

# Women Made Young

Bright eyes, a clear skin and a body full of youth and health may be yours if you will keep your system in order by regularly taking

The world's standard remedy for kidney, liver, bladder and uric acid troubles, the enemies of life and looks. In use since 1896. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

## MEXICO'S MANY "LOST" MINES

Operators and Prospectors Driven From Their Work by Threats and Depredations of Yaqui.

Many of the lost mines of Mexico were the result of depredations of the Yaqui Indians. They killed or drove prospectors from the country and obliterated marks of the workings. Thus many mines, with great possibilities, were lost.

One of the mines of the Estrella del Norte Mining company was lost for many years. The only clue to its location was found on an old Jesuit map, which said it could be seen by looking from a church door. The church was found and the land dug up as far as could be seen from the door, but no trace of the mine was found. Later, after the search was discontinued, a wall that had been built at a date later than the map, fell down and exposed another door. Men with field glasses, looking from this door, discovered the old mine.

Many of the churches of Mexico that cause the world to wonder, because of their architecture and priceless ornaments, owe their existence to mines. The Barocca church, built in 1792, was built from the wealth derived from the Mina Grande mine, in Barocca mountain. Prior to 1850 the walls were lined with sheets of pure silver from the mine. The candelabra, the altar rails and other parts of the sanctuary were of silver, and the altar vessels were of pure gold.

## GROWTH OF HOSPITAL IDEA

Value of Such Institutions in American Eyes is Shown by Their Astounding Growth.

Figures in a recent official report to the United States department of labor show the astounding growth of the hospital idea in this country during the last half-century. In 1873—less than 50 years ago—there were in the United States only 149 hospitals; today there are nearly 9,100—an increase of nearly 6,000 per cent in the number of institutions. In 1873 the total capacity of the then-existing hospitals was 35,453; today the hospitals of the country have a total capacity of approximately 866,000 beds—an increase of over 1,000 per cent. The amount of money at present invested in these institutions is roughly estimated at nearly \$2,000,000,000; the annual expenditure for supplies, equipment, upkeep and new construction is said to be about \$750,000,000.

There is much that is gratifying in these enormous totals, says an editorial in the Modern Hospital. Certainly, no stronger testimony could be adduced to show that the people of the United States are thoroughly converted to the hospital idea, and do not mean to be deprived of the benefits of hospital care.

## Paper Has But One Subscriber.

It has been the inflexible custom in the imperial family of Japan, says a writer in East and West News, to withhold all newspapers and magazines from its members until they attain their eighteenth year, but the rule was waived in the case of Hirohito, the present crown prince. Four months before his imperial highness entered upon his eighteenth year he was allowed to begin reading a specially prepared journal.

This curious newspaper was edited by an official of the imperial household and printed in the imperial printing office. It was set in special type and printed on thick Japanese paper. The reading of it did not require a great deal of time, for it was of small size and on a single sheet.

## Today's Anniversaries

1768—John Armstrong, author of the famous "Newburg Letters," and afterward Secretary of War, born at Carlisle, Pa. Died at Red Hook, N. Y., April 1, 1843.

1820—John Willis Ellis, governor of North Carolina at the commencement of the civil war, born. Died at Raleigh in 1861.

1835—Andrew Carnegie, capitalist and philanthropist, born at Dunfermline, Scotland. Died at Lenox, Mass., Aug. 11, 1919.

1844—Marriage of the Duc d'Anmale, son of the King of the French, and the Princess of Salerno.

1869—O'Donovan Rossa, Fenian leader, was elected to the British parliament.

1894—The Nicaragua Canal Company was incorporated under the laws of Vermont.

1914—British battleship Bulwark sunk by German submarine off Sheerness.

1915—Italians stormed and captured strong Austrian intrenchments on Monte San Michele.

1916—Austro-Germans drove Roumanians down the Alt valley and burned flanks of new position.

1917—American War Mission in France placed a wreath on the grave of Lafayette.

## "FATHER OF POSTAGE STAMP"

Sir Rowland Hill Had to Fight Hard to Get Great Britain to Adopt Scheme He Advocated.

