Rex Cafe

When in doubt what to eat, think of the Rex Cafe. Here you can get the best of service and food. Suggest to your friends that the Rex is the place where you care to go when dining out or for your regular meals. Special dinners on Sundays and an Extra Special dinner on New Year's. Watch for the menu.

THE REX CAFE

OREGON BREVITIES

ENTERPRISE, Dec. 26.—Enterprise voters by an almost unanimous vote have approved of an issue of \$120,000 for extension of the present water system and \$50,000 in bonds for paving street intersections. It is estimated that the bonds voted for water works extension will provide water for a population of 10,000 people.

ASHLAND, Dec. 26.—Two important garage deals were made this past week. The Harrison Brothers' garage closed a deal with S. R. Morris and Perry Ashcraft whereby these two expert mechanics take full charge of the repair work; the Park garage has been sold to Mark Hamaker and Alfred Morris by the former owner, O. B. Hatfield, and the new firm is making a number of improvements.

PORTLAND, Dec. 26.—The Lumbermen's Trust company is offering at prices to yield 5.125 and 5.25 per cent interest, according to maturity, five series of City of Klamath Falls street improvement 6 per cent bonds, totaling \$97,031.22. The bonds constitute a general obligation of the entire city. Klamath Falls at the present time ranks as the eighth city of Oregon in bank deposits, having advanced from tenth place since last September. The last call, November 17, shows that the three banks of Klamath Falls have deposits of \$3,204,702.18, a gain of \$862,759.56 in two months.

PORTLAND, Dec. 26.—Much interest was shown in the Oregon land exhibits on display in the Union Pacific building at Omaha this summer. Over 14,000 people visited the exhibit room between January 1 and December 1, 1919, according to a message received by William McMurray, general passenger agent of the O.W., from R. A. Smith, supervisor of agriculture for the railroad administration at Omaha.

PORTLAND, Dec. 26.—"Eastern Railroad officials have, even a wider variety of suppositions as to the possible date of return of the railroads to private operation than the western officials," says W. D. Skinner, traffic manager of the S. P. & S., who has returned from an extended visit in eastern cities.

PORTLAND, Dec. 26.—James S. Stewart, member of the legislature from Gilliam county during the last session, and now residing at Corvallis, has been chosen by the Johnson forces to manage the campaign of their candidate in Oregon.

ROSEBURG, Dec. 26.—A campaign to effect a dress reform among high school girls was started here Friday by the members of the Benton Parent-Teacher association, which charges that high school girls are wearing garments not only detrimental to health but uncomfortable.

EUGENE, Dec. 26.—After having been lost in the Cascade mountains for three days and two nights, Henry Holmes, a young farmer of Walterville, returned home yesterday none the worse for his experience.

Only seven metals were known in the days of Columbus. There are now more than fifty in use.

It is just one hundred years since the famous Royal Conservatory near Cape Town was established.

MINE FIRE HAS BEEN BURNING FOR 20 YEARS

JEROME, Ariz., Dec. 26.—The fire, which for more than twenty years has burned in the upper levels of the United Verde Copper Mine here, is about to be eliminated by a drastic process of lowering the entire surface of the property to a 400-foot level. All attempts to extinguish it have failed.

It is the general opinion that the fire was started by a slip in the rock producing sufficient friction heat to ignite the ores rich in sulphur. It has burned its way through veins of copper, gold and sulphur.

The process of suppressing the fire involves the removal of 14,000,000 cubic yards of material. The area to be evacuated is roughly estimated at 460 by 800 feet. Monster steam shovels are to be employed in the work.

It is expected that the task of removing the entire top of the mine, and to extinguish the fire, will occupy several years.

DON'T LET RIFLE RUST YET, SAYS AUSTRALIAN

SYDNEY, Australia, Nov. 26.—(By Mail)—Sir Joseph Cook, Minister for the Navy, is urging military preparedness upon Australians. At the annual meeting of the Navy League, he said:

"Spend your last dollar on preparing for a fight to the last. We have signed the peace, but Europe is still full of mutual hatreds, even among the Allies. Until there is a general movement for disarmament, as I hope there soon will be, we must trust to the League of Nations—and keep our powder dry."

"We cannot afford to let the rifle rust yet awhile, though we have a League of Nations which we hope will fructify," he told the National Rifle Association. "Our rifles must be kept well oiled, and you must be able to shoot them as in times gone by if this country is to be safe. We may yet need our rifles here in Australia."

To the Women's Reform League, Sir Joseph said: "Our hope must be centered in the League of Nations. It is the one great hope of the world, but if we cannot make it effective in the near future we had better get ready for the next war, which will otherwise come as surely as the sun rises."

The velocity of electricity far exceeds that of light. Light travels at the rate of 136,400 miles a second; electricity at the rate of 248,500 miles a second.

The celebrated Muzo mine in Colombia is the only mine in that country which produces emeralds, and so far as is known is the only mine of its kind in the world.

Better Tone

How The Brunswick Attains It

EVEN the most casual hearing of The Brunswick gives instant and conclusive evidence of its tone superiority. Your ear immediately detects the difference.

This betterment is due to the Brunswick Method of Reproduction, which includes two new ideas—the Ultona and the All-Wood Tone Amplifier.

The Ultona plays all records at their best, whatever make. Just a turn of the hand and the Ultona presents to each type the proper weight, diaphragm and needle according to its exact requirements.

Perfect reproduction is followed by perfect tone development through the new All-Wood Tone Amplifier. No metal is used in its construction.

Investigate The Brunswick before you buy; a visit to our shop will give you new standards by which to judge.

The Large Can Saves 25cts on the Dollar

—and Crescent Baking Powder does not deteriorate. Even after the can is opened Crescent retains its original strength and efficiency.

Therefore you make this positive saving in the 5 lb. tins of Crescent.

We know indeed that Crescent stands the severest tests for baking efficiency and all around good qualities, for not a pound can get by the rigid tests and technical scrutines of our chemists.

Crescent raised foods are light, sweet, and wholesome.

Your grocer can supply you.

Crescent Baking Powder

Guaranteed in American Blood

From speech in U. S. Senate by Hon. Medill McCormick.

"Woe unto the world because of offense: for it must be that offenses come; but woe unto that man by whom the offense cometh."

Great powers, political and financial, are eager to frighten and to coerce, to drive senators to subordinate judgment to expediency. During the long months which followed the armistice, was anything done to reduce the costs of living for the people of this land? They were heavy in January and February, as well as in July and August. No process was invoked and no appeal was made to lighten the burden then, but now we must haste.

In our haste let us not forget that in the awakening Orient, in China, and in those conquered empires yonder, there are twice as many millions as there were in all the countries of Western Europe which were engaged in the war. If we shrink from our duty, if (under the present terms of the league covenant) we consent to the guaranty of territories, if we consent that America shall be an instrument to repress revolution, we shall not only consecrate the wrongs of the past, but by our act we shall pledge America against conscience and judgment to take part in the great war which this treaty promises. Our young men will go forth to defend cities of which they never heard. In the high places of Asia the snow will cover the frozen bodies of Americans perhaps now unborn, and American mothers—little girls today, mayhap, playing in the summer air about the dooryards—will mourn their sons fallen in the desert wastes of Syria and Egypt.
