Precinct No. 1. Beginning at a point on the north bank of intake of Klamath Irrigation Canal; thence easterly following said north bank of canal to the head of the Tunnel; thence north along Tunnel Street to its point of intersection with Oregon Avenue; thence east along Oregon Avenue to Lakeview Street; thence along Lakeview Street to Upham Street; thence north along Upham Street to the northeast corner of Lot (1) one, Block (95) ninety-five, Buena Vista Addition to the City of Klamath Falls; thence due south to Ewauna Street; thence southeast along Ewauna Street to Juniper Street; thence along Juniper Street to Center Street; thence southeast along Center Street to the bank of Lake Ewauna; thence west along the meander line of said lake to the mouth of Link River; thence southwest across the mouth of Link River to the west bank of Lake Ewauna; thence southerly along the western meander line of said lake to its intersection with boundary limits of the City of Klamath Falls; thence westerly, thence northerly, thence westerly, thence northerly, thence westerly, thence northerly, following the western boundary limits of the City of Klamath Falls to its point of intersection with the Upper Klamath Lake; thence easterly and northerly along the meander line of said lake to the source of Link River; thence due east across Link River to place of beginning.

Precinct No. 2. Beginning at the point of intersection of 3rd and Roosevelt Streets; thence due south to Ewauna Street; thence southeasterly along Ewauna Street to Juniper Street; thence southeasterly along Juniper Street to Center Street; thence southeasterly along Center Street to the bank of Lake Ewauna; thence easterly and southeasterly along the meander line of said lake to its point of intersection with Tule Street; thence northeast along Tule Street to 3rd Street; thence northwesterly along 3rd Street to place of beginning.

Precinct No. 3. Beginning at the north corner of Lot (1) one, Block 10, First Addition to Klamath Falls; thence due south to intersection of Roosevelt Street and Third Street; thence southeasterly along 3rd Street to Tule Street; thence northerly along Tule Street to 5th Street; thence

northwesterly along 5th Street to place of beginning.

Precinct No. 4. Beginning at the north corner of Block (2) two, First Addition to Klamath Falls; thence due south to the north corner of Lot (1) one, Blk (10) ten, same addition; thence southeasterly along 5th Street to Commercial Street; thence north along Commercial to 7th Street; thence northwesterly along 7th St. to the place of beginning.

Precinct No. 5. Beginning at the northwest corner of Block (1) one, First Addition to the City of Klamath Falls; thence due south to the north corner of Block (2) two, same Addition; thence southeasterly along 7th Street to Commercial Street; thence north along Commercial Street to 9th St; thence northwesterly along 9th St. to Prospect Street; thence North along Prospect to Rose Street; thence west along Rose Street to the Southwest corner of Shives Addition to the City of Klamath Falls; thence due north to Upham Street to place of beginning.

Precinct No. 6. Beginning at the northwest corner of Shives Addition to the City of Klamath Falls; thence due south to the southwest corner of said Addition; thence east along Rose Street to Prospect Street; thence south along Prospect Street to 9th Street; thence southeast along Ninth Street to Commercial Street; thence north along Commercial Street to Eleventh Street; thence northwesterly along Eleventh Street to Klamath Irrigation Canal Right of Way; thence westerly along the south boundary line of said right of way to Upham Street; thence west along Upham Street to place of beginning.

Precinct No. 7. Beginning at the intersection of the Southern Pacific Co's Right of Way with Van Ness Street; thence southeasterly along said Company's right of way to its point of intersection with the south bank of the Klamath Irrigation Right of Way; thence westerly and southerly along the south bank of said canal to its point of intersection with 11th Street; thence southeasterly along 11th Street to Commercial Street; thence south along Commercial St. to Tule Street; thence southwest along Tule Street to its point of intersection with the K. F. M. Ry's Right of Way; thence southeasterly along said right of way to its point of intersection with the Southern Pacific Co's Right of Way; thence north along said Southern Pacific Co's Right of Way to its intersection with Main Street; thence east along Main Street to its intersection with the Klamath Irrigation Canal, or the beginning of the City limits of Klamath Falls; thence northwest along the said City limits to the northeast corner of said limits. Thence west along said limits to the place of beginning.