The power of a postage stamp, in unjust taxation, in 1776, sent her American colonies from Great Britain. Viscount Hill, a tough old British soldier, ancestor of Sir Rowland Hill, the great philanthropist, and inventor of penny postage, was born on August 11, 1772. His fighting qualities blustered again in his descendant, Sir Rowland. In 1835 his fearless originality and largeness of view flung itself into the question, "How shall the poor send letters at 1 shilling and 4 pence (33 cents) each?" The government hostile to him, he suffered insults, yet he steadily pressed his scheme—the penny stamp. Every obstacle was thrown in his path. Parliament foamed at the mouth, and declared he would ruin the country, and upset the throne. The official world guffawed when he appeared before a commission of post office inquiry to describe his invention—the penny stamp—"an adhesive postage stamp, a bit of paper, just large enough to bear the imprint of her Majesty's bust, and covered at the back with a glutinous wash."

But the diplomatic ability, and the dare and push of his old ancestor in his veins, carried him through to triumph for the people. On January 10, 1840, penny postage was established. The gross revenue rose from 1,000,000 pounds to 4,000,000 pounds. The business of the money order office multiplied fifty-two fold. He was buried in Westminster abbey, London—the highest honor a grateful nation could accord him.—Kansas City Journal.

Surety bonds while you wait. Chilcote & Smith. 5-4f

# Thanksgiving Dance

at Malin Hall Thursday Evening Nov. 27, 1918

Everybody invited. Music by Malin Orchestra.

VINCENT HAVLINA, JOHN BROTHANEK, J. F. KAMARAD, Committee.

## Have an Oil Heater

to take off the chill when it is too warm to have the furnace going. We have them that are as pretty as a picture, take very little oil and are guaranteed to be free from smoke or smell. Don't wait till all the family have colds. Get one today.

ROBERTS & HANKS 422 Main Street

Albert C. Ritchie, Governor-elect of Maryland

# WOMEN VOTERS WILL CONVENE

SAN FRANCISCO, Nov. 25.—Leading suffragists from all parts of the United States are expected here November for a conference of the Women Voters of America.

Plans to unite all women for better citizenship and consideration of Americanization, child labor and legislation for women will be taken up.

Carrie Chapman Catt, chairman of the National American Woman Suffrage Association; Mrs. C. W. McCulloch of Chicago, chairman of the department of the unification of laws, League of Women Voters; Dr. Valeria Parker, chairman of the department of social hygiene; Miss Julia Lathrop and Mrs. E. P. Costigan of Washington, D. C., have been asked to speak.

The high cost of living and the proposed organization of a league of women voters in California will be discussed.

Mrs. Robert J. Burdette and Mrs. Robert Armstrong Dean chairman of the California suffrage ratification committee of the American Women Suffrage Association are assisting in arranging for the conference.

Stockings first came into general use in the 11th century. Before that time cloth bandages were worn about the feet.

# WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowels pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; important to keep clean and pure on thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing. Men wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion; others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.—Adv.

## One Year Ago Today in the War

Marshal Petain and the French army made solemn entry into Strassburg, Italian troops occupied Innsbruck, capital of the Austrian Tyrol, in accordance with the terms of the Austrian armistice.

## "PEANUT" UNIT LOOKED GOOD

But After Receiving Letter From Agricultural Department "City Sucker" Did Not Invest.

A city man got a very glowing circular from a Chicago "development company" offering him ten acres of land in Florida for the surprisingly small sum of \$2,500—a "peanut unit" the circular called it. He could grow, the circular said, a thousand bushels of peanuts on his ten acres and low prices—at \$2 a bushel. The city man was impressed; but he sent the circular to the department of agriculture with a query as to whether or not the investment was a good one.

Following are some sentences from the letter he got in reply: "The literature is of the kind designed to deceive city people in the North and West who do not know anything about farming." "The average return from ten acres of peanuts would not exceed \$300 to \$500." "You could buy a 100-acre farm in almost any of the counties of western Florida, including the one mentioned in the circular, for the price these people ask for ten acres."

"The whole 'unit' system, whether it is peaches, peaches, figs, cane, peanuts, hogs, or what not, is simply a means of selling land at three to five times what it is worth to ignorant or unwary small investors." "To pay \$2,500 for this ten acres of land would stamp you as a 'sucker' of the roughest class."—Exchange.

## SHARK TO FURNISH LEATHER

Investigation Has Shown That Skin of Sea Monster Has a Very Definite Value.

