NOTICE

Equity 1120
In the Circuit Court of the State of Oregon, for Klamath County.

In the Matter of the Petition of the Board of Directors of the Langell Valley Irrigation District of Klamath County, Oregon, Praying that All of the Proceedings in Connection with the Organization of Said District, and the Proceedings of the Board of Directors, and of the Said District Providing for and Authorizing the Issue and Sale of Bonds of Said District, May Be Examined, Approved and Confirmed by the Court.

To the Langell Valley Irrigation District and to All Freeholders, Legal Voters and Assessment Payers within Said District:

NOTICE IS HEREBY GIVEN that the above entitled court has fixed the hour of 2 o'clock p. m., of the 22nd day of December, A. D. 1919, and the County Court House of Klamath County, Oregon, as the time and place for the hearing of the petition of the Board of directors of the Langell Valley Irrigation District of Klamath County, Oregon, which petition has been filed with the Clerk of the Circuit Court of the State of Oregon for Klamath County, and which said petition prays that the above entitled court will examine into all the proceedings in connection with the organization of the Langell Valley Irrigation District, and all the proceedings providing for and authorizing the issuance and sale of the bonds of said district.

Any person interested in the organization of said Langell Valley Irrigation District, or in the proceedings for the issue and sale of said bonds may, within the time provided by law demur to or answer said petition and contest matters therein contained.

This notice is published pursuant to an order made by the Honorable D. V. Kuykendall, Judge of the Circuit Court of the State of Oregon for Klamath County, made and entered on the 12th day of November, A. D. 1919. C. R. DE LAP, Clerk of the Circuit Court of the State of Oregon for Klamath County.

MEXICO'S WEALTH OF SILVER

Aroused Greed of Conquerors and Brought Only Bondage and Misery to the People.

Mexico has produced a steady stream of silver ever since its conquest by Cortez in 1519. But while the supply seemed inexhaustible, it brought more misery than happiness to the nation. In the opinion of the Salt Lake Tribune, because it afforded the incentive to bring conquerors to its shores to enslave the people.

The Spaniards robbed and enslaved the Aztecs to control the silver supply. They blotted out a semi-barbarous civilization that had built great irrigation systems, massive temples and beautiful cities, and the once proud and happy people were placed under the yoke for four centuries.

An almost uncanny gift in ferreting out the big silver deposits was possessed by the Spanish governors. The cost of gunpowder was so high, though, that only the richest finds were worked. Only ore that produced over 100 ounces of silver to the ton was mined. It is said that the owner of the Quincea mine, in the Alamos district, a Senor Alameda, on the marriage of his daughter, lined the bridal chamber of the palace with bars of silver and paved the way to the church with the metal.

Large profits are made from demolishing some of the old houses in the Chihuahua district, and reducing the material in them for silver. The natives who built them used to use the run of mine slag, in the absence of cheaper building material, and much valuable ore went into the buildings.

KEEP KNOCKED-OUT TEETH

Dentist Can Replace Them in Mouth So That They Will Soon Give Good Service.

When one's front teeth are knocked out there is no need to leave them on the floor, for they can be reinserted very well by a good dentist. Dr. H. M. Savery tells in the Lancet (London) of two cases in which the teeth were completely dislocated from their sockets.

In one case the teeth were placed in salt water while the dentist carefully washed out the sockets. Then they were reinserted, a stitch or two placed in the gums and the jaws were bandaged shut so that the teeth bit on a pad of lint. In the other case the teeth still hung to the gums, so the sockets were cleaned out without detaching the teeth.

In both cases the teeth became solidly fixed and the patients could use them for normal biting a few months after the accident.
Dr. C. De Witt Henry of New York replaced not long ago the teeth of a truck driver that had been knocked out in a collision. The man had picked up his teeth from the gutter and run up to the dentist's office carrying them in his hand.

World's Largest Vaults.

In the underground vaults of the new United States assay office, the cornerstone of which was laid recently in New York, can be stored more than \$20,000,000,000 in gold. They are said to be the largest and finest in the world, according to Popular Mechanics magazine. Five of the eight stories of the building will be located beneath the surface of the earth. Sealed in the cornerstone of the structure are copies of several newspapers; a medal on which there is a portrait of the president, and a bag containing a set of United States coins ranging in value from one cent to \$20, besides other articles of interest and value. The building will cost over \$800,000.

Reduced His Conceit.

He was eaten up with a mistaken consciousness of his own importance, and when he was making his speech in the Middlecombe mock parliament he noted that one of the local newspaper men appeared to be sketching him. When the house adjourned he button-holed the artist.

"I believe—aw—you were—aw—sketching me; isn't that so?" he inquired.

"That is so," replied the artist.

"Well—aw—would you tell me what newspaper you—aw—represent?"

"I represent no newspaper," answered the artist. "I design comic postcards."—London Tit-Bits.

Tree Hid Loot 39 Years.

A gilt clock and other articles were stolen thirty-nine years ago from a mansion near Wokingham, Eng., where the marquess had marchioness of Downshire resided then. Recently a man saw a spike protruding from the side of a stump of a tree that had been felled. Thinking this unusual, he looked into the stump and found the long-lost clock, rusty but intact, and some photograph frames in filigree work—the thief's hoard. A local watchmaker identified the clock and is now cleaning and restoring it.

Second Hand.

"What a lovely Dutch landscape!" exclaimed the admiring visitor. "You've been to Holland, of course?" "Why, no," answered the artist, modestly. "Then how were you ever able to paint such a realistic picture?" "To tell the truth, I copied it off a beer mug."—Birmingham Age-Herald.

LANDMARKS LEFT BY JEWS

Many Cities of Spain Can Show the Remains of Streets and Buildings They Occupied.

In many big towns in Spain there are beautiful remains of the ancient Jewries, the streets and buildings having been preserved intact to this day. There are, for instance, says the Jewish Tageblatt of New York city, several fine residences which belonged to wealthy Jews before 1492, especially the two beautiful synagogues in Toledo, with their Hebrew inscriptions. In Cordova, an important part of the old Jewish quarter still exists, and there is a beautiful little synagogue with inscriptions around the building, which is situated in a street named Calle Maimonides. In Seville there are four churches which were formerly synagogues. One of the most beautiful Jewries is that of Cordova, the birthplace of Maimonides (Ramban). It is built in a fine Gothic style, and the old communal house is now used as a school. In Saragossa there are whole streets of the old Jewry still preserved with residences of wealthy Jewish denizens. Another old Jewry is that of Pontevedra, which is supposed to have been the town where the alleged Jewish forbears of Columbus lived. There are thousands of Spanish families bearing Jewish names, and they know they are of Jewish extraction. Several members of the Spanish nobility are also of Jewish origin. It is very remarkable that the Jewish type is even still preserved with such purity in those parts of Spain which have large Jewish communities, especially Andalusia and Catalonia. Never can one see in Europe such beautiful types of women with their wonderful eyes, natural elegance, and most attractive elasticity and dignity as are to be found in Seville and Granada.
