## Back on Throne

The wartime crown of "Fuel Administrator" has been thrust back upon the brow of Harry S. Garfield, son of former President Garfield. This is the government's move in the present industrial crisis brought about by the strike of the coal miners. Garfield is empowered by President Wilson to take the same drastic steps as in the winter of 1917, if necessary to keep the nation warm and industrial wheels turning.

## GLASS OF SALTS CLEANS KIDNEYS

If your back hurts or bladder bothers you, drink lots of water

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grams of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what horrors of your kidney trouble and backache.

# PRIVATE OWNERSHIP

## Superiority Demonstrated in World War

E. N. Hurley, who served throughout the war as chairman of the United States Shipping Board, was asked what in his job had impressed him most. He answered:

"The efficiency of private ownership and operation as compared with public ownership and operation—ALL PRODUCTION CENTERS ON THE COST—you can't get away from that. Shift responsibility for the cost, for the best possible result under a given set of circumstances and you shift the responsibility for efficiency. On the Shipping Board, we shifted this responsibility from private shipbuilding concerns to the Government.

"With the shifting of responsibility of cost to the Government, that keen interest in results which follows private initiative was gone. THERE YOU HAVE THE WHOLE PROBLEM AS BETWEEN PUBLIC OWNERSHIP AND PRIVATE OWNERSHIP STATED.

"I don't know of a government-owned plant that produces more than two-thirds efficiency. In the years to come, our way may be found to keep incentive to best endeavor by means of government ownership, but until that is discovered the system may be classed as a failure."

## MOTOR CARS ON STAGE LINE

Old Four-in-Hand Vehicles on Nevada Roadways Succumb to March of Improvement.

Stage lines in Nevada have abandoned the time-honored four-in-hand of horses in favor of high-powered motor busses.

Equally with clocklike precision, these big cars pound along the 100 miles of sun-bitten alkali roadway carrying passengers and mail. In much less time and far greater comfort the ranchers and business men of today speed over the same roads where once rattled the four-in-hand stage, slow, jolty and not at all certain of reaching its destination.

The cost of transportation by motor bus compares favorably with operating expenses of the horse stage. The proprietors of the lines are thorough business men and can tell to the penny the gasoline mileage of every car, the oil consumption and just how much service is obtained from tires.—San Francisco Bulletin.

## Land Reclamation Scheme.

The British board of agriculture has inaugurated a scheme for the reclamation of land on the Lincolnshire shore of the Wash. A bank is being constructed from Wainfleet, a little below Skegness, to Frelston, near Boston (Lincolnshire), commencing at the Wainfleet end, and by this means it is hoped to recover about 12,000 acres. The work is in charge of a resident engineer in Wainfleet and will employ a large number of men, who will be selected from demobilized soldiers and sailors, and thus obviate the taking away of labor from agriculture. It is said that in the middle of the last century a reclamation scheme was started, and it was then estimated that a sufficiently large area would be redeemed from the Wash to form a new English county. The enterprise was abandoned, but experts have always maintained its practicability, which is now in the course of being tested.

## Saw George Elliot's Ghost.

The death of Mrs. Katherine Macquoid, the veteran novelist, at the great age of ninety-three, severs another of the few remaining links with the Victorian past. A contemporary of George Elliot, Mrs. Macquoid used to tell how she once saw the famous writer in a vision.

When George Elliot went to live at Chelsea Mrs. Macquoid proposed to go and call on her. But before she could do so a remarkable and tragic thing happened.

One night Mrs. Macquoid awoke suddenly, and saw the figure of George Elliot standing behind the bed and the wall. The apparition was distinct and unmistakable. On the following evening Mrs. Macquoid learned of George Elliot's death.

## Will Film a Big Game Hunt.

Writing of East Africa reminds me of a young man of greater enterprise than financial resources who has fixed up a contract with a motion picture firm to go on a big game shooting expedition in East Africa and take with him operators and camera. His own cheerful view of the undertaking is that he will get his shooting, and the movie firm will get their pictures, and both will reap substantial profits.—Manchester Guardian.

# Better Let Us Patch 'Em Up

This is the time to look over your tires with the idea of making them last through the winter. Of course, if you must have new tires, Diamonds are the only ones to buy at this time of the year—or at any other time, so far as that goes—but the idea we wish to convey is that we can make the old ones last through the bad weather, and save you money on your tire bill by repairing the worn ones. Bring them in, and if they are worth repairing we will tell you what it will cost—if they are not worth repairing, we will tell you that, just as readily. We can't make a new tire out of one that is worn out, but we can take a damaged tire and repair it so you will get many more miles out of it before it goes to the junk pile.