Although the personal popularity of sharks is not likely soon to increase, their existence will be more complacently accepted if the work already done through the agency of the United States government continues its progress toward proving sharkskin a good substitute for leather. The effort was begun in 1916, and it has been shown that the skin of a shark can be tanned by newly discovered processes with a result much like a superior grade of leather. Commercial tanneries are beginning to turn out the product. Shoes made of it are being worn; and, like the pig, of which everything is utilized but the squeal, the shark has been found generous in by-products. The bureau of standards is now experimenting with shark leather to determine its durability, tensile strength, and wearing and water-resisting qualities; but enough has been done to indicate that many persons in the future will go shod in shark leather, and that only those who are told will know the difference.

## How Bridges Breathe.

Like us mortals, big steel bridges feel the changes in the weather, and must be built to withstand them, or perish.

In the heat of summer a bridge is appreciably longer than it is in winter, and at various times of the year it may be longer on one side than on the other, as when a hot sun plays on one flank, and a cold wind on the other.

The "breathing apparatus" of a bridge consists of rollers under the feet at one end so that the end can move to and fro freely according to the expansion and contraction of the huge girders.

Provision is made in the case of the Forth bridge for as much as two feet of "breathing" of the immense cantilevers.

## High Temperature May Mislead.

High temperature does not always mean fever, for the body heat may be increased by exercise or eating, and a rise of as much as 1.3 degrees Fahrenheit has been traced to mental work. Dr. F. B. Wynn of Indianapolis reports that drafted men before examination showed an average rise of 0.3 degrees from the anxiety and suspense, with a corresponding depression below normal after examination. In 40 nurses the fall after examination averaged 0.6 degrees. The psychic rise plus the daily elevation may lead to false conclusions if the physician is not careful.

## His Mistake.

Flirtish—You know my wife and her sister look very much alike. Bensonhurst—Oh, is that so? "Yes. Why, the other day I got a seat in a crowded trolley car, and when I got off my sister-in-law was also getting off the same car and she gave me Hill Columbia for not getting up and offering her my seat." "Well, why didn't you offer her your seat? Didn't you know her?" "No, I didn't. I really thought it was my wife!"—Yonkers Statesman.

With the exception of the diamond, carborundum is the hardest of all known substances.

# HERALD'S CLASSIFIED COLUMNS

## FOR SALE—Real Estate

FOR SALE—Or will trade for Klamath Falls city property, 40 acres, 8 miles from Klamath Falls, about 20 acres cultivated, the very best of soil. Balance timber land. Timber has been logged off lately. About 100 cords limb wood still on ground. Two room cabin, good chicken house, well of water—no pump in well. Address Albert Barrett, General Delivery. 24-31\*

## FOR SALE OR EXCHANGE—Fertile Sacramento Co. land, 40 acres near Lodi, cheap for cash. Will consider exchange. What have you? Call or address Room 126 White Pelican Hotel. 31-4f

## FOR SALE—Miscellaneous

### TURKEYS

At the Mars Confectionery. 24-21\*

## FOR SALE—A few choice Turkeys for Thanksgiving. H. Telford, Phone 18F13, Merrill Road. 22-31\*

## FOR RENT OR LEASE

FOR RENT—Good warehouse 50x50 feet, near S. P. Depot. Inquire Herald office. 1-1f

FOR LEASE—To responsible parties that have equipment and cash to finance themselves, a desirable ranch. Address M. K. 9, Herald office. 8-1f

## HELP WANTED

WANTED—Girl for general housework and cooking—Mrs. O. G. Labaree, Bly, Oregon. 1-1f

## MISCELLANEOUS

### WANTED

40 sacks No. 1 seed potatoes, dry land spuds variety. Early Six Weeks preferred. Nettle Gems or Blue Centennials. Address Albert Barrett, General Delivery. 24-61\*

## NOTICE

The Ladies of the Catholic Church will hold their annual Fair Dec. 11, 12, 13. 22-1f

Kongoland breeds a native sheep which is without wool.

## SAGE TEA DANDY TO DARKEN HAIR

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTER TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise

awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

## NOTICE

Strayed from Dodd Hollow one bay saddle horse branded figure 4 on left shoulder; one gray horse, weight about 1700 pounds branded HX on left shoulder; one brown horse, weight about 1150 pounds, branded upright flatiron on left hip. Notify Chas. Paulson care of F. N. Hedricks, Merrill, Ore., and receive reward. 24-61\*

## NOTICE

December 11, 12, 13 22-1f

## A New Tire

Here is a tire that is a tire—THE GENERAL CORD. It is guaranteed for 10,000 miles, but you don't have to worry about that, for it will always beat that mark. The next time you buy a tire, buy a General—it's the tire you've been looking for.

We have a full line of accessories here. Drop in and look them over.
