shoes. We can't get enough of them for that. But you can wear them if you'll ask Dad to get them for you right away. And they'll save him money, too, because they'll last so much longer.
