At the Theatres

"In the Hollow of Her Hand," Alice Brady's latest Select Picture, will be seen at the Star Theatre on Monday. The story deals with Hetty Castleton, a young English girl, who falls in love with Challis Wrاندall. In a scene at an inn she learns of his marriage and kills him in self-defense. She is protected from the law by his wife, who tries to marry Hetty off to her brother-in-law, but Hetty is in love with an artist and refuses to marry him. Detectives accuse Mrs. Wrاندall of the murder of her husband. She denies the accusation and Hetty confesses. Old Mr. Wrاندall says that the law shall not touch her. Her lover takes her from the house to begin a new life with him.

BIG EATERS GET KIDNEY TROUBLE

The American men and women must guard constantly against Kidney trouble because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times a night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidney; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good supply on hand any time.

OCTOBER GAIN IN EXPORTS

American exports in October 1919, were valued at \$632,000,000, a gain of \$35,000,000 over September and of \$130,000,000 over October of the previous year, according to a statement issued today by the Bureau of Foreign and Domestic Commerce, Department of Commerce. Exports for the 10 months ended with October are placed at \$5,501,000,000, an increase of \$1,440,000,000 as compared with the corresponding period of 1918.

October imports totaled \$416,000,000, a falling off of \$20,000,000 from the high mark of September, but an increase of \$169,000,000 over October of last year. For the 10 months ended with October, imports amounted to \$3,113,000,000, a gain of \$543,000,000 over the similar period of last year. This figure for the first 10 months of the current calendar year is higher than that recorded for any previous full calendar year.

GROUND GRAINS FOR HOG RATION

Grinding small grains for fattening pigs effects in saving of about 10 per cent over feeding them whole, corn excepted, according to experiments at the Corvallis and Union experiment stations. The percentage is on the basis of amounts of feed required to produce 100 pounds of gain. It costs much more to grind the grain fine than coarse, but it is then no better. It does not pay to soak the ground feeds, and cooking is detrimental to grain feeds. It pays to cook potatoes well, but roots and pumpkins are not benefited by cooking. Full information on feeds and feeding pigs to finish for market is contained in a new bulletin published by the O. A. C. Experiment station, Corvallis, Oregon. Copies are free.

GAVE UP ALL HOPE M'GRAW ALMOST

HAD SUFFERED TEN YEARS—GAINS FIFTEEN POUNDS AFTER TAKING TANLAC.

"I have gained fifteen pounds since I commenced taking Tanlac, and the troubles that have been causing me to suffer for ten long years have been completely overcome," said F. McGraw, a well known boiler maker for the Standard Ship Building Co., living at Eagle Creek, Ore., the other day.

"From the day my troubles began, up to the time I commenced taking Tanlac," he continued, "my condition gradually got worse. In fact, during the past year I was in misery all the time. My stomach was in bad condition, and in a short time after meals, what I ate would sour and cause me to be bloated up with gas something awful. Then, I often had bad cramping pains in the pit of my stomach. At other times I would become so nauseated I could hardly retain what I ate. I was constipated all the time, and would have the worst sort of headaches every day or so. I just seemed to lose all my energy, and got so nervous I could hardly sleep at night. These troubles just kept getting worse all the time, and as I had failed to get relief from the different medicines and treatments I had taken, I was very much worried over my condition, and had almost given up hope of ever finding anything that would do me any good.

"My wife had been in a run down condition for a good while, and not long ago she commenced taking Tanlac, and she had improved so much on it, that I decided to give it a trial myself. Well, sir, this medicine just hit the spot right away, and in a short time I was feeling like a different man. I got stronger every day from that time on, and now I am enjoying as good health as I ever did in my life. I never had a better appetite, and everything I eat agrees with me all right. I have gotten rid of the constipation, and I haven't had a headache since just after I began taking Tan-

lac. My stomach is in fine condition and I never am nauseated like I used to be. I sleep like a log every night, and when I get up in the mornings I am ready for a hearty breakfast and a good days work. Yes, sir, Tanlac has put me on my feet after everything else failed me, and as long as I live I will never lose opportunity to say a good word for it."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Merc. Co.—Adv.
