**MUST REGISTER TRADE MARKS**

RIO DE JANEIRO, Nov. 24.—(By Mail)—American merchants and manufacturers doing business in Brazil are advised by the American Chamber of Commerce for Brazil to lose no time in having their trade marks registered in this country. For several months the American Chamber has been working to secure changes in Brazilian trademark laws which are declared to be burdensome and unsatisfactory to foreign commercial interests.

Recent wholesale appropriation of American trade marks, through local registration by unauthorized persons, has given impetus to the movement. A series of recommendations drafted by the American Chamber seeking to remedy the present situation have been approved by the powerful semi-official Commercial Association of Rio De Janeiro and are now before congress for action.

Explaining the situation, an official of the American Chamber said

to The Associated Press correspondent: "As the law now stands, foreign trade marks, in order to secure protection for exclusive use in Brazil must be recorded, deposited and published not only in the Federal capital but also in each of the 21 states. Court decisions indicate that ownership is based on registration, and six months after registration ownership becomes incontestable. In cases of unauthorized registration, the legitimate owner of a trade mark is virtually excluded from the Brazilian market, because any article bearing his mark is subject upon arrival to confiscation by the person holding the registration. Recovery of the trade mark by the legitimate owner may be regained only upon such terms as the holder dictates. Scores of well-known American trade marks have been registered here during the last few weeks, many of them undoubtedly without the knowledge or authorization of the owners."

The principal changes urged in the present laws are that Rio de Janeiro be made the central bureau for registrations for all Brazil, and that the time in which suit may be brought against unauthorized holders of trade marks be extended from six months to two years.

porting their chief industry has been exhausted. Sawmills and wood-working establishments close, subsidiary interests can no longer exist, the population moves away, farms are abandoned, roads and other public improvements deteriorate, and whole townships and even counties are impoverished."

"A few individuals may have realized handsomely from the speculative enterprise. The community has been gutted of its principal capital."

"This is not an occasional occurrence. It is the history of millions of acres of land unproductive and now an economic desert."

"The states should adopt a policy of taxing forests that would encourage rather than hinder the practice of forestry."

"I do not concur in the proposals that have been made for federal legislation relative to agreements in restraint of trade, but I believe that public participation is necessary to meet the difficulties."

"We have been discussing these problems for many years, but we have made little progress in securing the right handling of private lands."

"I urge that those interested in the forest problem join in bringing about some definite and conclusive action."

**PRIVATE FOREST PROBLEMS BIG SAYS FORESTER**

In a pamphlet on private forestry, issued by the Forest Service, Henry S. Graves, chief of the national bureau of forestry, calls attention to some of the existing problems of lumbering in the United States and outlines a program of action for their relief. Extracts from the booklet are as follows:

"The emphasis placed on the public forests in recent years has tended to throw into the background the problems of our private forests."

"Less than 2 per cent of the sawmills of the country are operating on public forests."

"Leaders of the southern pine manufacturers state that the bulk of the original supplies of yellow pine in the south will be exhausted in 10 years and that within the next five to seven years more than 3000 manufacturing plants will go out of existence."

"Already paper manufacturers are embarrassed for supplies."

"Sometimes forests are wiped out by a great conflagration like that in Minnesota last fall that killed several hundred people and destroyed many million dollars' worth of property. Generally the process is slower and less spectacular, but the consequences are just as serious."

"Hundreds of communities are suffering because the resource sup-

In booking a football game with Centre College next fall, it looks as if Harvard had beaten the big teams to it. Centre's gridiron warriors are bound to be a big attraction.

Unless Manager Tris Speaker of the Cleveland Indians is sadly mistaken, Pitcher Roy Caldwell will be the wonder of the American league next season.

**WAS SURPRISE OF HIS LIFE, HE SAYS**

**HAD SUFFERED TWENTY YEARS—FULL OF LIFE AND ENERGY SINCE TAKING TANLAC**

"I was twenty years finding a medicine to reach my case but, thanks to Tanlac, I have found it at last," said C. H. Leep, a retired farmer, who resides at 210 East Fifty-Sixth Street, Los Angeles, Cal., while talking of the benefits he had received from taking Tanlac. Continuing, he said:

"For all these years I have been suffering with my stomach, nothing I ate would digest and gas would form and I would suffer with intense pains, and I also had a pain in my side of late years nearly all the time. I was bothered a great deal with constipation and had to be taking some kind of laxative all the time, and felt tired and worn out and had no life or energy and was extremely nervous."

"I had taken a lot of different sorts of medicine but none of them did me any good and one day not long ago my son suggested I try Tanlac. I took his advice and before I had taken half a bottle I knew I had struck the right medicine and was so surprised at my improved condition and it had come about so quickly I could hardly believe it. Every bit of gas and pain disappeared and I began to feel strong and good once more and while I have taken only a few bottles altogether I am full of energy, feel fine all the time eat heartily, sleep like a log and never know what it is to be nervous. I am glad to say a good word for a medicine that helps any one as Tanlac has me."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Merc. Co.—Adv.

Sealskin is naturally of a light drab color, but it is dyed for the market.

**PRIVATE OWNERSHIP**

**Superiority Demonstrated in World War**

E. N. Hurley, who served throughout the war as chairman of the United States Shipping Board, was asked what in his job had impressed him most. He answered:

"The efficiency of private ownership and operation as compared with public ownership and operation—ALL PRODUCTION CENTERS ON THE COST—you can't get away from that. Shift responsibility for the cost, for the best possible result under a given set of circumstances and you shift the responsibility for efficiency. On the Shipping Board, we shifted this responsibility from private shipbuilding concerns to the Government.

"With the shifting of responsibility of cost to the Government, that keen interest in results which follows private initiative was gone. THERE YOU HAVE THE WHOLE PROBLEM AS BETWEEN PUBLIC OWNERSHIP AND PRIVATE OWNERSHIP STATED.

"I don't know of a government-owned plant that produces more than two-thirds efficiency. In the years to come some way may be found to keep incentive to best endeavor in men under government ownership, but until that is discovered that system may be classed as a failure."
