Letters From The People

OBJECTS TO COURSE OF MR. ASHURST

Speaking for myself and for a SUES FOR ALLEGED considerable number of the other members of the Klamath Reservation, I wish to say that I object to whole legally let him get permis- plaintiff's attorney.

The Evening Herald sion from the Commissioner of Inof the Interior and the consent and support of the Superintendent of the Klamath Reservation, and hold a general council where this proposed Bill can be discussed and every Indian be given a chance to say what he thinks of it and its future effect on the Klamath Reservation. We do not like the way Mr. Ashurst has been doing, by holding council's away from the Kiamath Reservation with no public notice to members of the tribe. All his councils have been with a few and not with all the members of the Klamath Reservation. We feel as though we will rever get anywhere if he continues to do this. We feel that in order to get anywhere and have what we want, we must do it with the cooperation of the President and the Department of the Interior and the Bureau of Indian Affairs. This is the way our Government does its business and we must obey the rules and laws of the Government.

I have been Chief of Police on the Klamath Reservation many years and I feel as though I have the right to express my opinion on this subject. I have a family of my own and am a citizen and I deny that Mr. Ashurst has any authority to represent either me or my children.

I say what I have on this subject and I think I not only speak for myself but for a considerable number of other Indians.

THOMAS BARKLEY.

SHARE OF CROP

Complaint has been filed in the the course which Mr. Ashurst has circuit court by C. F. Garber against pursued in the matter of geiting Clement and C. J. Bradbury to enlegislation from Congress for the force a claim for \$1369, alleged to opening of the Klamath Indian Re- be due as plaintiff's half share of a servation. I say, that he has no legal hay and grain crop raised on defendcontract with the Klamath tribe; ants' ranch near the Lost River dam. that he has never held a general Plaintiff claims that under an oral council of the tribe at any time, that contract he farmed the land on a he has gone around quietly talking half-share proposition and that dewith the different members of the fendants failed to make a just settletribe; and any contract that he has, ment for his share. He wants a deis with the individual numbers of the cree of sale of the hay and grain tribe and not with the Klamath tribe crop to satisfy the lien for the as a whole. If Mr. Ashurst wants to amount he claims, which he has filed represent the Klamath tribe as a against the crop. W. M. Duncan is

CHRISTMAS CARDS And Booklets

An unusually large assortment of the prettiest Christmas Cards and booklets ever designed for Christmas giving and remembrance. All on dislay in our store now; many of them original; others in sample form from which you can select; cards plain; cards in colors; booklets small and booklets large; some for a penny or two, others up in the dollars. Make early selections for best choice, the only way to get the cards and booklets you want.

nderwood's Pharmacy WHERE PARTICULAR PEOPLE BUY THEIR DRUGS

******************** Getting the Fur Coat Out of the Moth Balls Should Be a Reminder That Your Automobile Battery Needs a Little Extra Attention

"The average motorist," said Judd Low, manager of the local "Exide" Service Station, the other morning, "is a queer combination of sound American common sense and unsound American easy goingness. And what parts of his car he never sees or hears a com-plaint from he is prone to neglect. And that, of course, is mainly

goingness. And what parts of his car he never sees or hears a complaint from he is prone to neglect. And that, of coarse, is mainly why the battery suffers—it never complains.

"It does its work, right up to the point where it has nothing more to give, under the most negligent and cruel theatment. But, of course, by the time it has reached such a point it is in mighty bad shape, and building it up again is going to cost Mr. Careless Motorist a penny that he might very well have saved himself.

"And all this in spite of the fact that we are continually writing our customers—talking to them, sending them folders and circulars—on the subject of getting better performance and longer life from the battery and keeping down big repair bills by giving it the right kind of service at the righttime. Right now we are sending out a little folder showing the importance of giving the battery proper storage when the car is laid up for the Winter. It has been the bad habit of many automobile owners at the approach of cold weather to simply run the old bus, fully equipped, into the garage and then lock the door till next Spring.

"Certainly so far as the battery is concerned, this is a mighty poor proceeding. Inside of the battery, owing to its chemical nature, a certain sort of action and reaction is continually taking place, even when it is idle. For this reason it demands certain attention at regular periods. This attention can best be given it when it is stored under such conditions and superintendence as only the battery expert can give it. Because of this, we advise our customers to remove their batteries from their cars, sending them to us to be

stored under such conditions and superintendence as only the bat-tery expert can give it. Because of this, we advise our customers to remove their batteries from their cars, sending them to us to be stored and cared for in our storage department. The cost of Win-ter storage is small and there is assurance that nothing detrimental can nappen to the battery during Jack Frost's reign."