Precinct No. 8. Beginning at the intersection of Van Ness Avenue and 1st Street; thence southerly along 1st Street to F Street; thence easterly along F Street to Lakeview Avenue; thence south along Lakeview Avenue to Upham Street; thence east along Upham Street to the north bank of Klamath Irrigation Right of Way; thence southeasterly and northerly along the north bank of said canal to the point of intersection of said bank of said Right of Way with the western side of the Southern Pacific Co's Right of Way; thence northwesterly along west side of said Company's Right of Way to Van Ness Street; thence west along Van Ness Street to the place of beginning.

Precinct No. 9. Beginning at a point on the west side, at the intersection of Main St. and the Southern Pacific Company's Right of Way; thence south along the West side of said Right of Way to the intersection of the said Right of Way with that of the K. F. M. Ry's Right of Way; thence southeasterly along K. F. M. Ry. Right of Way to the City limits of the City of Klamath Falls; thence east along City limits to the south east corner of said City limits; thence north along said limits to Main Street; thence west along Main Street to the place of beginning.

Precinct No. 10. Beginning at the point of intersection of the north boundary line of the City limits of Klamath Falls, with the meander line of the Upper Klamath Lake; thence south and easterly along said meander line to the north side of intake of Klamath Irrigation Canal; thence easterly along the north boundary line of Right of Way of said Canal to the intersection of Tunnel Street with said Right of Way; thence north along Tunnel Street to Oregon Avenue; thence east along Oregon Avenue to Lakeview Avenue; thence north along Lakeview Avenue to F Street; thence west along F Street to 1st Street; thence north along 1st Street to the north boundary line of the City limits of Klamath Falls; thence westerly following said northerly limits to place of beginning.

Grindale Precinct. Beginning at the northwest corner, Section 6, Township 38, South Range 8, E. W. M.; thence south-

easterly, thence northeasterly, following the meander line of the Upper Klamath Lake to a point on said Lake known as the Skillet Handle; thence south and easterly, following meander line of the Upper Klamath Lake to the point of intersection of the boundary limits of the city of Klamath Falls and said meander line; thence following the westerly boundary line of the City limits of Klamath Falls to the point of intersection of the limits of said City with that of the western shore of Lake Ewauna; thence following the Western meander line of said Lake and the Klamath River to the southwest corner of Section 26, Township 39 South Range, 8, E. W. M.; thence north to the northwest corner of Section 14 same Township and Range; thence west to southwest corner Section 12 Township 39 south Range 7, E. W. M.; thence north to the northwest corner of Section 36, Township 38, South Range 7, E. W. M.; thence east to the northeast corner Section 36, same Township and Range; thence north to the place of beginning.

Pelican Bay Precinct. Beginning at the northwest corner of Lot 4, Section 12, Township 38, South Range 8, E. W. M.; thence east to the northeast corner Section 12, Township 38, South Range 9, E. W. M.; thence south to the southeast corner Section 24, Same Township and Range; thence west to southeast corner Lot 2, Section 19, Township 38, South Range 9, E. W. M.; thence north following the western boundary line of the City Limits of Klamath Falls to the point of intersection of said boundary line with east meander line of the Upper Klamath Lake; thence north and west along east boundary line of said Lake to place of beginning.

Alamont Precinct. Beginning at the northeast corner of the City Limits of Klamath Falls; thence east to the northeast corner of Section 25, Township 38, South Range 9, E. W. M.; thence south to the southeast corner Section 13 Township 39, South Range 9, E. W. M.; thence west to the southwest corner of Lot 11, Section 18, Township 39, South Range 9, E. W. M.; thence northeasterly along the east meander line of Klamath River and Lake Ewauna to the point of intersection with the city limits of Klamath Falls; thence west and north along the eastern boundary line of said City limits to the point of beginning.

Algoma Precinct. It coming to the attention of the court that Buck Island is not included in any of the voting precincts, IT IS THEREFORE HEREBY ORDERED, that said Buck Island be included in, and its place of voting, shall be, ALGOMA PRECINCT.

