PRESIDENT LINCOLN SIGNED HIS PATENT

SALEM, Ore., Dec. 23.—A patent to Oregon land signed by Abraham Lincoln as president of the United States, was filed in the office of the county recorder here recently. The instrument is a patent from the United States government certifying to transfer of 160 acres of land to Captain John W. Bacon of Seaside, Oregon militia.

The papers were executed January 25, 1862. They were filed here in connection with the process of clearing title to the donation land claim of Captain Bacon.

JAPANESE OPEN NEW LEGATIONS

TOKIO, Nov. 27.—The change in the political and diplomatic situation of the world after the war has necessitated the establishment by Japan of legations in the newly created European states and has led to an increase in the number of consulates in different parts of the world.

Legations will be opened at Peking, Warsaw, Athens and Arcadia, the capital of the Jugo-Slav state.

A new consulate will be established at Denver. It is expected that K. Mochizuki, a national chief of the political bureau in the Foreign Office, will be made minister to Poland and K. Honda until recently minister to Stockholm, Ambassador to Berlin.

According to gossip at the American league meeting, President Branch Rickey of the St. Louis Cardinals is to engage a manager for his team. Rickey piloted the Cards himself last season.

Pittsburgh fans are elated over the selection of George Gibson as manager of the Pirates. Gibson's fine record as a Pirate backstop for so many years made him strong with the followers of the game.

Jimmy Wilde, English flyweight champion, believes he got the worst of the decision in his recent bout with Jack Sharkey at Milwaukee and will most likely seek another contest with the New York bantam.

The All-Artists Phonograph

At a turn of the hand the Ultona plays any type of record. A child can do it. It is practically automatic.

Now your library of records can be bought according to your favorites. For instance, each record maker has a famous tenor. On a one-record instrument, you can hear him only. Others are barred. And who likes to be restricted?

The Ultona is the greatest feature offered any music lover. And it is obtainable solely on the new Brunswick.

Another vast improvement in tone projection is the Brunswick Tone Amplifier, built of moulded wood, like a violin.

Let us explain the Brunswick Method of Reproduction. Hear your favorite records. Then decide on merit alone.

JAP LABORERS IN CAN FIELDS ARE ORGANIZED

HONOLULU, T. H. Dec. 8. (By the Associated Press)—Upwards of one hundred Japanese delegates from unions of sugar plantation laborers throughout the Hawaiian Islands gathered here today with the avowed intention of demanding increased wages.

For several weeks Japanese organizers have been preparing for the convention, actively assisted by the Japanese Laborers' Supporters Association.

A recent convention in Hilo, said to have represented the Japanese workers on the island of Hawaii, formulated specific demands which are expected to be the basis of the resolution presented to the Honolulu gathering.

A basic wage of \$3 a day for men and \$2.25 for women and an eight-hour day form the keystone of the program.

The Japanese assert that, although the plantations furnish them with houses, fuel, water, light and medical attention when ill, with the present wage scale they are unable to keep pace with the rising living costs.

Under the system of pay now in vogue a new hand receives approximately \$30 for a 26-day month, with a 51 percent bonus, making the wage approximately \$57.50 a month. The contention of the planters is that, with the expected rise in the price of sugar, the laborers will receive a 121 percent bonus, bringing the monthly pay envelope up to approximately \$69.

Representatives of the Japanese declare they prefer to go away with the bonus system and establish a higher basic scale.

Opposed to this is the stand of the planters that to insure the permanency of labor the bonus system must remain. They object to having men going and coming from the plantations and for this reason, they assert, they established the rule that

to obtain a bonus a worker must be twenty days of the month on the job. The Japanese language press is strongly supporting the demands of their countrymen and a stiff fight is expected before the planters and workers come to a final agreement.

LESS COCKTAILS, MORE SUGAR USED

LONDON, Nov. 21.—Prohibition in America has helped materially in

raising the prices of sugar two cents a pound in England, according to the economic experts. This is the way the situation is explained:

Since the American has been cut off from his cocktails he has been consuming prodigious quantities of candy, and has been drinking oceans of nondescript but sugary concoctions which are vended over the soda fountain bar. At least such is the observation of his British brethren. In other words, the American is making sugar a substitute for alcohol.

Because of this the United States has less sugar to export, and because there is a general shortage of sugar throughout the world anyway, England cannot get what she wants and consequently has had to raise the price.

Ted (Kid) Lewis will open his boxing campaign in England with a bout with Matt Wells. It is doubtful if the veteran Wells can make the least bit of a showing against the Kid.
