

Your Thanksgiving Turkey Tastes Better Cooked On A
Wedgewood
 COAL OR WOOD RANGE

Fuel Savers Perfect Bakers

Quality in a stove is the measure of usefulness and service it yields. That quality is economy is evinced by the Wedgewood.

Evans & Bolin

category, receive one-half less than the rations allotted to the communists.

All houses have been appraised, and those valued at more than 10,000 rubles are nationalized. Lodgings are distributed to the inhabitants and no distinction is made between house owners and lodgers. All pay alike the established rate for lodgings.

The houses of commissioners and their friends are virtually exempt from appraisal. The belongings of all people, even their clothing and effects, are listed. Each person is allowed to have a chair, some plates, a spoon, fork, etc., and two changes of linen. The rest is taken away and put in warehouses. There are no articles of household utility nor clothing on the market and none is produced. The soviet controls the distribution of necessaries from the warehouses.

Revolts against requisitioning of their products are frequent among the peasants, but they are put down with the utmost cruelty. Toonin says that in Starropol such a revolt resulted in the massacre of 6000 persons—men, women and children.

Factories are shut down for lack of fuel and raw materials, and workmen who faced starvation were driven to serve in the Red army.

HONOR NOT ENTIRELY WATT'S

At Least Two Inventors Before Him Had the Idea of the Value of Steam Power.

It is a popular idea that we owe the steam engine entirely to the inventive genius of James Watt.

The idea, however, is quite erroneous, for steam was in use as a motive power before he came on the scene. Several types of steam engine were in use, notably Savory's and Newcomen's.

But they were cumbersome, extravagant, and of small power, and it was while repairing a model of a Newcomen engine that Watt, who was working as a mathematical instrument maker at the time, evolved various improvements, notably the separate condenser.

Meeting Matthew Boulton, a manufacturer of metal goods, he entered into partnership and they produced engines, which at once established Watt's reputation. Improvements and inventions followed quickly, one after the other, and the present-day advance in motive power is due to the pioneer work of Watt. Even today the steam engine remains the same in principle as Watt evolved it.

It is an interesting fact, by the way, that Watt's workshop, exactly as he left it, still exists at Heathfield hall, Handsworth, where the engineering genius spent the last nineteen years of his life carrying on scientific investigations.—London Tit-Bits.

Black diamonds come from the province of Bahia, in Brazil. Twenty thousand dollars was paid for the finest specimen known.

Nothing is wasted in Japan. Uses to which straw is put are seemingly endless. It is converted into bags for grain, shoes for feet, raincoats for the body, roofs for the houses, paper mats, screens, beds, and numerous other articles.

A bat cannot rise from a perfectly level surface.

The Bible contains 773,748 words and 3,568,480 letters.

KIDNEYS NEVER CAUSE BACKACHE

Rub pain, soreness and stiffness right out with old "St. Jacobs Liniment"

Kidneys cause backache? No! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Liniment." Rub it right on the ache or tender spot, and instantly the pain, soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Liniment" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache, sciatica or lumbago pain. "St. Jacobs Liniment" stops any pain at once. It is harmless and doesn't burn or discolor the skin.

It's the only application to rub on a weak, lame or painful back, or for lumbago, sciatica, neuralgia, rheumatism, sprains or a strain.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow, and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gas and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

FINE FEATHERS FOR FLUNKYS

LONDON, Oct. 15. (By Mail.)—The gorgeous uniforms of the dignified English servants who are always in attendance at all official receptions have been the rocks upon which the pride of more than one foreigner has been wrecked. The initiated is never sure as he approaches one of these impassive-faced functionaries whether the latter is a field-marshal, or a footman. Witness the discomfiture of His Highness Prince Faisal, son of the King of the Hedjaz, at the great reception in the Guildhall to England's returning hero, Field Marshal Viscount Allenby.

The Arabian Prince, clad in his official robes of Oriental design, was one of the many famous men at the Guildhall. Always punctilious in the extreme, His Highness made his way into the ancient hall, bowing to right and left as he met great soldiers and statesmen of the country. He neared one who, wearing wonderful raiment adorned with yards of heavy gold lace, appeared to be greater than them all. The Prince bowed deeply—to the Lord Mayor's flunkey.

In Belgium all girls under twenty-one are forbidden to work in hazardous occupations, such as those using harmful chemicals or poisonous fumes.

For many years the women school teachers in Copenhagen have received equal pay with the men teachers.

RHEUMATIC PAINS RAISING A RUMPUS?

Sloan's Liniment, kept handy, takes the fight out of them

SLUSHING around in the wet and then—the dreaded rheumatic twinge! But not for long when Sloan's Liniment is kept handy.

Pains, strains, sprains—how soon this old family friend penetrates without rubbing and helps drive 'em away! And how cleanly, too—no mess, no bother, no stained skin or clogged pores. Muscles limber up, lumbago, sciatica, neuralgia are promptly relieved. Keep a bottle handy all the time. Get one today if you've run out of Sloan's Liniment.
 All druggists—35c., 70c., \$1.40.

SOVIET GOV'T FAVORS CLASS THAT RULES

OMSK, Sept. 15, via Vladivostok, Oct. 5.—(By Associated Press).—Communists and their sympathizers constitute the privileged class of Bolsheviki Russia, says M. F. Toonin, formerly a small land owner in the Samara district. Mr. Toonin has lived there under Bolshevik rule since December, 1918, but lately arrived at Omsk. He gives an illuminating description of life under the Bolshevik regime.

The civil government of the Samara section is in the hands of an executive committee, he said. This committee controls supplies, lodgings, fuel and military affairs. The control of production and manufacturing industries is subject to a council of national economy, which is subordinate to the executive committee.

The population is divided into four categories. The first of these is comprised of communists and their sympathizers. The second category is composed of employees of soviet institutions, the third of ordinary citizens and the fourth category of officers, their families and the bourgeoisie, the formerly middle class.

Only communists and their sympathizers enjoy the right of election to the council of national economy. To them are assigned the best homes and lodgings. Their property is not subject to requisition. Under the rationing system they are allowed one pound of meat a day while none of the others receive more than one pound a week. Their full requirement of fuel is allotted to them while that of the other classes is cut one-half or less.

The communists are allowed 30 pounds of baked bread or flour a month, while the allotment to the other classes ranges down from 25 pounds to nothing. Textiles and footwear are permitted to communists and soviet employees only.

People of the fourth category, officers, their families and the bourgeoisie, have little or no rights. No food or fuel is rationed to them. Ordinary citizens, composing the third

ROOFING

Now is the time to fix that roof—now before the rain and snow come and make it almost impossible to do the work. You save money by doing it now, and save your property, too. Let me do your work and it will be done right.
