COURT HOUSE SUIT TRIAL SET TODAY

Defendants in the court house litigation yesterday filed a motion to strike out plaintiff's reply to the answer of the complaint. The motion will probably be decided when the suit comes up for trial.

The trial of this litigation, it is understood, will be set today by Judge Calkins at Jacksonville, to take place here. It is expected that an early date will be chosen.

Note—There is doubt as to whether the case was set today, as an attempt by The Herald to get in communication with the circuit court at Jacksonville by telephone failed. The telephone company reported that Judge Calkins was not holding court today and was not in town.

ENGLAND'S NEED FOR FOOD GREAT

LONDON, Oct. 20.—(By Mail)—England needs to produce a great deal more wealth than she did before the war and she can best learn from America how to do it, said C. A. McCurdy, parliamentary secretary to the food controller, in a recent speech dealing with England's industrial and labor troubles.

"Machinery and motive power are the tools you give the worker for his business," he continued. "Before the war the American worker was far better equipped in this respect than the British working man. He had 50 per cent more motive power, steam power or electrical power to help him in his task. "We might double the efficiency and the output of British workmen by giving British industry cheap and abundant motive power."

YANKEE CONCRETE BOAT IS STAUNCH

LISBON, Portugal, Oct. 20.—(By the Associated Press).—A Portuguese gunboat was kept busy all night recently trying to sink an American steamer built of concrete. The vessel, the Milton, 3000 tons, from New York with a cargo of coal caught fire when lying in the river Tagus.

The whole vessel was ablaze in less than half an hour. It was feared that the anchor chains might snap and the ship be carried away and set other ships on fire, so it was decided to destroy the ship by gun fire.

After the gunboat had fired 189 shells at her the Milton slowly heeled over and disappeared from view. Lisbon's population turned out to witness the impressive sight.

HUN HARD PUT FOR HOUSING OF THE ENEMY

BERLIN, Oct. 20.—(Correspondence the Associated Press).—Germany is fairly dazed by the demands of the entente military and naval commissions for the housing of their supervisory forces, which, according to the peace treaty, may have their headquarters at the seat of the German government, and place sub-commissions at any point in Germany.

The entente has given notice that it will send a chief commission to Berlin, and ten sub-commissions to other points. It demands, from Berlin, hotel accommodations comprising 500 rooms, housing for 300 non-commissioned officers and men, and garage facilities for 60 automobiles. These are the requirements for the army and naval forces.

For the air forces the entente wants 200 rooms in a hotel, 100 office rooms, housing for 450 persons, and garage space for 60 automobiles. The figures look large to Germans, for guests at all the big hotels even now are happy to be able to creep into a bathroom and snatch some sleep.

The Council of States has decided that the money agreed upon to furnish quarters for the entente missions, 5,000,000 marks, was not enough. It is, however, rooms, hotels, dwellings, more than money, which is worrying the government.

The government has made a beginning by announcing that it will confiscate one hotel which has 185 rooms, and use the building in Wilhelmstrasse, now the headquarters of the press division, for office space.

Another hotel has been confiscated for the air division. That, however, leaves a big gap between what can be supplied and what is demanded. The government may perhaps heed the many suggestions made recently for using various former royal and princely castles, which would relieve the strain on the already overstrained Berlin hotels.

BRITISH WATERS CLEARED OF MINES

LONDON, Oct. 20.—(Correspondence the Associated Press).—The task of clearing the home waters of moored mines having been finished, the admiralty has directed the release of all but 3000 officers and men who have been engaged in this dangerous work. During the war there were 600 officers and 15,000 men engaged in the mine-sweeping service.

Drifting mines must still be expected, shipping men have been warned, but it is believed that the southwest winds will soon drift them into the Heligoland Bight.

Airships were used for "spotting" the moored mines and the highest tides were chosen for sweeping so that the trawlers drifted over them. No warship or merchant vessel obeying instructions struck a moored mine in areas under British control, but six or seven fishing vessels were mined.

WOMEN'S CLUB WILL DISCUSS CITY ELECTION

The Women's Improvement Club will hold an important meeting on call of the President Mrs. Rose Soule Bratton, at the Council Chambers in the City Hall, next Tuesday afternoon, November 25 at 2:30 p. m.

The important measures to be voted upon at the Special Municipal Election to be held on November 28, will be discussed. It is the object of the Club to have all the women voters of the city fully informed upon the vital issues to be voted upon at the election. As it is proposed to increase taxation for public improvements and other purposes the women tax payers should take an intelligent interest. For this reason all women voters are invited and expected to attend this meeting whether they are members of the club or not. One of the most important measures that has ever come before the voters of this city is the proposal to be voted upon on the 28th to band the city for a sewer system to be constructed to serve Mills Addition and the Michigan Avenue region. The Women of Mills Addition and Michigan Avenue are especially invited to be present and take part in the discussion.

