Anyway, the Wampler brothers' experience in the ice makes a thrill- with this sort of character and make ing narrative. Their engine failed it true to life. after the fall of darkness, leaving them helpless, and as the surface of the lake froze they were quickly imprisoned. They said that the cold campus and at the training quarters wave descended so rapidly that it seemed as if the water froze in-

Ingenuity and presence of mind saved the ranchers. They tore up the long seats and rashioned skis, and as the ice thickened they found it would bear their weight and thus they escaped safely to shore.

Persons along the shore of the "The Winning Stroke" made its aplake heard the engine missing and then it stopped altogether, and Liberty Theatre, is one calculated to next morning were able to see a appeal to the very best class of boat in the lake, believed now to theatregoers. LONDON, Oct. 29 .- (Correspondence the Associated Press) .- The R-38, Great Britain's largest airship, recently sold to the United States, is capable of traveling 34 hours longer without refueling than the largest German airship constructed before the armistice. She also embodies another achievement in the serial constructors' art. With her enormous gas capacity of 2,720,000 cubic feet, a third larger than that of the R-34 of trans-Atlantic fame, the R-38 has a "lifting" power of 50 tons of cargo. This is 60 per cent of her total "lifting" power, 82 tons. The airship's weight, 32 tons, is reckoned as "dead liftage."

The sale is attributed to demands for economy that have been made on the British air ministry. Construction of the R-38 was begun last year at Inchinnan, on the Clyde, where the R-34 was built. Her cruising endurance will be 45 miles per hour for nearly nine days. In length she is 695 feet, 25 feet longe! than the R-34, and her girth is 87 feet 6 inches. The airship is equipped with four 350-horsepower Sunbeam Cossack engines and two 275horsepower Sunbeam Maori engines. Altogether she will develop a horsepower of nearly 2000. Her speed will be 75 miles an hour.

It is rumored in English aeronautical circles that she will be commanded upon her flight to the United States, after being completed in a few months, by Major Scott, who flew the R-34 to America and back.

DOCTORS WANT MORE

LONDON, Nov. 17 .- (By Mail) British physicians have long been complaining that, as nearly everything has advanced in price owing to the war, there should be a proportionate advance in their fees. The justice of this contention has been officially recognized by the Minister of Health. Being of opinion, he state, that the present minimum fees of 60 cents and 84 for primary vaccinations at private houses are inadequate he has issued an order, which comes into force in December, to increase the minimum fee to
