

## Thrift and Little Things.

Who are the men and women that become masters over great things? They are those who first of all become masters over little things.

Dollar bills and silver dimes are only little things, so little that they often trickle away in every direction—and yet they have formed the solid foundation for many a comfortable income through the following slogan:

## This Test Reveals a Phonograph's Tone

ASK to have piano records played—the most difficult test of sound reproduction. The Brunswick has proved its merits under this ultimate trial, for it reproduces piano tones faithfully.

On The Brunswick, piano records retain their original quality. They cannot be confused with the harp or zither. This is due to the Brunswick Method of Reproduction.

Before you buy, or even if you already have a phonograph, come in and hear The Brunswick. Put it to any tone test you wish. Let us play the most difficult records for you. You will be delighted with the way The Brunswick plays them all.

The Ultona All-Record Reproducer and the all-wood Tone Amplifier are exclusive Brunswick features. And they are integral parts of the instrument—not attachments in any sense.

## IF BACKACHE OR KIDNEYS BOTHER

Eat less meat, also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## PRIVATE OWNERSHIP

### Superiority Demonstrated in World War

E. N. Hurley, who served throughout the war as chairman of the United States Shipping Board, was asked what in his job had impressed him most. He answered:

"The efficiency of private ownership and operation as compared with public ownership and operation—ALL PRODUCTION CENTERS ON THE COST—you can't get away from that. Shift responsibility for the cost, for the best possible result under a given set of circumstances and you shift the responsibility for efficiency. On the Shipping Board, we shifted this responsibility from private shipbuilding concerns to the Government.

"With the shifting of responsibility of cost to the Government, that keen interest in results which follows private initiative was gone. THERE YOU HAVE THE WHOLE PROBLEM AS BETWEEN PUBLIC OWNERSHIP AND PRIVATE OWNERSHIP STATED.

"I don't know of a government-owned plant that produces more than two-thirds efficiency. In the years to come some way may be found to keep incentive to best endeavor in men under government ownership, but until that is discovered that system may be classed as a failure."
