### SOLDIERS SELL TOYS

SAN FRANCISCO, Dec. 23.—Festive Christmas toys, interesting even to adults, have been placed on sale at the Letterman General hospital here where the toys were made by wounded soldiers.

### WHICH REMINDS US THAT

If Burleson's administration isn't worthy of admiration his nerve is.

In many of the Chilian cities the women are employed as street car conductors.

### MORE IOWA CORN.

UNIVERSITY OF IDAHO, Moscow, Dec. 23.—Corn acreage in the state of Idaho has increased from 9,999 to 22,999 acres in the last five years, according to a statement recently made by Professor H. W. Hulbert of the University of Idaho, who said this is the greatest percentage of increase shown by any state of the northwest for a like period.

The world's record of sugar plantations contains 13,000 acres, has 20 miles of railway, and employs 1,500 people.

### PUNISH VIOLATORS OF CONSERVATION

VIENNA, Nov. 24. (By Mail)—The authorities are beginning to deal more severely with offenders against the lighting and food acts. For using an excess amount of electric current four prominent restaurants and one big hotel have been cut off from current altogether for a period of weeks. One big hotel has had its restaurant and dining rooms closed for one month because it had on hand an excessive amount of food.

### JAPANESE YARN PRICES SOARING

TOKIO, Nov. 27. (By Mail)—Japanese cotton yarns are soaring skyward. The prices ruling in the market have set new high records in the spinning industry of Japan, and even threaten to exceed the record figure in the world's market. The present quotations, if left unmodified, will soon tell on the welfare of the Japanese public who are already suffering from the advance price of cotton piece goods.

The government is taking the situation seriously and recently dispatched officials to Osaka, the most important centre of spinning industry to investigate the cause of the recent advance and to recommend measures for regulating prices. But the measures taken by the government so far have produced no effect and quotations are still advancing.

The current prices have reached such a figure that weavers can derive a large margin of profits by manufacturing textile fabrics with cotton yarns imported from abroad. One large weaving concern in Osaka has already ordered large quantities of fine yarns from the United States and thick yarns from China. This is the first importation of foreign cotton yarns by Japanese spinning concerns.

The staple crop of China is said to be sweet potatoes. There is no section which does not raise them, and they are a substantial part of the diet of a greater part of the Chinese people.

# EXPLAINS WHY COL. ROOSEVELT OPPOSED MOTTO

NEW YORK, Dec. 22.—A new and interesting explanation of Col. Roosevelt's objection to the use of the phrase "In God We Trust" on United States coins, is afforded in an article in the December Scribner's by Joseph P. Bishop, the former President's biographer.

A letter written by Mr. Roosevelt on Nov. 11, 1907, to a clergyman who had differed with him about placing the motto on the coins read:

"When the question of the new coins came up, we looked into the matter and found there was no warrant (except for putting 'In God We Trust' on the coins) as the custom, since without legal warrant, had been put on. However, I might have felt at liberty to keep the motto had I approved of its being on the coins. But as I did not approve of it, I did not desire that it should again be put on. Of course the matter of the law is absolutely in the hands of Congress, and any direction of Congress in the matter will be immediately obeyed. At present, as I have said, there is no warrant in law for the inscription.

"My own feeling in the matter is due to my very firm conviction that to put such a motto on coins, or to use it in any kindred manner, not only does no good but does positive harm, and is in effect irreverence which comes dangerously close to sacrilege.

"A beautiful and solemn sentence such as the one in question should be treated and uttered only with that fine reverence which necessarily implies a certain exaltation of spirit. Any use which tends to cheapen it, and above all, any use which tends to secure its being treated in a spirit of levity, is from every standpoint profoundly to be regretted.

"It is a motto which it is indeed well to have inscribed on our great national monuments, in our temples of justice, in our legislative halls, and in buildings such as those at West Point and Annapolis—in short, wherever it will tend to arouse and inspire a lofty emotion in those who look thereon. But it seems to me eminently unwise to cheapen such a motto by use on coins, just as it would be to cheapen it by use on postage stamps, or in advertisements."

Among the 159,000 letters written by Col. Roosevelt during his public career, Mr. Bishop said he found a number from Rudyard Kipling, written in that famous author's characteristic way, that is, in the finest chirography.

In a letter written in 1908 the Col. said "Great-Heart" is my favorite character in allegory, just as Pilgrim's Progress is to my mind one of the greatest books that was ever written; and I think that Abraham Lincoln is the ideal "Great-Heart" of public life." He returned to this idea about Lincoln from time to time, a fact which explains the origin of Kipling's memorial poem entitled "Great-Heart" written when the Col. died.

Colonel Roosevelt's admiration for the Great Emancipator was also shown in a letter which he wrote on March 9, 1905, a few days after his inauguration, to Sir George Trevelyan, the English historian and nephew of Macaulay in which the Colonel said:

"It has been peculiarly pleasant to me to find that my supporters are to be found among the overwhelming majority whom Abraham Lincoln called the 'plain people'. As I suppose you know, Lincoln is my hero. He was a man of the people who always felt with and for the people, but who had not the slightest touch of the demagogue in him."

### SNOW SURVEY OF TWO STATES, PLAN

SACRAMENTO, Cal., Dec. 23.—Plans for a snow fall survey in which California and Nevada may join have been submitted to the state engineer's office here by Prof. J. E. Church of the University of Nevada, Reno.

A snowfall survey would be of use in determining the amount of water available during the subsequent irrigation season. Prof. Church said, and measurements made in the Sierra would be of vital interest to California farmers.