WEBBER WILL KEEP PLACE

Patrolman Fred Webber will not lose his job when his monthly tenure expires tonight. Mayor Struble told Webber last night that he would not be discharged today but could keep on in the position.

The patrolman's friends have been rallying to his support since the mayor announced his intention at last Monday's council meeting to let Webber go when his time was up. It has been pointed out that, despite the mayor's statement that Webber was not making traffic fines pay his salary, that in the few months he has been in office the fines for violation of the traffic laws have amounted to close to \$1200, enough to pay his wages for a year.

PREMIUM DAIRY CO. ARTICLES ON FILE

Articles of incorporation have been filed with the county clerk by the Premium Dairy company, of which H. H. Van Valkenburg, E. R. Reames, C. J. Ferguson, B. E. Withrow and G. E. Zimmerman are the incorporators.

Final proof on homestead was made before C. R. DeLap, U. S. commissioner, yesterday by John Commins, Edward Craff, Gus Steady and Henry B. Hammond. The land of the first three is in Township 36 south, Range 6 east, being cut-over land in the forest reserve on the west side of the Upper Lake. Hammond's land is in the Midland section.

A. H. Hale is scheduled to appear and make final proof on his homestead today.

FORD CAR STOLEN

Search by the sheriff's office for a Ford car stolen from in front of the residence of B. C. Sutcliffe, an employe of the California-Oregon Power company, several days ago, has so far proved unavailing. The car was the property of the company. There is no apparent clue to the identity of the person who took it.

REED TO SEND FOUR DELEGATES

PORTLAND, Ore., Nov. 22.—The students of Reed college will send four delegates to the Student Volunteer conference in Des Moines, Ia., next month. The faculty will send its own delegates. The conference is to discuss the religious affairs of the nation's colleges and the service students can do for the community.

TWO ARRESTED FOR BOOT-LEGGING

John Floden, local jitney driver, and his brother-in-law, Chris Thompson, were arrested yesterday afternoon by Patrolmen Dunham and Webber on charges of selling liquor and having intoxicants in their possession. They were released by Justice Chapman on bonds of \$500 each to appear for hearing next Tuesday.

The police, it is said, have suspected Floden of boot-legging for some time and marked the coin which they placed in the hands of an agent who bought the liquor. This marked money will be part of the evidence, it is alleged, as it was found upon one of the defendants.

ONE BRIDGE REPAIRED; WORK ON OTHER STARTED

The bridge near the Burrell Short ranch on the Merrill road, which has been under repair for the last ten days, is finished and the road is again open to travel.

Work is to be begun at once on repairs to the bridge near the Altamont ranch, but it is not yet certain that the repairs will make the closing of the road to traffic necessary.

DEAD CARRIER PIGEON IS FOUND IN MARSH

A dead carrier pigeon with a silver band on its leg was picked up on one of the marshes below the city a few days ago. The silver band has been turned over to Postmaster DeLap. The only identification mark on it is a figure "1" on the inside.

NEW HIGHWAY COMMISSIONER IS MURDERED

J. N. Burgess and George E. Perringer, Pendleton Cattleman, Are Killed When Bandits Raid Claremont Tavern Near Portland

PORTLAND, Nov. 22.—Rewards for the apprehension of the persons responsible for the murder of J. N. Burgess, state highway commissioner, and George E. Perringer, cattleman, now total \$11,000. Governor Olcott has added \$1000 and Simon Benson, chairman of the state highway commission, \$3000 to the amounts already offered.

PORTLAND, Nov. 22.—Jasper N. Burgess, Oregon state highway commissioner, and George E. Perringer, Pendleton rancher, were shot and killed in a holdup of the Claremont tavern, near here, last night. Three men, suspected of complicity in the robbery and murder, have been arrested.

Only a partial identification has been made of the trio under arrest, said the police, who refuse to divulge the names of the suspects.

Burgess and Perringer were killed while dining when the three masked men entered the hotel, rounded up the guests and robbed them, getting away with money and valuables approaching \$2500 in value.

It is assumed that the fatal bullets found a mark during indiscriminate firing intended to frighten the diners, started when the bandits first entered the dining room, although it may be that Burgess and others showed resistance. No one present seems to have a clear idea regarding the details and only incoherent stories are available up to date.

Rewards totaling \$7000 for the apprehension of the criminals have so far been offered by Mayor Baker of Portland; J. M. Keeney, Pendleton cattleman, and W. L. Thompson, former highway commissioner.

YEAR'S DEVELOPMENT SURPRISE TO VISITOR

George R. Lindley, vice-president of the Jackson County bank, Medford, is in the city for a brief visit with Mr. and Mrs. George C. Ulrich. It is nearly a year since Mr. Lindley was here before, and he was somewhat surprised at the development that has taken place during that time. He has always been a great believer in the ultimate triumph of Klamath Falls and the near approach of that goal affords him much satisfaction.