R. H. BUNNELL, County Judge. BURRELL SHORT, Com. ASA FORDYCE, Com.

NEW PHARMACY WILL RANK HIGH

When the Pharmacy which Mr. Frank R. Robinson is equipping in the new Warren Hunt Hospital is completed, Klamath Falls will possess what will be undoubtedly the greatest Drug and Prescription Pharmacy in the State, and one of the greatest in the entire Union. Mr. Robinson certainly deserves credit for his confidence in Klamath Falls, and for his willingness to equip such an institution in a city of this size, and the residents of Klamath Falls are to be congratulated on having such an institution come here. To quote Mr. Robinson: "This Pharmacy will rank with the very finest in the land, and if I know how to make it more select and complete, I would certainly do it. Everything I can do is being done and I am willing to do still more. In my efforts to give Klamath Falls the very utmost in drug and prescription service, I have patterned this pharmacy after the famous pharmacy of the Mayo Brothers' Hospital in Rochester, Minn., and, being intimately acquainted with the management of that celebrated pharmacy, am in a position to duplicate it here in this city."

"The pharmacy will consist of three spacious rooms on the ground floor of the hospital, directly opposite the doctors' offices. The first room will be equipped with settees, arm chairs and tables, and this will be the reception room for the convenience and comfort of our patrons. Next to the reception room will be the dispensary itself. A beautifully curved glass partition will separate the two rooms, and drugs will be passed out through a connecting counter. The fixtures will be the last word in elegance and refinement.

"On the other side of the dispensary will be the manufacturing and analytical room, where from time to time pharmaceuticals will be analyzed to make doubly sure of the absolute purity of the ingredients going into the medicines.

"I fully realize the vital part a prescription plays in assisting a patient back to health again, and there will be no place in this country where more scientific methods are used than will be used here. A properly compounded prescription filled under the most sanitary conditions, and compounded by experts who do nothing else, is half the battle to health won, and when the finished product leaves our hands and passes into the hands of the patient, that patient will be able to rest assured that the highest skill has been combined with the purest of chemicals, and may know that it is impossible to obtain a more scientifically or accurately compounded prescription than the one they are taking.

"Nothing will be allowed to enter into this pharmacy which might in any way hamper the straight drug and prescription business. Patent medicines and side lines are absolutely prohibited. On the other hand, everything needed in drugs, whether it be household drugs, medical supplies or surgical supplies, may be obtained at the pharmacy. Furthermore, the staff of the Warren Hunt Hospital have kindly consented to allow me to give this class of service to the entire community, not confining it to the patients alone. Of course, the patients of the doctors of the staff of the hospital will come first, but I have made arrangements to have sufficient dispensers right from the start, so I shall be in a position to accommodate every one. There is nothing too big for me to do if I make up my mind to do it, and I am going to make the reputation of this pharmacy not only statewide, but nation-wide.

"I am going to put in reach of the people such a drug and prescription service that there will be very few who will not avail themselves of it. "The members of the staff of this hospital have demanded of me the very highest skill in the dispensing of prescriptions and drugs, and they have also demanded the very highest quality of pharmaceuticals, and it is reasonable enough to believe that this class of expert service, which these doctors have demanded, will certainly be eagerly accepted by everyone having occasion to need drugs, prescriptions and surgical or medical supplies. It may take the people a little time to realize the class of pharmacy this is, but once they comprehend that there are only two places in the whole state where this class of service may be had, then it will keep three or four dispensers busy to handle it.

"What money I have spent on this pharmacy I have been glad to spend, because in my mind there is absolutely no doubt of the fact that before many years Klamath Falls will be one of the greatest business centers in the State, and one of the best, if not the best, cities in the west. I am willing to stake everything I have on it anyhow."

