Such Hose Require No Apology

The soft effulgence and the grace of Luxite Hosiery commend it to all who have an eye to beauty. Its unrivaled serviceability prompts them to recommend it to friends. Now that discretion is the better part of buying, men and women should learn the difference between this pure dyed hosiery and adulterated hose. The new styles are ready—a good time to come in.

The Brunswick

FOR **THE SEVEN AGES OF MAN**

"FIRST — THE INFANT"

FILL the all-receptive child mind with harmony! Begin its musical education early and correctly. With a Brunswick in the nursery, the means of producing music at its best is always at hand.

The Brunswick Method of Reproduction

Today The Brunswick is creating a newer and higher conception of phonograph music—due to its advanced method of reproduction by means of two scientific and exclusive features, the Ultona and the Tone Amplifier.

The Ultona

The Ultona plays all records of every make. Just a turn of the hand presents the required diaphragm, needle and weight.

The Tone Amplifier

The Tone Amplifier, an oval tone chamber constructed entirely of wood, insures against harsh metallic sounds.

The Brunswick, besides being an educational uplift for the child in music and allied arts, is an instrument of grace and beauty.

We shall be pleased to demonstrate its many fine qualities to you. Come in today or at your first convenience.

MRS. MATTIE ANDERSON.

Lovers of those appealing stories of the rugged North will find a pleasant treat in the forthcoming Select Pictures attraction, "Faith of the Strong" which comes to the Star Theatre on Sunday. The star of the story is Mitchell Lewis, that virile actor whose many years of life in the North country have made him one of the few men who can accurately portray the emotions of those who live in the frozen wastes.