Mr. Robinson deserves every success in his new venture, and there is not the slightest doubt that this pharmacy will be the unprecedented success that Mr. Robinson is working so hard and so faithfully to make it. We know of no other city except the very largest, that boasts such an institution of this kind, and it is a credit to have such a pharmacy locate here. 26-11

THREE THOUSAND TEACHERS WILL MEET, PORTLAND

PORTLAND, Dec. 26.—Final arrangements for the State Teachers' association, which is to meet in Portland, December 29, 30 and 31, have been made by President A. C. Hampton, and the complete program for the three days' session has been prepared. H. B. Wilson, city superintendent of Berkeley, California, will speak before the general assembly on "Making Education Significant," and "Americanization of Education." Dr. F. G. Bonser of Columbia university, New York, will address the assembly on "Socializing the Public School Curricula," and "Relating School Work to Life in Country Schools." Both speakers will appear before several of the departments.

Another distinguished visitor who will speak at the association, and before a number of special functions arranged especially in her honor, is Mrs. Sue Fratts, field secretary for the N. E. A. Her principal address will be before the department of class room teachers at 9 o'clock on Wednesday morning. Mrs. Fratts will speak also before the general assembly Wednesday afternoon.

Of special interest to county school superintendents, rural teachers and club workers, will be the addresses of Professor O. J. Kern, who made a national reputation in rural school work as county superintendent of Winnebago county, Illinois, and who now holds a professorship in the University of Columbia.

The head of each department has prepared a strong program on topics of vital interest to the teaching profession. Some of the questions for discussion are: "Value of Local Organization," "Changing Status of Class Room Teacher," "A Larger Unit for School Taxation," "Problem of Adolescent Youth," "Agriculture Under the Smith-Hughes Act," "Our Trade Relations With the New Republics," "The Teaching of Business English," "The Relation of Home Economics to the Thrift Movement," "War Modified Manual Training," "The Library in the Secondary School" and "Physical Education."

Tuesday morning, December 30, teachers will all meet in general assembly. Tuesday afternoon and Wednesday morning will be devoted to department work and the convention will close with a general assembly Wednesday afternoon. Great interest is being shown by teachers in all parts of Oregon, and it is estimated that not less than 3000 teachers will be in attendance at these sessions.

CACHED GERMAN EXPLOSIVE FOUND

WITH THE AMERICAN FORCES IN GERMANY, Nov. 27.—(By Mail) —Hundreds of tons of old German army ammunition were discovered recently by American soldiers in a secret subterranean cell below an ordnance depot not far from Coblenz. Numerous secret passages have been found. They lead from Barracks used for years by the German army to military points in the vicinity of Coblenz, but some of them have been out of use so long that they were virtually worthless from a military point of view. Some of the passages extended for miles.

Apparently they were neglected during the war and either filled with water or became clogged where props had given away holding up the coverings of earth. Owing to the uncertainty as to what the subterranean passages conceal, American soldier guards have been placed at various points until a complete investigation is made.

There may be an explanation of the high cost of meat in the sudden disappearance of dogs. Why spare the cats? Whenever you try to pin a profiteer down, you find he has a corner on the Hot Air supply.

Letters From The People

SCHOOL DIRECTOR IN FAVOR OF MORE PAY

Editor Herald: As a director of School District No. 1, I appreciate highly your editorial advocating the increase proposed in the salaries for the teachers of the district.

When I first came on the board the minimum salary paid was \$65 per month for nine months, or \$585 per annum. Last year the minimum was \$90 per month, and the first of this school year we made the minimum \$95 per month and on November 24 an added \$5 per month was given, making the rate for the balance of the year \$100 per month, or at the rate of \$1000 per annum, as we now have ten months' school year.

The increase asked for now is only for this year's deficiency, as we have provided in the budget for next year for the proposed increases.

We do not ask this of the taxpayers because some other town may be paying higher rates than we, which we do not know to be a fact, but because rent, shoes, clothing and board have advanced here far beyond any calculation of the board, in fixing the salaries at the beginning of the school year. At that time we were paying as good salaries as any town of the size in the state, but lately some other towns have done as we are doing, asking for authority to make increases.

We have, as you say, a corps of teachers of whom we may well be proud. We have employed, so far as possible, those having normal school training, and their education has taken several years' time and large expenditure of money, and I hope the voters will bear this in mind at the election. C. C. HOGUE.
